#### Disclaimer

This document contains statements about expected future events and financials of KRN Heat Exchanger and Refrigeration Limited, which are forward looking. By their nature, forward-looking statements require the Company to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that the assumptions, predictions and other forward-looking statements may not prove to be accurate. Readers are cautioned not to place undue reliance on forward-looking statements as a number of factors could cause assumptions, actual future results and events to differ materially from those expressed in the forward-looking statements. Accordingly, this document is subject to the disclaimer and qualified in its entirety by the assumptions, qualifications and risk factors referred to in the Management Discussion and Analysis of this Annual Report.

ANNUAL REPORT 2024-25

### **ABOUT KRN**

## KRN AT A Flance

KRN Heat Exchanger and Refrigeration Limited (KRN) is a leading manufacturer and exporter specializing in precision-engineered aluminium and copper fin heat exchangers, water coils, condensers, and evaporator coils.

Serving prestigious OEMs, KRN is a trusted partner in the HVAC&R industry, delivering customized solutions that meet diverse specifications and international quality standards.

Our state-of-the-art manufacturing facility in Neemrana, Rajasthan, integrates cutting-edge technology and advanced processes under one roof, ensuring stringent quality control and quick turnaround times. We leverage deep expertise and robust R&D capabilities to

continually expand our product portfolio and manufacturing capacities.

Committed to innovation and customercentricity, KRN recently established its wholly owned subsidiary, KRN HVAC Products Private Limited, to broaden its value-added offerings and strengthen its market reach both domestically and internationally. Exporting over one-third of our production, we strive to consistently exceed customer expectations, reinforce long-standing supplier relationships, and enhance operational efficiencies. KRN's cohesive approach to design, manufacturing, and quality firmly positions us to expand boundaries and sustain excellence in the evolving HVAC&R global landscape.

As a leading manufacturer of precision-engineered HVAC&R heat exchangers and components, KRN leverages decades of expertise to deliver innovative, high-quality solutions that create value across diverse global industries.

# 

In an era defined by relentless innovation and boundless opportunity, KRN Heat Exchanger and Refrigeration Limited stands as a beacon of progress—expanding boundaries and sustaining excellence at every turn. Our journey is one of purposeful evolution, where each milestone achieved becomes the foundation for new horizons and every challenge met is an invitation to redefine what's possible.

At KRN, our commitment to excellence is woven into the very fabric of our operations. As a leading manufacturer and exporter of aluminium and copper fins, copper tube heat exchangers, water coils, condensers, and evaporator coils, we have earned the trust of renowned OEMs across the HVAC&R industry. Our products power the ambitions of industry giants—testament to our unwavering dedication to quality and performance.

Our state-of-the-art manufacturing facility, equipped with cutting-edge technologies sourced globally, enables us to deliver customized, high-performance solutions that cater to the diverse needs of domestic, commercial, and industrial applications.

Whether it's optimizing climate control in residential spaces, supporting the vast cooling demands of commercial complexes, or empowering the precision required in data centres and critical infrastructure, KRN's advanced coil designs are at the heart of progress.

As the world embraces the transformative power of artificial intelligence and digital connectivity, the demand for robust, reliable cooling solutions has never been greater. KRN rises to this challenge, ensuring that data canters—the backbone of the digital age—operate seamlessly, efficiently dissipating heat and safeguarding missioncritical operations. Our expertise in thermal management not only sustains the excellence of today's infrastructure but also enables the innovations of tomorrow.

As we chart the course ahead, our vision remains clear: to expand the frontiers of what's possible, to sustain the trust we have earned, and to empower a future where excellence is not just maintained, but continually reimagined. At KRN Heat Exchanger and Refrigeration Limited, we are not just keeping pace with change—we are driving it, one innovation at a time.

We believe that true leadership is defined by the courage to push boundaries while remaining steadfast in our pursuit of excellence. Through rigorous quality standards, rapid turnaround times, and a relentless focus on customer satisfaction, we continue to exceed expectations and set new benchmarks in our industry.

SECRETARIA L. L. L.

Our certifications underscore a steadfast dedication to excellence. ensuring reliability and customer trust in every aspect of our operations.

### **OUR STRENGTH**

# OUR SOURCE OF SUSTAINING Excellence

#### Industry Leader

As a premier manufacturer and exporter of aluminium and copper fins, copper tubes, heat exchangers, water coils, condensers, and evaporator coils, we serve leading OEMs in the HVAC&R industry.

Our products consistently meet and exceed international quality standards.

12

#### Scalable Architecture

Our flexible manufacturing capabilities allow seamless adaptation to evolving design specifications and fluctuating demand, empowering us to thrive amid dynamic market conditions and promotional strategies.

## Customer Driven

Delivering tailored designs that precisely align with each customer's unique requirements, we place client satisfaction at the heart of our innovation.

## State-of-the-Art Facility

Equipped with cuttingedge production and testing technologies, our advanced manufacturing infrastructure ensures uncompromised quality and operational efficiency.

#### Design Expertise

Backed by over two decades of industry experience, our deep engineering proficiency drives innovation and excellence across all products...

#### Quality Assurance

Our coils rigorously comply with stringent quality, performance, and safety standards, reinforcing our commitment to reliability.

#### Responsiveness

We provide swift, effective support and solutions that address both ongoing and new customer demands with precision.

#### Quick Turnaround Time

Committed to delivering within defined timelines, our production processes ensure timely fulfilment without compromising quality.

## A JOURNEY OF INNOVATION, GROWTH, AND excellence

Our journey at KRN Heat Exchanger and Refrigeration Limited has been defined by vision, precision, and purposeful progress. From our incorporation in 2017 to becoming a publicly listed company in 2024, each milestone reflects our relentless drive to excel-expanding capacities, entering global markets, enhancing capabilities, and setting higher standards across manufacturing, innovation, and customer commitment.

Entered international

markets by beginning

exports.

Our evolution continues—stronger, smarter, and future-ready.

- Began manufacturing operations with installed machinery.
- Achieved ISO 9001:2015 certification for quality management.
- Secured key 0EM clients, establishing market credibility.

- Expanded manufacturing footprint to 7,800 sq. meters.
- Installed advanced equipment including Helium Leak testing and NCT Punching machines.
- Established dedicated facility for large heat exchangers.
- Obtained IS 11329:2018 BIS certification.

- Incorporated as a private limited company in Rajasthan.
- Set up the first manufacturing plant specializing in fin and tube heat exchangers for HVAC&R.

2017

2024 **IPO** and Strategic Expansion

- Completed IPO raising ₹ 342 crore.
- Listed on BSE and NSE, enhancing financial flexibility.
- Subsidiary obtained factory licenses and began land acquisition for new manufacturing unit.
- Received industry recognition including a Certificate of Appreciation from Daikin.

- Commissioned new Kolila (Neemrana) plant following ₹235 crore investment.
- Achieved significant revenue growth with strong profitability.
- Secured vendor approval from Indian Railways for supplying Oil Cooler Radiators for Converter Transformers.
- **Subsidiary Incorporation:** Launched Thermotech Research Laboratory Private Limited to advanced HVAC&R testing and training facility in India.
- Serving over 137 customers globally with exports to multiple countries.
- Manufacturing capacity stands at 1 million units annually, supported by 780+ employees.

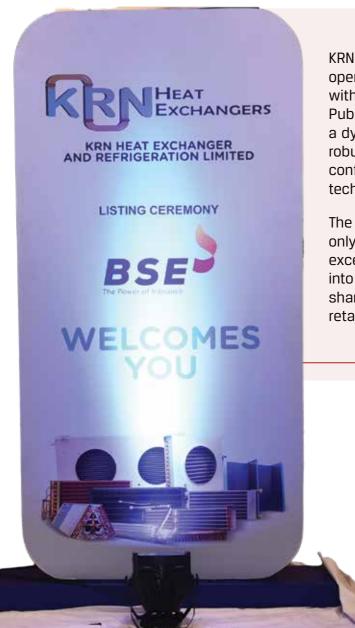

Scaling Operations and Market Leadership

**IPO** 

# IPO LAUNCH: USHERING IN A NEW EPOCH OF Growth

KRN HEAT EXCHANGER AND REFRIGERATION LIMITED

KRN Heat Exchanger and Refrigeration Limited opened a landmark chapter in its growth journey with the highly successful launch of its Initial Public Offering (IPO) on October 3, 2024. Amidst a dynamic market landscape, the IPO attracted robust investor enthusiasm, underscoring confidence in KRN's resilient business model, technological prowess, and long-term vision.

The overwhelming response to the IPO not only validated our track record of sustained excellence but also marked our formal entry into the capital markets, broadening KRN's shareholder base to include a diverse mix of retail and institutional investors, both domestic

and global. What started as a privately held enterprise—rooted in innovation and precision engineering—now proudly welcomes new partners into its fold, united by shared aspiration and belief in KRN's future.

The listing symbolizes more than just financial achievement; it embodies our commitment to transparency, corporate governance, and inclusive value creation. The fresh capital raised will empower KRN to accelerate capacity expansion, invest in advanced technologies, and extend our global reach—fuelling the next phase of transformational growth.

As we embark on this exciting journey as a listed company, KRN pledges to deliver enduring value and make every shareholder proud to be part of our story. Together, we look forward to expanding boundaries and sustaining excellence—today and for generations to come.

**Local Roots, Global Reach** 

What began as a proudly Indian endeavour has evolved into a distinguished global supplier of advanced heat exchange solutions—a transformation powered by our unwavering drive for innovation, engineering finesse, and readiness to anticipate tomorrow's needs. Today, we are shaped as much by the spirit of Atmanirbhar Bharat as by the scale and sophistication of our international presence.

With strong roots across 17 states in India and a rapidly expanding reach to 14 countries worldwide, our vision is simple yet bold: excellence knows no boundaries. KRN's integrated operations

are underpinned by an extensive multimodal supply chain network. This enables efficient raw material sourcing and ensures our products reach customers swiftly and reliably-making us a trusted partner for a diverse global clientele.

As we take Indian ingenuity to the world, we are redefining what it means to be locally rooted and globally renowneddelivering solutions that connect industries, power progress, and sustain the futures of communities near and far.

ANNUAL REPORT 2024-25 COMPANY OVERVIEW STATUTORY REPORTS FINANCIAL REPORTS

# ON OUR CORE Trengths

Our strengths lay the foundation for our success. We continuously enhance our capabilities across every vertical, establishing a solid base for sustainable and long-term value creation.

#### Strong and highly experienced Leadership

At the helm of KRN is Chairman and Managing Director Mr. Santosh Kumar Yadav, whose robust leadership drives the company's success. Holding diplomas in Business Management from the Institute of Management Technology, Ghaziabad, and Mechanical Engineering from the Board of Technical Education, Rajasthan, he combines academic excellence with over 20 years of hands-on experience in manufacturing heat exchangers and refrigeration units. His unwavering commitment to operational excellence and customer-centric, customized solutions aligned with international standards is foundational to KRN's sustained growth.

#### **EXPERIENCED LEADERSHIP**

## Message from CHAIRMAN AND MANAGING DIRECTOR

#### Expanding Boundaries, Sustaining Excellence

As we close the FY 2024-25, I am honoured to address you at this time of remarkable progress and renewed ambition for KRN Heat Exchanger and Refrigeration Limited. This year, the successful completion of our Initial Public Offer (IPO) was a pivotal achievement, reflecting the deep trust of our stakeholders and the commitment of our team. The IPO not only fortified our financial position but also enhanced our reputation, unlocking new opportunities for sustainable growth and value creation.

#### Global and Domestic Landscape: Navigating Uncertainty with Resilience

The global economy continues to operate within a dynamic and challenging environment. Geopolitical tensions, shifting trade alignments, inflationary pressures, and supply chain recalibrations remain significant concerns. However, amidst this volatility, the industrial sector — particularly energy efficiency and climate-resilient solutions — has emerged as a resilient growth pillar. Increasing investments in decarbonization, renewable energy integration, and smart infrastructure are reshaping the heat exchanger and refrigeration industry worldwide.

On the home front, India's economic outlook is exceptionally promising. Government initiatives like "Make in India" and "Atmanirbhar Bharat" have spurred growth across manufacturing, infrastructure, and sustainable technologies. The Indian heat exchanger sector is projected to reach

USD 1.87 billion by FY 2031-32, growing at nearly 9% annually. Demand is being driven by sectors such as HVAC, food processing, cold chains, data centres, and healthcare—all areas where KRN is well positioned to provide innovative solutions.

At KRN, we are deeply embedded in this evolving landscape — both as a contributor and a beneficiary.

## Industry Landscape: Opportunities in Transition

The Indian Heat Exchanger industry is undergoing a transformation. From being cost-driven and commodity-focused, it is now pivoting toward customized, efficient, and sustainable solutions. With increasing adoption of international standards, digital monitoring technologies, and low-GWP refrigerants, the market is expanding in both scope and sophistication.

In this vibrant landscape, KRN stands out — as a partner of choice for OEMs and industrial customers — with a product portfolio that balances scale, precision, and performance. Our six product lines, backed by two manufacturing facilities, are capable of catering to a wide range of applications, from airconditioning and refrigeration to process cooling.

#### Strategic Strengths and Growth Roadmap: Building on a Strong Foundation

FY 2024-25 has been a defining year for us. Our consolidated revenue reached  $\stackrel{?}{\sim}$  429.85 Cr, with EBITDA of  $\stackrel{?}{\sim}$  70.51 Cr and net profit of  $\stackrel{?}{\sim}$  52.88 Cr -

underscoring our operational strength and market relevance. Our ROE of 16.81% and ROCE of 14.61% reflect healthy capital efficiency.

But beyond numbers lies the core of our strategy — differentiation through innovation, customer intimacy, and operational excellence.

We continue to invest in product innovation and R&D — from frost-free evaporators and wire-ontube condensers to roll bond evaporators and finned tubes – aimed at enabling energy-efficient, compact, and environmentally responsible solutions. Our dedicated in-house R&D centre has a specialized team focuses on innovative heat exchanger designs to improve efficiency and meet customized customer specifications. This centre underpins our commitment to quality, product innovation, and aligning with international standards. Our rigorous testing protocols and proprietary coatings stand as proof of our commitment to quality. Our commitment to quality is unwavering, with our products undergoing stringent quality checks and adhering to industry accreditations such as BIS Product Certification (IS 11329: 2018), SZUTEST Conformity Certificate (2215001), and ISO 9001:2015 for manufacturing excellence

The recent green light as an approved vendor by the Ministry of Indian Railways is a testament to our quality and reliability, opening avenues in high-growth sectors such as railway electrification. By venturing into distribution and sales channels through forward integration, we will gain greater control over marketing and customer engagement, enhancing brand visibility and fostering direct relationships with end-users. This initiative will not only improve operational efficiency but also strengthen KRN's position across the value chain, supporting sustainable growth and increased revenue potential domestically and internationally.

Further, our diversified customer base across 11 end-use segments and robust production capacity of 1 million units annually positions us well to scale new frontiers. With upcoming products and

26

enhanced automation, we are well-poised to tap into both domestic and international demand.

#### **Performance and Future Growth**

FY 2024-25 was marked by strong financial results and strategic investments. Our revenue from operations for FY 2024-25 reached ₹ 429.85 Cr, representing healthy year-on-year growth. Net profit rose to ₹ 52.88 Cr, and our net profit ratio was a robust 12.30 %. Over the years, we have achieved a revenue CAGR of nearly 31.75 % and a net profit CAGR exceeding 25.55 %. Our improved debt-to-equity ratio of 0.07 highlights our sound financial management.

To expand the business of our Company and to reap the benefits of forward integration, the funds raised through our IPO are being invested in expanding our manufacturing capabilities via our wholly-owned subsidiary, KRN HVAC Products Private Limited. The new facility in Neemrana, Alwar, will allow us to introduce new products such as roll bond evaporators, oil cooling units, and bar and plate heat exchangers—addressing the evolving needs of sectors like railways, compressor manufacturing, and refrigeration.

## **ESG Commitment: Growth with Responsibility**

At KRN, growth is not just about economic performance — it is about purpose. Our ESG agenda reflects our belief that responsible business is sustainable business.

We are focused on reducing our energy, carbon and water footprint, minimizing waste, and adopting green energy solutions in our facilities. We support community upliftment through education, vocational training, and health initiatives, while ensuring inclusivity and safety within our workforce. Our Board-led frameworks ensure transparency, risk management, and stakeholder accountability — guided by integrity and long-term orientation.

We have mapped our ESG efforts to the UN Sustainable Development Goals and will continue to deepen our impact.

In this vibrant landscape, KRN stands out — as a partner of choice for OEMs and industrial customers — with a product portfolio that balances scale, precision, and performance. Our six product lines, backed by two manufacturing facilities, are capable of catering to a wide range of applications, from air-conditioning and refrigeration to process cooling.

#### **Looking Ahead**

I extend my sincerest gratitude to our dedicated employees, whose hard work and commitment are the driving force behind our success. We are equally thankful to our valued customers, suppliers, and all stakeholders for their continued trust and support. Together, we will continue to expand boundaries and sustain excellence, driving KRN towards a future defined by innovation, resilience, and shared success.

Warm Regards,

Santosh Kumar Yadav Chairman and Managing Director

## KRI

#### PRODUCTION CAPABILITY

## 

Established in August 2017, KRN's manufacturing facility spans over an extensive area of 150,000 Sq Ft. It is strategically located in the E.P.I.P. Zone of RIICO Neemrana, Rajasthan, which holds significance as part of the Delhi-Mumbai Industrial Corridor (DMIC) and the Delhi-Mumbai Freight Corridor.

KRN's manufacturing facility stands at the core of our business excellence—designed to deliver precision, scalability, and reliability in line with the evolving needs of our global clientele. Our entire manufacturing operations are carried out at our consolidated manufacturing facility comprising 2 industrial plots situated in the RIICO Industrial Area, Neemrana, Rajasthan. Built on a strong foundation of over two decades of engineering expertise, our state-of-the-art manufacturing unit is equipped to seamlessly carry out end-to-end processes—from product design and development to material sourcing, precision assembly, testing, and final packaging—all under one roof.

We operate a dynamic, technology-driven setup that ensures better control over quality, consistency, and efficiency. Our advanced machinery and infrastructure not only enable us to cater to bespoke and highly stringent specifications across HVAC&R applications but also give us a competitive edge through reduced reliance on external job work—translating into cost advantages for our customers without compromising on quality.

Strategically located and built for scale, our facility empowers us to serve a diverse, global customer base with tailored solutions delivered on time and to exacting standards. Every component that leaves our floor is a reflection of our commitment to excellence, innovation, and customer-centric manufacturing.

Aligned with the vision of Atma Nirbhar Bharat, we continue to build a resilient, future-ready manufacturing foundation that meets growing domestic needs and bolsters our presence in global HVAC&R supply chains.

### 150,000 Sq ft

Manufacturing Facility

#### 1 million units

Installed production capacity

#### **Machineries**

We have modern, well-equipped manufacturing facilities featuring a strategic mix of indigenous and imported machinery. Our core equipment includes:

- Fin Processing Machines: Specialized units that form and press fins onto tubes to maximize heat transfer efficiency.
- Brazing Processing Machines: Essential for joining fin and tube assemblies, ensuring strong, leak-proof bonds.
- Vertical Expansion Machines: Used to expand tubes vertically for tight fitting with fins, enhancing assembly integrity.
- Tube Processing Machines: High-precision equipment for cutting, bending, and endforming tubes used as headers or coils.
- Bending Machines: For accurate shaping of tubes and headers to custom designs without material compromise.

- Drying & Cleaning Machines: Maintain surface quality by removing contaminants and preparing components for coating.
- Header (Piping) Processing Machines: Dedicated to fabricating and assembling fluid distribution headers within heat exchangers.
- Painting Machines: Automated units that apply protective coatings for corrosion resistance and finish.
- Material Handling Equipment: A broad range of machines facilitating efficient movement of components and finished goods.
- Testing Machines: Including helium leak detection and pressure testing devices to ensure product quality and compliance.
- Sheet Metal Processing Machines: Such as punching, cutting, and CNC bending machines for fabricating casings and structural parts.
- Tools and Utility Machines: Support equipment enabling smooth and efficient production processes.

This robust machinery portfolio reflects our continuous investment in technology upgrades and underpins its capability to deliver reliable, high-quality, customized heat exchanger solutions to global clients.

28

#### PRODUCT PORTFOLIO

## **ENGINEERED**

#### **Evaporator Coils**

KRN's evaporator coils are manufactured using high-grade copper tubing and aluminum fins, ensuring faster cooling cycles and efficient refrigerant flow. These coils are engineered for maximum thermal efficiency and are ideal for both industrial and commercial refrigeration systems.

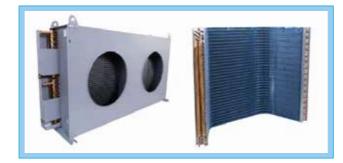

#### **Key Features:**

- Fin spacing from 1.15 to 8.5 mm for various HVAC and refrigeration systems; Customizable fin patterns
- Hydrophilic coating prevents water droplets in refrigerated spaces.
- Multiple refrigerant circuits ensure balanced distribution.
- Dual evaporators for industrial and transport use.
- Defrosting with electrical heaters or hot gas circuits.
- Bent coils with end plates for heat pumps.
- High heat transfer efficiency
- Low pressure drop
- Customizable fin patterns

#### **Applications:**

- Cold rooms
- Commercial freezers
- Process chillers
- Food and dairy storage units

#### **Condenser Coils**

KRN offers high-performance condenser coils that provide excellent corrosion resistance and mechanical strength. Suitable for various refrigerants, these coils are ideal for demanding cooling applications.

#### **Key Features:**

- Designs include end plates, frames, or casings for fan mounting,
- Made from galvanized steel, aluminum, stainless steel, brass, and copper.
- Custom painting and bent coils for compact units.
- Subcooling circuits and additional valves optional.
- In-house production ensures quality control.
- Anti-corrosion coatings available
- Seamless copper tubing
- Enhanced fin geometry

#### Applications:

- Used in HVAC, refrigeration, and transport for heat dissipation
- Heat recovery systems
- Supermarket refrigeration

#### Fluid and Steam Coils

Built for steam and hot water applications, KRN's fluid and steam coils are designed to deliver consistent performance in hightemperature and industrial environments.

#### **Key Features:**

- Fluid coils heat or cool air by circulating fluid through finned tubes.
- Working fluids include water, glycol solutions, brine, or other viscous fluids.
- Designed to handle high temperature, pressure, and condensate removal.
- Compatible with high-temperature fluids
- Multiple row configurations
- Leak-proof headers and end-plates

#### **Applications:**

- Fluid Coils are used in AHUs, dry-coolers, fan-coils, oil coolers, and other systems
- Steam coils are used for heating and processing in HVAC and industrial applications
- Textile and dyeing industry
- Hospitals and laboratories
- Process heating plants

KRN Heat Exchanger and Refrigeration Limited's product portfolio exemplifies the company's commitment to quality, engineering precision, and customercentric innovation. Designed to meet the evolving needs of industries across HVAC, refrigeration, and process cooling, each product category is manufactured with a focus on performance, energy efficiency, and durability.

## RP

#### Condensing Units & Air-Cooling Units

KRN manufactures compact and energyefficient condensing and air-cooling units, tailored for modern commercial refrigeration applications.

#### **Key Features:**

- A refrigeration circuit includes a compressor, condenser, throttle device, and evaporator.
- The compressor sends refrigerant to the condenser to release heat.
- Refrigerant passes through the expansion valve into the evaporator to absorb heat.

- The condensing unit consists of a compressor, condenser coil, and fan motor.
- The air-cooling unit consists of an evaporator coil, fan motor, controls, and optional defrost heaters.
- Custom units available in various sizes and designs.
- Compact footprint
- High static fan motors
- Environmentally friendly refrigerants

#### **Applications:**

- Undercounter chillers
- Display cabinets
- · Ice-cream freezers
- · Pharmaceutical coolers

#### Sheet Metal Parts

KRN's sheet metal components are customfabricated for strength and reliability. These parts support structural and protective requirements in thermal systems.

#### **Key Features:**

 Produce custom sheet metal components (e.g., end plates) for coils and condensing units.

- Utilize advanced hydraulic and CNC punching machines for precision.
- Provide tailor-made parts for in-house assembly with high-quality materials
- Galvanized/stainless steel options
- Corrosion-resistant powder coating
- Light-weight and structurally sound

#### **Applications:**

- Equipment housing
- Mounting frames
- Enclosures and support structures

#### Headers / Copper Parts

KRN's copper headers and branch circuits ensure precise refrigerant distribution and high system integrity. Each unit is built to meet stringent customer specifications.

#### **Key Features:**

 Capable of manufacturing copper headers in various shapes, sizes, and fits.

- Utilize advanced machines like CNC tube bender, CNC end forming, CNC flute punching, and Tube T-drill.
- Primarily produce headers for captive consumption, with customized options available per client specifications
- High brazing strength
- Leak-resistant joints
- Precision-drilled distribution holes

#### **Applications:**

- HVAC systems
- Multi-circuit cooling modules
- 0EM assemblies

At KRN, we tailor our products' dimensions and capacities to precisely meet customer requirements, ensuring bespoke solutions across the **HVAC&R** industry. Rigorous testing and adherence to international standards, including UL certifications, guarantee the safety, durability, and performance of every product. This unwavering commitment to quality has established KRN as a trusted partner. As we expand our product portfolio, we remain dedicated to "Expanding Boundaries, Sustaining **Excellence," consistently delivering high-value** solutions to global customers.

ANNUAL REPORT 2024-25

## KRD

#### **R&D AND DESIGN CAPABILITIES**

# Effective QUALITY CONTROL AND CHECKS

Our products are designed to meet international quality standards and offer customization based on client needs. Key aspects of our quality and operational excellence include:

- Advanced Coatings: We apply nano coating and powder coating to copper tubes, brazing joints, and fin sheets to improve longevity and corrosion resistance, ensuring efficient heat exchanger operation and reduced maintenance costs
- Stringent Testing: We maintain an in-house facility for checking the quality of the manufactured products. The products go through stringent quality control checks such as Helium Leak Test, Water Leak Test, Contamination Test, Salt Spray Testing, Burst Pressure Testing and Pressure Cyclic Testing to ensure the best quality products are supplied to their customers.
- 3. Certifications: We hold various industry certifications, demonstrating our commitment to quality and compliance. We produce coils of international standards, in terms of performance, quality and safety. The company adheres to some of the industry's best-quality product accreditations.
- 4. Trained Personnel: Key employees of the production team hold BS EN ISO-13585 certification, which specifies the basic requirements for the qualification testing of brazers and brazing operators which is one of the key processes of manufacturing heat exchangers. We established an internal Brazing school in 2022 to enhance staff skills.

- 5. Multilevel Quality Checks: We have a dedicated quality management team consisting of 41 employees including 25 contractual employees. The raw materials undergo a quality check, and they have internal procedures in place for procurement of the raw materials as the quality of the final product is dependent on them. Similarly for the quality checks of their final products, the units have dedicated personnel responsible for monitoring the parameters of equipment and strength of materials, reporting any irregularities in the manufacturing process and making adjustments accordingly. These multi-level quality checks ensure consistent delivery of good quality products, enhancing their brand value.
- 6. Latest Technology: We have integrated the latest technology in plant and machinery to deliver exceptional products. Committed to maintaining high-quality standards, we have established a well-equipped quality control lab featuring cutting-edge testing equipment for comprehensive assessments.

At KRN, innovation is woven into our DNA—driving progress as an ongoing mindset rather than a single achievement. Our unwavering commitment to research and development, alongside cutting-edge design capabilities, keeps us at the leading edge of technological advancement. By continually investing in R&D and state-of-the-art manufacturing, we are primed to anticipate and address the evolving requirements of our diverse customers.

Driven by vision of "Expanding Boundaries, Sustaining Excellence", we are actively pursuing a robust growth strategy that involves expanding product portfolio, increasing market footprint, and enhancing operational efficiencies through continuous innovation and adherence to stringent quality standard.

Product innovation and development as a core competency, we have a dedicated inhouse product design and development centre located at our manufacturing facilities in Neemrana, Rajasthan. This team focuses on creating new heat exchanger designs based on customer specifications to enhance product efficiency.

KRN acknowledges the need to continually invest in R&D and adapt to new technologies, such as microchannel heat exchangers (MCHX), to avoid product obsolescence and maintain competitiveness. The design team, consisting of skilled and experienced professionals, utilizes 2D design software such as AUTO CAD, as well as 3D design software like SOLID WORKS and Unilab SRL. These two are Heat Transfer Software for design optimization. They evaluate the technical specifications and applications of your new products and accordingly offer the design recommendation for high performance products. These also assist in

improving the system performance of their existing products.

## ROBUST R&D AND DESIGN

Capabilities

Our research and development team drives progress by pioneering next-generation solutions. Through relentless innovation, we enhance our manufacturing strengths, accelerate product evolution, and generate sustained, meaningful value for our stakeholders.

### MARQUEE CLIENTELE

## PARTNERS IN Progress

By aligning with the global outsourcing strategies of OEMs, we have positioned ourselves as a preferred partner in their value chain. These relationships fortify our market strength, deepen industry connections, and allow us to scale with confidence—ensuring that as our clients grow, we grow with them, as true partners in progress.

At KRN Heat Exchanger and Refrigeration Limited, building sustained, long-term relationships with our customers is at the core of our business philosophy. From our inception, we have focused on understanding client requirements and consistently meeting market demand with precision-engineered, highquality products.

Our state-of-the-art, automated manufacturing facilities are designed for scalable, cost-competitive production supported by rigorous research and development. This, coupled with consistent quality, on-time delivery, and advanced testing processes, has earned us the trust of marquee OEMs and resulted in repeat orders across product categories.

These long-standing relationships enable us to better anticipate evolving client needs, facilitate co-development of innovative solutions, and attract new business opportunities within the same industry. The strength and continuity of our customer

KRN HEAT EXCHANGER AND REFRIGERATION LIMITED

partnerships—some of which have endured since our incorporation—stand as a testament to our unwavering commitment to excellence, reliability, and mutual growth.

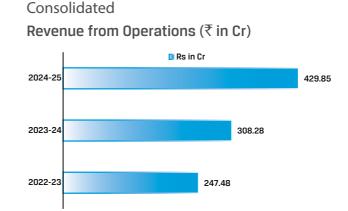

Together with our clients, we continue to shape the future of HVAC&R solutions—one partnership at a time.

COMPANY OVERVIEW

## -KBL

#### STRATEGIC EXCELLENCE

EXPANDING GROWTH
WITH STRATEGIC Imperatives

At KRN, we foresee a future filled with remarkable possibilities in precisionengineered HVAC&R components. Driven by multiple growth catalysts, we are strategically positioned to harness these opportunities and strengthen our leadership in the evolving engineering landscape. In this section, we present the strategic imperatives that shape our approach to capturing value and driving sustained success.

#### Expanding our customer base\_\_\_\_

We are strategically deepening our reach within existing markets while aggressively widening our customer network to reduce dependency risks and tap new growth avenues. Leveraging our expanding manufacturing capacities—including a major sixfold scale-up—and investments in a state-ofthe-art subsidiary facility, we are poised to meet surging demand domestically and internationally. By enhancing product distribution and diversifying our portfolio across new sizes and applications, we are unlocking significant market potential and reinforcing our position as a trusted leader in heat exchangers. This robust expansion framework aligns with our commitment to capturing emerging opportunities in the rapidly growing HVAC&R sector, ensuring sustained value creation for customers and stakeholders alike.

137 customers Served in FY 2024-25

38

73.21% of revenue From Top 10 customers

## Driving Operational Excellence to Enhance Returns\_\_\_\_\_

Delivering high-quality products at competitive prices is fundamental to sustaining and expanding our operations. We are committed to continuously enhancing cost efficiency through targeted initiatives across manufacturing, sourcing, and operational strategies. By optimizing manpower, implementing rigorous cost reduction measures, and applying value analysis techniques, we aim to strengthen our operational efficiencies as a core business strategy—ensuring long-term competitiveness and value creation for our customers and stakeholders alike.

## Strengthening Our Product Portfolio with Quality Focus

At KRN, delivering high-quality, safety-compliant products is vital for customer loyalty and sustained repeat business. We prioritize close collaboration with our customers to deepen relationships and gain critical insights into market perceptions and evolving demand. To broaden our product portfolio, we established our wholly owned subsidiary, KRN

HVAC Products Private Limited, on April 7, 2023, to set up a new manufacturing facility focused on producing products beyond our current range using the Net Proceeds of the Issue. Our strategic focus remains on launching innovative product designs tailored to customer needs while attracting new clientele. This approach not only strengthens ties with our existing customer base through an expanded offering but also enables us to tap into new geographies. Driven by an ever-evolving global demand for unique, high-quality, and competitively priced products, our management team continuously pursues the identification and development of novel products and designs to sustain growth and market relevance.

## Continuous Advancement in Design and Development\_\_\_\_\_

At KRN, we pride ourselves on a dedicated inhouse product design and development centre integrated within our manufacturing facilities.

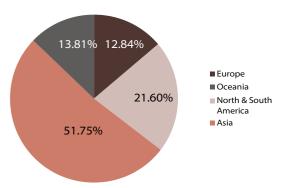

Our skilled design team specializes in creating innovative heat exchanger designs tailored to the precise specifications of our customers, aiming to enhance their product efficiency. Looking ahead, we are committed to expanding our design and development capabilities to deliver industry-leading heat exchangers—strengthening our ability to achieve our strategic business objectives and consistently exceed customer expectations.

## Expanding Boundaries and Fortifying Presence\_\_\_\_\_

We are committed to broadening our customer base and increasing market share by intensifying sales efforts in existing territories while strategically entering new geographies. Over the years, we have successfully expanded our customer network across Europe, which remains a cornerstone of our growth strategy. Our extensive product portfolio and strong brand recognition instill confidence in new customers, encouraging deeper engagement. Moving forward, we will concentrate on key markets like North America and Europe, building a robust local presence, nurturing strategic partnerships, and leveraging our development expertise to fully capture growth opportunities. Central to this approach is our unwavering focus on acquiring new clients, strengthening existing relationships, and consistently delivering high-quality products that drive lasting value.

#### **Continent Wise Revenue Breakup**

This strategic investment aims to better serve existing customers, address the requirements of large customers, and facilitate expansion into new verticals such as railways (for electric engines), compressor manufacturing, and refrigerator manufacturing companies.

Along with these new products we aims to:

- Expand its customer base and deepen its market penetration, both domestically and internationally, to reduce dependency on its top customer
- Increase operational efficiencies through various manufacturing, sourcing, and cost reduction strategies, including manpower optimization and value analysis techniques
- Enhance existing product offerings and quality by interacting closely with customers to understand market needs and introducing new product designs.

## CHARTING NEW Frontiers

Globally there is rising demand for energy-efficient refrigeration, expansion of the food and beverage sector, and adoption of eco-friendly refrigerants. In response to growth opportunities KRN has incorporated a wholly-owned subsidiary, KRN HVAC Products Private Limited, on April 7, 2023, to set up a new manufacturing facility in Neemrana, Alwar, Rajasthan. This facility will enable KRN to manufacture heat exchanger types not currently in its product line, specifically:

| Project                                  | Description   | Application   |
|--|---|---|
| Roll Bond<br>Evaporators                 | Lightweight, aluminum-based heat exchangers for refrigerators and coolers. Supports energy efficiency & cost competitiveness  | Ensure optimal performance in a variety of applications, from domestic refrigerators to industrial cooling systems.         |
| Oil Cooling Unit with<br>Blower & Motor  | maintains an oil supply at a consistent, optimal temperature. Its purpose is to cool the oil passing through the coils, thus improving the engine and the transmission's lifetime. They are situated in front of an engine's cooling system.  | It is specifically used as a cooling unit for locomotives/railways also used in automotive vehicles as a cooling unit.      |
| Frost-Free<br>Evaporators                | High-performance evaporators for no-frost refrigeration systems. They maintain optimal airflow and temperature.   | They are ideal for application refrigerators and freezers .   |
| Bar and Plate Heat<br>Exchanger          | Compact, high-efficiency units designed for high performance heat transfer. They provide durability and efficiency under extreme conditions.  | Widely used in automotive, aerospace, railways and power generation.  |
| Ammonia Evaporator<br>(Air Cooling Unit) | Specialized heat exchange components used in industrial and commercial refrigeration systems. Designed for compatibility with ammonia as a refrigerant, they are engineered for high thermal conductivity, durability, and energy efficiency. | Widely used in cold storage, food processing, and other applications requiring reliable and eco-friendly cooling solutions. |
| Finned Tubes                             | Customizable tubes for steam/air heat transfer designed to enhance efficiency of heating and cooling systems.   | Valued for their durability, thermal performance and versatility across various application.                                |
| Wire-on-Tube<br>Condensers               | Used in refrigeration and cooling systems they are designed with a network of wires wound around a tubular structure. They are lightweight, cost effective and durable.   | Ideal choice for applications in domestic refrigerators, freezers and other cooling appliances.                             |

#### **Environment**

We uphold strong environmental responsibility through robust energy, water and waste management practices. We ensure compliance and have adopted ISO 14001:2015 standard.

#### **Stakeholder Engagement**

KRN believes that working closely with every stakeholder of the company is essential for long-term success. We build strong relationships with all our stakeholders, including customers, suppliers, regulators, and local communities, because we know their input is critical.

Through transparent communication and consistent, timely interactions, we nurture trust and mutual respect, empowering our businesses to navigate challenges and seize new opportunities. We make sure we listen to different points of view that each stakeholder brings on the table and their changing needs, so we can be flexible and continue to grow responsibly.

Our commitment to ongoing, meaningful conversations with everyone helps us create lasting value, build a resilient business, and make sustainable progress for everyone involved with KRN.

## ENVIRONMENT, SOCIAL & GOVERNANCE

# EMBEDDING Sustainability FOR LASTING IMPACT

At KRN, we remain deeply committed to understanding and addressing the evolving needs of our stakeholders. Through consistent innovation, reliable quality, and long-term partnerships, we strive to create enduring value and generate positive outcomes for all those connected to our growth journey.

### **ENVIRONMENT**

At KRN, we remain deeply committed to understanding and addressing the evolving needs of our stakeholders. Through consistent innovation, reliable quality, and long-term partnerships, we strive to create enduring value and generate positive outcomes for all those connected to our growth journey.

#### **Environmental Stewardship**

KRN recognises that integrating environmental, social, and governance (ESG) principles is vital to our responsibility as a socially conscious and sustainable organization. We are committed to minimizing our environmental footprint through innovative practices and operational excellence. This commitment drives our efforts to create lasting positive impact, setting new standards for responsible corporate citizenship and contributing to a resilient, sustainable future.

#### **Renewable Energy for Captive Consumption**

Sustainability is woven into the fabric of our vision for future growth. This year, we took decisive steps to elevate our environmental impact by dramatically scaling up our reliance on renewable energy—boosting our clean electricity generation to 1,530 GJ in 2024-25. This achievement exemplifies our proactive approach to environmental stewardship, where every initiative is designed not only to enhance cost-efficiency but also to advance our collective responsibility to the planet.

Incorporation of renewable energy sources into our operations ensures integration of cleaner energy alternatives, reducing our carbon footprint, and lower the greenhouse gas emissions.

#### 36%

of Total Electricity Was Sourced From Renewable Sources leading to 293 tC02e/annum avoidance

#### **Transition to LED Lights**

We have replaced conventional lights with LED lighting solutions, thus reducing energy use and CO2 emissions.

KRN is certified to ISO 14001:2015 Environmental Management System requirements and undergoes third party audits as a part of the certification.

## Energy Efficiency & Carbon Footprint Reduction:

Innovations in heat exchanger technology at KRN are focused on enhancing thermal efficiency, which directly contributes to reducing energy costs and minimizing carbon footprints for its customers. This aligns with broader sustainability goals and positions KRN as a vital component in India's sustainable development journey, driven by an increasing focus on efficient energy usage to contain carbon emissions.

KRN emphasizes eco-friendly manufacturing practices and energy efficiency in distribution as key aspects of its sustainability strategy.

#### **Air Emissions**

We have instituted strategies to minimize air emissions from our operations ensuring regulatory adherence and best-in-class practices. Regular monitoring by third party validate the efficacy of our emissions controls, underscoring our dedication to transparency and continuous improvement.

#### **Water Stewardship**

We understand that safeguarding water resources is essential for thriving communities and resilient ecosystems. Guided by this responsibility, we are committed to embed water management practices into every layer of our operations. We have instituted rainwater harvesting at plant sites to actively reduce surface runoff and preserve valuable rainwater resources. KRN ensures adequate water sources for both domestic and

industrial purposes at its existing premises through government supply and RO water in campers.

## ISO 14001:2015 Environmental Management System

#### **Waste Management**

We are redefining waste management by uniting operational excellence with responsible stewardship. Our approach focuses on minimizing waste generation at the source, streamlining disposal processes, and maximizing resource recovery. We have strengthened recycling frameworks by identifying reusable materials and channelling them back into the value chain. Empowering our workforce through targeted awareness campaigns has further amplified our

impact, fostering a culture of accountability and sustainable practices throughout our organization.

#### 246 tonnes

#### Waste recycled

By prioritizing sustainable innovation across our operations, we are shaping an enterprise that balances financial success with positive environmental outcomes. Our unwavering focus on integrating eco-friendly practices ensures that KRN remains a responsible industry leader—delivering enduring value for our stakeholders and contributing to a cleaner, more sustainable world.

50

#### **SOCIAL**

## Community

At KRN, we believe true progress is defined not just by our business growth, but by the positive difference we make in the lives around us. We are deeply committed to advancing social equity and fostering inclusivity within the industry and beyond. Our philosophy extends well beyond financial results, measuring achievement by the tangible benefits we bring to our communities. Through thoughtfully designed initiatives focused on education, health, and community development, we invest in transformative programmes and partnerships that uplift people and accelerate social progress. This holistic, purpose-driven approach is at the heart of KRN's mission—ensuring every milestone we reach strengthens the fabric of the societies we serve.

#### **Building stronger communities**

Empowering communities goes beyond providing support—it means cultivating the conditions for individuals to actively shape their own destinies. By forging meaningful engagement and enduring partnerships, we are committed to fostering sustainable progress that delivers lasting benefits far beyond the present moment.

#### Education

We recognize that education and healthcare are foundational drivers of inclusive growth and lasting social transformation. By modernizing school infrastructure in underserved communities, we are dedicated to building secure, functional, and inspiring spaces that ignite a passion for learning. Our efforts are especially concentrated on expanding educational access in areas, where opportunities have historically been scarce. By delivering targeted educational support in these regions, we seek to dismantle entrenched barriers and empower individuals toward upward social mobility. Our overarching

goal is to equip students with the resources and opportunities needed to realize their fullest potential and champion progress within their communities.

#### Supporting **Underprivileged Students**

Sustainability represents more than a dutyit is a powerful avenue for forging enduring change. By partnering with communities, schools, and organizations, we champion awareness, empower individuals with practical sustainable solutions, and cultivate a culture of conscientious environmental stewardship for generations to come.

Our commitment extends across diverse CSR initiatives, including providing free education through tuition, uniforms, conveyance, and books to children in need. Most recently, we have strengthened women's empowerment by offering targeted training that encourages entrepreneurship, helping women unlock their potential and create sustainable livelihoods.

#### Healthcare

Robust healthcare systems are the foundation of thriving communities. Over the year, we launched multiple initiatives aimed at strengthening medical infrastructure and broadening healthcare access, with special emphasis on underserved regions. This included modernizing hospital facilities and acquiring critical medical equipment to enhance diagnostic and treatment capabilities. Our efforts extended to expanding healthcare outreach in remote areas, delivering vital services to underprivileged populations and ensuring they receive timely, quality medical

We actively implement healthcare programs within the schools and hospitals we support, safeguarding the health and well-being of both students and the broader community.

#### **Skill Development**

At KRN, we are steadfast in our commitment to bridging India's skill gap by empowering rural communities with meaningful opportunities. Through the strategic adoption of the National Apprenticeship Training Scheme (NATS) and the National Apprenticeship Promotion Scheme (NAPS), we address the rising demand for skilled talent by equipping individuals with hands-on training and real-world experience. These schemes not only enhance employability by aligning practical skills with industry requirements but also foster inclusive growth by enabling youth to thrive in their chosen

By leveraging NATS and NAPS, KRN plays a vital role in nurturing a skilled workforce that drives sustainable economic development and uplifts rural livelihoods.

## KRN

#### SOCIAL

## Human Resources

KRN Heat Exchanger and Refrigeration Limited recognizes that our people are our greatest asset and essential to delivering sustained business performance. Our people management strategy is deeply aligned with our values and the United Nations Sustainable Development Goals (SDGs), underlining our emphasis on decent work, economic growth, and lifelong learning.

#### Talent Acquisition, Development, & Retention

Attracting and retaining the best talent is fundamental to our success. Our Company seeks individuals with the skill-sets, interests, and backgrounds most suited to our business, especially as we expand our technological edge. We promote a culture of empowerment and innovation, enabling employees at every level to contribute ideas and drive improvement. We believe our ability to attract, develop, motivate, and retain highly skilled, multi-dimensional talent is a critical differentiator.

#### **Key People Management Pillars:**

- 1. Recruiting: Robust, bias-free hiring processes to ensure diverse and qualified talent pipelines.
- Training & Development: Structured onboarding, mentorship, and continuous in-house technical training for workforce upskilling.
- 3. Compensation: Competitive pay, performancelinked incentives, and comprehensive benefits.
- 4. Retention: Recognition, internal mobility, and career development opportunities.

#### Skill, Qualification & Workforce Statistics

We benefit significantly from a technically qualified workforce that supports business growth and operational excellence.

• Quality Team: 41 employees (including 25 contractual), dedicated solely to quality

management and process improvement.

- Brazing Certification: Key production employees hold BS EN ISO-13585 certification, underscoring proficiency in core heat exchanger manufacturing processes.
- Continuous Training: In-house programs regularly update skills, reinforce process discipline, and promote safety best practices.

#### 77

### Number of training and development sessions conducted

#### Safety, Health & Wellbeing

We are committed to providing a safe, supportive, and healthy work environment for all employees—across factory floors and offices alike. Our operations adhere to the highest standards:

- ISO 45001:2018 Certified: Our Occupational Health & Safety Management System ensures safe and healthy workplaces, focused on proactive accident prevention and continuous performance improvement.
- Incident-Free Workplace: We have witnessed zero incidents of strikes, work stoppages, or employee actions, reflecting the positive and trust-based relationship with our workforce.
- No Instances of Sexual Harassment: We uphold a zero-tolerance policy; all employees complete annual training on workplace ethics and the Code of Conduct.

#### Safety Measures & Employee Benefits:

- Personal Protective Equipment: Safety shoes, glasses, gloves, and other equipment provided, with regular awareness and compliance checks.
- Employee Insurance: Group Personal Accident and Group Health (Floater) Insurance covers all

Our workforce is the cornerstone of our performance, innovation, and sustained growth. Their expertise, dedication, and sense of responsibility empower us to execute effectively at scale. We are committed to nurturing leadership, fostering continuous development, and cultivating a culture of ownership that equips our teams to excel, evolve, and succeed in a dynamic, competitive landscape.

employees and their dependents.

 Wellness Facilities: Nutritious food, access to clean drinking water, and resources for physical, mental, and emotional well-being.

#### Diversity, Inclusion & Workplace Culture

We foster an inclusive, merit-based culture where every employee's contribution is valued. Employees are encouraged to speak up, innovate, and take initiative. Our management practices ensure a transparent work environment committed to fairness, respect, and growth for all.

#### **Employee Relations**

We pride ourselves on harmonious industrial relations and an open dialogue with all employees.

The Company has not experienced any strikes, stoppages, or major disputes. Workers' voices are heard and issues are resolved promptly through formal and informal channels. Code of Conduct compliance is mandatory—and reinforced through recurring, practical training.

#### **Looking Ahead**

Our ongoing investments in talent, training, and technology will ensure that our employees remain at the leading edge of the HVAC&R industry. We aim to further increase our training initiatives, introduce digital learning platforms, and strengthen our practices on diversity, inclusion, and wellbeing.

At KRN, we are committed to building a workplace where every team member feels empowered to learn, contribute, and succeed together.

#### **GOVERNANCE**

## Responsible Jovernance

56

Our robust governance framework promotes fairness, timely disclosures, and effective oversight by an independent and diverse Board. This unwavering commitment to principled governance not only builds lasting trust among our stakeholders, but also underpins sustainable growth and long-term value creation for all. Guided by our strong corporate governance principles, we align our business strategies with financial responsibility and ethical stewardship, delivering consistent value in an ever-evolving marketplace.

#### **Governance structure**

The Board plays a pivotal role in overseeing the Corporate Governance framework, exercising independent judgement to monitor management performance on behalf of shareholders and stakeholders alike. The Board is entrusted with steering overall strategic direction, fostering key alliances, cultivating leadership talent, pursuing international growth opportunities, and continuously strengthening governance practices. It also safeguards and enhances our brand reputation and global standing.

Our governance structure clearly delineates the roles and responsibilities across business entities, empowering them with the authority needed

to execute their duties effectively. This framework preserves the unique core values of KRN while enabling efficient delegation of authority and fostering empowerment at every level of the organisation.

#### **Code of Conduct**

Our Code of Conduct sets the uncompromising standards that guide the actions and decisions of every employee across the organization. We underpin this with a robust integrity and compliance program, equipping our teams through comprehensive education and training

Exemplary governance is the cornerstone of our enduring success at KRN. Our Board of Directors comprises accomplished leaders whose deep industry expertise and diverse perspectives chart a decisive course for the Company amidst a dynamic and competitive environment. Their collective vision, sound judgement, and unwavering integrity drive strategic decision-making, ensuring that our organization remains resilient, forward-looking, and agile. We hold ourselves to the highest standards of corporate governance—anchored in transparency, accountability, and ethical conduct.

on core principles, legal obligations, and ethical expectations. This program empowers employees to recognize and navigate potential conflicts of interest, uphold workplace safety and well-being, safeguard company assets and information, and utilize technology responsibly, while ensuring they can confidently report suspected misconduct without fear of retaliation.

To reinforce these values, annual affirmations are obtained from all employees, complemented by periodic assessments to monitor the effectiveness and implementation of the Code. Our unwavering commitment to integrity, sound governance, and ethical conduct is reflected in stringent internal controls, risk management, and continual strengthening of our ESG practices. By adopting a firm zero-tolerance approach to unethical behaviour and fostering a culture rooted in transparency and accountability, we protect stakeholder interests and uphold the trust that forms the foundation of our sustainable growth.

#### Whistle-blower policy

KRN has instituted a robust Whistle Blower Policy, ratified by the Board of Directors, to uphold the highest standards of integrity and ethical conduct. This policy establishes a clear and secure channel for directors and employees to confidentially report any unethical behaviour, suspected fraud, or violations of our Code of Conduct and Ethics.

It guarantees protection from retaliation for those who raise genuine concerns and, in exceptional circumstances, provides direct access to the Chairperson of the Audit Committee. We ensure that every employee has unrestricted and safe access to this mechanism. Through this steadfast commitment to fairness, transparency, and ethical accountability, we nurture a culture grounded in trust and principled governanceOur

#### Our Policies

- Code of Conduct for Directors and Senior Management Personnel Policy
- Code of Practices and Procedures for fair disclosure of unpublished price sensitive information Policy
- Corporate Social Responsibility Policy
- Determination of Materiality of information or Event Policy
- Diversity on Board of Directors Policy
- Dividend Distribution Policy
- Material Policy (Group Companies-Creditors-Litigation)
- Nomination And Remuneration Policy
- Policy for Prevention of Insider Trading Policy
- Policy on Material Subsidiary
- Policy on Sexual Harassment of Women at Workplace
- Preservation of Documents Policy
- Related Party Transaction Policy
- Risk Management Policy
- Whistle Blower and Vigil Mechanism

ANNUAL REPORT 2024-25 COMPANY OVERVIEW STATUTORY REPORTS FINANCIAL REPORTS

## KRD

### **BOARD PROFILE**

#### A well-balanced Board

The Board is composed of a balanced blend of Executive, Non-Executive, and Independent Directors, whose collective expertise spans mechanical engineering, business management, manufacturing, finance, and capital markets. This diverse array of experience provides invaluable insights that drive strategic decision-making and fuel sustainable business growth.

## **Board and Board Committees**

The Board of Directors bears the crucial responsibility of guiding the Company's strategic direction and rigorously overseeing its economic, financial, and non-financial performance. It exercises stewardship by appointing and assessing members of the Executive Board and thoughtfully deliberating corporate policies, among other key functions. The Board's committees serve a vital role in elevating governance standards and driving greater effectiveness throughout the organization, ensuring robust oversight and sustained value creation.

#### Management Discussion & Analysis

#### **ECONOMIC OVERVIEW**

GLOBAL ECONOMY: FY 2024-25

#### At a Critical Crossroads

The global economy demonstrated considerable resilience in 2024, maintaining an annualised growth rate of 3.2% (CY 2024)¹ through the second half of the year. This performance reflects the adaptability of businesses and consumers in the face of higher interest rates, persistent supply chain realignments, and evolving geopolitical dynamics. Growth is forecast to ease only slightly to 3.1% in 2025 (CY)¹ and 3.0% in 2026 (CY)¹, signalling that the world economy is entering a phase of stable, sustainable expansion rather than sharp deceleration.

While global trade volumes have moderated due to higher trade barriers in several G20 economies, services trade and cross-border investment flows remain supportive of overall activity. The United States, after a period of exceptional growth momentum, is expected to normalise to 2.2% in 2025 (CY)¹ and 1.6% in 2026 (CY)¹. The Euro Area will continue to expand at a measured pace -1.0% in 2025 (CY)¹ and 1.2% in 2026 (CY)¹ — as policy uncertainty and cautious consumer spending temper demand, but fiscal support and gradual recovery in industrial activity provide a floor to growth.

Inflation remains a focal point for policymakers. Services price inflation across OECD economies is still elevated, with a median of 3.6% (CY 2024)¹, highlighting continued tightness in labour markets and robust wage growth in some sectors. Nevertheless, headline inflation in G20 economies is expected to fall from 3.8% in 2025 (CY)¹ to 3.2% in 2026 (CY)¹, aided by easing energy prices, improved supply conditions, and prudent monetary policy. Underlying inflation, while declining, is projected to remain marginally above central bank targets in several advanced and emerging economies in 2026, indicating that interest rate normalisation will likely remain gradual.

Despite these headwinds, global economic sentiment is supported by continued technological innovation, expanding renewable energy investments, and infrastructure modernisation in many emerging markets — all of which create a constructive backdrop for long-term growth.

#### **INDIAN ECONOMY**

#### Resilience Amid Global Headwinds

India continues to stand out as one of the most dynamic large economies globally. While growth momentum eased slightly at the start of 2025, following a healthy recovery in the last quarter of 2024, the medium-term trajectory remains robust. GDP growth is projected at 6.5% in 2025 (CY)<sup>1</sup> and 6.6% in

2026 (CY) $^1$ , with FY 2025–26 growth expected at  $6.4\%^2$  – more than double the forecast global average.

The moderation in early 2025 reflects both external and domestic factors. On the external side, a slowdown in U.S. imports and weaker Chinese demand are expected to weigh on merchandise exports. Global trade softness, particularly in manufacturing-intensive sectors, could also limit short-term growth impulses. Domestically, private consumption has shown signs of softening, influenced by elevated unemployment of around 8% (CY 2025)¹ and a degree of job security concerns in urban areas.

Nevertheless, the overall outlook remains favourable. Stable food and fuel prices are expected to support real household incomes, while government-led infrastructure investment — in transport corridors, renewable energy, and digital connectivity — should underpin both near-term activity and longer-term productivity gains. Financial system stability, expanding credit availability, and robust corporate earnings growth further enhance India's resilience.

From a structural perspective, India benefits from a large and youthful population, ongoing digital transformation, and policy initiatives aimed at manufacturing competitiveness and green energy transition. These strengths position the country well to sustain growth above the global average, even amid a more challenging external environment.

#### **INDUSTRY OVERVIEW**

#### HEAT EXCHANGER INDUSTRY

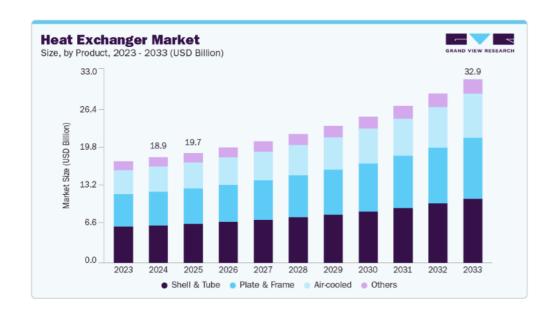

The global heat exchanger market, intrinsically linked to the broader Heating, Ventilation, Air Conditioning, and Refrigeration (HVAC&R) industry, is experiencing robust growth driven by a confluence of technological advancements, increasing demand for energy-efficient solutions, and supportive regulatory frameworks worldwide. Heat exchangers are critical components enabling efficient thermal energy transfer across diverse industrial, commercial, and residential applications.

The global heat exchanger market was valued at approximately USD 18.9 billion in 2024 and is projected to reach around USD 33 billion by 2033, growing at a CAGR ranging from 5.3% to 6.6% during the forecast period (2025-2033/2034). Growth is being driven by expanding energy efficiency mandates, rising industrialization, and ongoing infrastructure development across emerging and advanced economies.

<sup>&</sup>lt;sup>1</sup> OECD Economic Outlook, Interim Report March 2025 – Projections on a Calendar Year (CY) basis for Global, U.S., Euro Area, G20, and India.

<sup>&</sup>lt;sup>2</sup> OECD Economic Outlook, Interim Report March 2025 - India projections on a Fiscal Year (FY, April-March) basis.

#### Management Discussion & Analysis

#### Geographical Landscape:

While North America and Europe have traditionally been strong markets due to their industrial bases and manufacturing innovations, the global landscape is shifting. The Asia-Pacific (APAC) region has emerged as a key market, driven by large-scale industrialization in countries like China, India, and Southeast Asian nations. APAC was the fastest-growing heat exchanger market between 2019 and 2023, with a compounded growth rate of 7.3%. India's market, for example, reached USD 689 million in 2023, growing at a CAGR of 10% between 2019 and 2023, and is projected to reach USD 1,487 million by 2030.

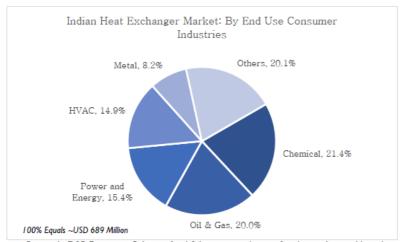

#### Key usage sectors:

Heat exchangers are extensively used across various sectors including chemical and petrochemicals, oil and gas, power generation, HVAC&R (heating, ventilation, air conditioning, and refrigeration), food and beverages, pharmaceuticals, aerospace and defence, automotive, renewable energy, waste heat recovery, wastewater treatment, and data centers.

#### **Drivers of Growth:**

- rising regulatory pressure for energy efficiency and emissions reduction,
- (b) industrial expansion and urbanization—especially in APAC,
- (c) growing investments in renewable energy projects, and
- (d) technological innovation focused on compact designs, smart sensors, and advanced manufacturing (e.g., additive manufacturing and IoT-enabled predictive monitoring).

Looking ahead, the sector's growth is expected to be supported by stricter global energy policies like Europe's Green Deal, the U.S. focus on industrial emission cuts, and emerging-market investments in clean infrastructure. Markets in the Middle East & Africa, Latin America, and North America are projected to grow at 5–7% CAGR through 2033–2034, fueled by energy projects, desalination, and heating/cooling infrastructure development. Meanwhile, Europe's dominant

Primary Research, D&B Estimates, Others - food & beverage and paper & pulp are the notable inclusions.

#### Management Discussion & Analysis

position stems from strong regulation, innovation, and demand from the data center and renewable-energy sectors .

#### The India Story

The Indian heat exchanger market, a significant regional segment, is also projected for strong growth. Its valuation stood at USD 856.4 million in 2024, with a projected CAGR of 5.56% to reach USD 1,428.4 million by 2033. A more optimistic forecast estimates the Indian market at USD 1384.2 million in 2023, expanding to USD 3102.0 million by 2030 with a robust CAGR of 11.5%. The Indian heat exchanger sector is projected to reach USD 1.87 billion by FY2032, growing at nearly 9% annually. The primary drivers for this growth include accelerating industrialization and urbanization, escalating demand for power, the burgeoning chemical and petrochemical sectors, and the continuous upgradation of conventional heat exchangers with more efficient variants. Moreover, stringent government regulations aimed at improving energy efficiency are playing a crucial role in boosting market expansion. In terms of materials, stainless steel currently holds a dominant position, while the chemical industry represents the largest end-use market segment, closely followed by HVAC and Refrigeration. The Indian Heat Exchanger industry is also pivoting toward customized, efficient, and sustainable solutions, with increasing adoption of international standards, digital monitoring technologies, and low-GWP refrigerants.

Within this ecosystem, the HVAC&R segment represents one of the fastest-growing verticals, fueled by

- Infrastructure Expansion: Rapid development of infrastructure, including the construction of new airports, office spaces, shopping malls, hotels, and metro rail networks, drives the demand for advanced HVAC systems
- 2. Growth in the Building Sector: The building sector, encompassing residential, commercial, industrial, and infrastructure sub-sectors, is a key driver
- 3. Industrial HVAC Demand: In manufacturing plants, HVAC systems control humidity, temperature, and air quality, crucial for employee working conditions and maintaining optimal ecosystems for manufacturing processes, especially in pharmaceuticals, food & beverages, and electronic manufacturing
- 4. Cold Storage and Data Centers: Heat exchangers are vital in cold chain logistics for temperature-controlled storage and transport vehicles. In data centers, cooling systems account for nearly 40% of energy consumption, making efficient thermal management, enabled by heat exchangers, critical. India is projected to have 183 data centers by 2025, up from 151 in 2023, signaling a strong demand for HVAC systems and heat exchangers(KRN\_RHP)

#### **Government Initiatives and Policy Support**

The Indian government has implemented a comprehensive array of schemes and initiatives to support the heat exchanger and Heating, Ventilation, Air Conditioning, and Refrigeration (HVAC&R) industries. These efforts are primarily aimed at fostering energy efficiency, boosting domestic manufacturing, developing robust infrastructure, and promoting overall sustainability.

Here are the key government schemes and initiatives:

Promotion of Energy Efficiency and Sustainability

 Bureau of Energy Efficiency (BEE): The BEE plays a critical role in promoting energy efficiency across various sectors. Heat exchangers may need to comply with BEE's energy efficiency labelling requirements or specific energy-saving guidelines.

- Perform, Achieve and Trade (PAT) Scheme: In 2023, the guidelines for this scheme were updated to encourage industries to reduce energy consumption by adopting energy-efficient technologies, such as advanced heat exchangers.
- Energy Conservation Act (EC Act): This act regulates energy efficiency in India and mandates compliance for relevant equipment, including heat exchangers.
- Energy Conservation Building Code (ECBC) and Standards and Labelling (S&L) program: These initiatives have been crucial in driving the adoption of energy-efficient HVAC systems, especially in response to rising energy

#### Management Discussion & Analysis

costs and environmental concerns. The broader focus on sustainable development and reducing carbon footprint is leading the HVAC industry to adopt new technologies and processes.

#### **Boosting Domestic Manufacturing and Self-Reliance**

- Make in India Campaign: This flagship initiative aims
  to transform India into a global manufacturing hub by
  promoting local production and reducing dependence on
  imports. This directly benefits the capital goods industry,
  including heat exchanger manufacturers, by enhancing
  domestic production capabilities.
- Production Linked Incentive (PLI) Scheme: Introduced to
  incentivize companies for increased sales of products
  manufactured in India, the PLI scheme covers sectors like
  electronics and white goods (including air conditioners),
  where heat exchangers are essential components.
   Specifically, the PLI scheme for white goods has
  encouraged local production of key components like
  heat exchangers, fostering a complete value chain for AC
  manufacturing and reducing import dependency.
- Atmanirbhar Bharat Abhiyan: This economic package aims to make India self-reliant, complementing the Make in India program by focusing on achieving self-sufficiency in the manufacturing sector and promoting local products.
- National Capital Goods Policy, 2016: This policy aims
  to significantly increase the capital goods sector's
  contribution to manufacturing output by 2025, which
  is expected to create substantial demand for heat
  exchangers.
- Phasing out concessional import duties: The Union Budget 2022-23's move to phase out concessional import duties on various capital goods and project imports supports the domestic capital goods industry by protecting it from low-cost imports and promoting a level playing field for Indian manufacturers.

#### Infrastructure Development

66

- Government Investments: Significant government investments in infrastructure, such as the projected USD 1.45 trillion over the next five years and INR 6,209.2 Crores for airport infrastructure development by 2030, directly drive the demand for HVAC systems and heat exchangers in new constructions including airports, office spaces, shopping malls, and hotels.
- Smart Cities Mission: This initiative, combined with a focus on infrastructure development and sustainable building practices, boosts the demand for efficient HVAC systems.

- PM Gati Shakti Master Plan: This ambitious plan aims
  to transform India's infrastructure by improving freight
  movement, streamlining logistics, and enhancing
  industrial production, thereby creating strong demand
  for capital and engineering goods, including heat
  exchangers.
- Cold Chain Infrastructure: Policy-driven growth in cold chain infrastructure, supported by schemes like the 'Capital Investment Subsidy for Construction/Expansion/ Modernization of Cold Storages and Storages for Horticulture Products' (National Horticulture Board) and the 'Scheme for Integrated Cold Chain, Value Addition, and Preservation Infrastructure' under the 'Pradhan Mantri Kisan Sampada Yojana' (Ministry of Food Processing Industries), directly benefits the HVAC industry by increasing demand for temperature-controlled solutions.
- Data Center Expansion: Government initiatives promoting large-scale digitization and increasing internet penetration are driving the expansion of data centers.
   These facilities rely heavily on HVAC systems and heat exchangers for crucial thermal management.
- Transportation Sector Growth: The significant expansion
  of transportation infrastructure, including national
  highways, railways, and metro networks, requires
  advanced HVAC solutions for both facilities and rolling
  stock, thereby boosting the demand for heat exchangers.
  KRN Heat Exchanger and Refrigeration Limited is also
  expanding its manufacturing to cater to the growing
  needs of railways for their electric engines.

#### Regulatory Framework and Support

- Indian Boiler Regulations (IBR): Administered by the Central Boiler Board (CBB), these regulations set mandatory guidelines for the design, construction, operation, and maintenance of boilers and pressure vessels, which include heat exchangers, when operating above specified pressure and temperature limits.
- Bureau of Indian Standards (BIS): As the national standards body, BIS formulates and implements Indian standards. Relevant standards for heat exchangers include IS 4503 (shell and tube), IS 10787 (plate), and IS 6034 (air-cooled). KRN also holds a BIS Product Certification license.
- Rajasthan Investment Promotion Scheme (RIPS):
   Companies operating in Rajasthan, such as KRN Heat
   Exchanger and Refrigeration Limited, benefit from state-level incentives like State Goods and Services Tax (SGST)
   reimbursement, exemptions from electricity duty and land tax, and interest subsidies on term loans.

#### Management Discussion & Analysis

- Export Promotion Schemes: Indian manufacturers
  also benefit from various export promotion schemes,
  including the Duty Drawback Scheme, Remission of
  Duties and Taxes on Exported Products (RoDTEP), and
  Export Promotion Capital Goods (EPCG). These schemes
  support India's efforts to become a net exporter of heat
  exchangers.
- Industrial Policy, 1991 and Foreign Exchange
   Management Act (FEMA): These regulations govern
   foreign investment in India, permitting up to 100% foreign investment in manufacturing activities.

#### Looking Ahead

The HVAC&R segment will remain a key driver of the Indian heat exchanger market. KRN's core business is directly aligned with these high-growth segments and key drivers of both the global and Indian HVAC&R and heat exchanger markets. This direct alignment means that KRN is well-positioned to benefit from strong secular tailwinds. The increasing demand for energy-efficient solutions, which are a core offering of heat exchangers, coupled with the rapid industrial development and urbanization in India and the broader Asia-Pacific region, provides a large and expanding addressable market for KRN. This market dynamic validates the company's strategic focus and its ongoing expansion plans, indicating a high probability of sustained demand for its products in the foreseeable future.

#### **COMPANY OVERVIEW**

#### **OPERATIONS**

We are actively engaged in the design, manufacturing, and supply of fin and tube-type heat exchangers, along with a range of related thermal solutions. Our products are predominantly crafted from non-ferrous metals, with copper and aluminum serving as the primary materials. Our extensive product portfolio includes essential components such as condenser coils, evaporator units, evaporator coils, headers/copper parts, fluid and steam coils, and various sheet metal components. We offer six core product categories.

In fiscal year 2025, condenser coils accounted for 60.74% of our revenue, while evaporator coils contributed 30.39%, as compared to fiscal year 2024, condenser coils accounted for 55.01% of our revenue, while evaporator coils contributed 37.34%, highlighting these as the primary revenue-generating product streams. These products are widely utilized by Original Equipment Manufacturers (0EMs) across diverse HVAC&R applications, including air conditioning, refrigeration, and process cooling systems. A key strength of ours lies in our capability to deliver customized coils, offering various configurations, tube diameters (from 5mm to 15.88mm), and fin patterns. This customization ensures optimal performance

across a wide spectrum of refrigerants and client specifications. To guarantee compliance with international quality and safety standards, all our products undergo rigorous testing processes, with condenser and evaporator coils notably holding UL-207 recognition. Furthermore, advanced nano and powder coatings are applied to our products to enhance their durability and corrosion resistance, ensuring long-lasting solutions for end-users.

We operate two dedicated manufacturing units, both strategically located in Neemrana, Alwar, Rajasthan. These facilities are equipped with state-of-the-art machinery essential for coil manufacturing, including Hair Pin Benders, Fin Press Machines, and Vertical Expanders. Additionally, we boast a modern press shop, utilizing NCT Punching and CNC bending machines for the in-house production of sheet metal parts. This integrated setup enables efficient and precise manufacturing processes. The total factory area is approximately 150,000 sq ft.

For the fiscal year 2025 we demonstrated high levels of capacity utilization across our key product lines. The utilization rate stood at 84.09% for evaporators and condenser coils, 84.53% for headers/copper parts, and 85.77% for sheet metal parts. These high capacity utilization rates in FY2025 underscore robust demand for our products and validate our strategic decision to pursue significant manufacturing expansion. While high utilization is indicative of efficient operations and strong market absorption, it also implies that our existing capacity has limited scope for further organic growth without additional investment. This situation could potentially lead to missed orders or extended lead times if market demand continues to surge. Therefore, the consistently high utilization rates provide a clear operational justification for the substantial capital investments we have planned. This demonstrates that our existing manufacturing infrastructure is operating near its limits, and expansion is a necessary step to effectively capture future market opportunities and sustain growth. Our total annual production capacity is 1 million units and is set to increase many folds with our planned expansion.

#### **IMORT AND EXPORT DETAILS**

Foreign Trade is a very important aspect of our business. We import a large proportion of out raw materials and about 15.69% of our products are exported.

The company import goods for amount of ₹ 229.95 Cr for March 31,2025 and of ₹ 196.64 Cr for March 31, 2024.

The details of revenue from Export and other than export for March 31,2025 and the previous year are as under:

67

#### **OUALITY ASSURANCE**

#### **Quality Policy**

#### Quality Policy:

We are committed to produce consistent quality products at competitive price to meet our esteemed customer's satisfaction by adopting systematic approach to excellence teamwork, motivation, training, and involvement of our employees in accordance with quality management standards for its continual improvements.

68

## Environment, Health & Safety Policy

#### EHS Policy:

We are Committed to
Environmental, Health, and Safety
Excellence. We prfioritize society
and the environment, conserving
resources, reducing waste, and
preventing pollution. Our focus is
on personnel well-being, ensuring
a safe and healthy workplace with
collective participation for success.
Participation of all our personnel
and business associates shall be
the support to this endeavour.

### ealth Quality Assurance

#### Quality Assurance:

Quality is not an act but habit! At KRN, we periodically conduct surprise inspection of parts and final products at the shop floor.

We follow KAIZEN philosophy for our business.

We always look for a more efficient way of doing things and see if there is any scope of improvement in our processes, to provide satisfactory and better results to each customer every time.

#### **Training Sessions**

#### Training Sessions:

We at KRN strongly understand and believe in constant learning & know its importance. We organize regular training sessions for our workers and staff.

We invite honorable and reputed guests to conduct seminar for our staff. These gathering and meeting help our employees to engage in work culture and maintain healthy work environment.

#### Management Discussion & Analysis

Our products are designed to meet international quality standards and offer customization based on client needs. Key aspects of their quality and operational excellence include:

- Advanced Coatings: We apply nano coating and powder coating to copper tubes, brazing joints, and fin sheets to improve longevity and corrosion resistance, ensuring efficient heat exchanger operation and reduced maintenance costs
- Stringent Testing: They maintain an in-house facility for checking the quality of the manufactured products to ensure the best quality products are supplied to their customers.
- 3. Certifications: KRN holds various industry certifications, demonstrating its commitment to quality and compliance.
- 4. Trained Personnel: Key employees of the production team hold BS EN ISO-13585 certification, which specifies the basic requirements for the qualification testing of brazers and brazing operators which is one of the key processes of manufacturing heat exchangers. KRN established an internal Brazing school in 2022 to enhance staff skills.
- Multilevel Quality Checks: These multi-level quality checks from raw material procurement to delivery ensure consistent delivery of good quality products, enhancing our brand value.
- 6. Latest Technology: KRN has integrated the latest technology in plant and machinery to deliver exceptional products.

#### MARKETING APPROACH

KRN Heat Exchanger and Refrigeration Limited adopts a relationship-driven, customer-centric marketing approach supported by a dedicated team of experienced professionals. With a strong presence in both domestic and international markets—including a sales team based in the Czech Republic—KRN focuses on timely delivery, quality assurance, and deep engagement with long-standing clients. Under the leadership of Promoter Mr. Santosh Kumar Yadav, the company emphasizes regular client interaction to understand evolving needs, develop adjacent products and applications, and strengthen its position as a preferred supplier. The

strategy includes early-stage engagement, multi-level client contact, and value-added services, supported by an effective feedback mechanism to continuously improve product performance and customer satisfaction.

#### Our marketing strategy is framed in the following way:

- focusing on the customers
- making the effort to become a preferred supplier early in the process.
- interacting with customers at multiple levels.
- extending the product offering by adding services.
- Focusing on the development of "adjacent" products, markets, and applications

#### **OPPORTUNITIES**

- Rising Demand for HVAC&R Solutions
- Expansion in Export Markets
- Government Support and PLI Schemes
- Capacity Expansion and New Product Lines
- Increased Focus on ESG and Green Technologies
- Technological Upgradation and Automation

#### **THREATS**

- Geopolitical Instability and Trade Tensions
- Raw Material Price Fluctuations
- Foreign Exchange Risk
- Competitive Pressures
- Regulatory and Environmental Compliance
- Supply Chain Disruptions
- Customer Concentration Risk
- Technological Obsolescence

## Management Discussion & Analysis

#### RISKS AND MITIGATION

#### Risk Management

70

At KRN Heat Exchanger and Refrigeration Limited, we acknowledge that a variety of internal and external risks impact our business operations, financial performance, and strategic growth. We have established risk management practices focused on identifying, assessing, and mitigating significant risks to create sustainable value for our customers, stakeholders, and investors.

| Risk                                    | Impact  | Mitigation  |
|---|---|---|
| Customer Concentration<br>Risk          | High dependence on a limited number of customers, especially Daikin Airconditioning India Private Limited, poses a risk of revenue fluctuations due to order cancellations, delays or non-renewal of contracts. | We focus on diversifying our customer base by expanding our reach in domestic and international markets, serving over 80 customers in recent periods. We aim to build deeper, long-term relationships and continuously improve product and service quality to retain key customers.                                   |
| Supplier and Raw Material<br>Dependency | Dependence on few suppliers for critical raw materials, including copper, aluminium, and others procured largely through imports, can lead to supply shortages, price volatility, and increased costs.          | We proactively diversify suppliers and maintain strategic inventory buffers. Our sourcing team actively mitigates supply chain risks, while continuous supplier assessment helps ensure quality and timely delivery. Forward contracts and alternate sourcing strategies are explored to mitigate price fluctuations. |
| Foreign Exchange Risk                   | Significant import of raw materials and export revenue exposes the company to currency fluctuations impacting costs and profitability.  | We employ short-term hedging strategies such<br>as forward exchange contracts to manage<br>currency risk. We also review procurement and<br>pricing strategies periodically to minimize the<br>negative impact of foreign exchange variations   |
| Working Capital and Debt<br>Management  | High working capital requirements funded through borrowings can affect liquidity and limit growth opportunities.  | Our treasury team monitors cash flows to optimize working capital. We maintain healthy debt servicing ratios and actively engage with lenders to ensure reasonable financing terms. Capital budgeting is done prudently to avoid overleveraging.  |
| Growth and Capacity Risks               | Rapid expansion and new manufacturing setups expose the company to project delays, cost overruns, operational inefficiencies and scaling challenges.  | Capital expenditure projects are monitored closely for timelines and cost control.  Experienced project management teams and periodic reviews help mitigate execution risks.  We emphasize process improvements and skill development to support sustainable growth.  |
| Manufacturing and<br>Operational Risks  | Disruptions due to equipment failure, power outages, labor issues or natural calamities can affect production and delivery timelines.   | We maintain backup power sources including diesel generators and solar installations, and have preventive maintenance schedules for machinery. Contingency plans including alternative production arrangements help minimize disruptions. Safety protocols and training programs help reduce workplace accidents.     |
| Regulatory and Compliance<br>Risks      | Non-compliance with labor laws, environmental permits, tax regulations or delayed statutory filings may attract penalties or operational restrictions.  | The company invests in strengthening compliance functions with regular audits and timely filings. We engage with legal and regulatory experts to ensure adherence to changing laws and standards. Environmental and safety certifications are maintained and periodically renewed.                                    |

## Management Discussion & Analysis

| Risk   | Impact  | Mitigation  |  |  |
|--|---|---|--|--|
| Product Quality and<br>Technical Specifications<br>Risk        | Failure to meet stringent technical and quality specifications can result in order cancellations, reputational damage, or warranty claims.                            | Quality assurance teams rigorously monitor production standards and customer requirements. Obtained certifications such as ISO 9001:2015 are maintained. Continuous R&D and employee training ensure adherence to technical specifications.                                     |  |  |
| Related Party Transaction<br>and Conflict of Interest<br>Risks | Transactions involving promoters and related parties may give rise to real or perceived conflicts affecting governance and minority shareholder interests.            | All related party transactions are conducted on<br>an arm's length basis and subject to regulatory<br>approvals, board oversight, and disclosure<br>requirements. The Company follows strict<br>corporate governance standards to address<br>potential conflicts transparently. |  |  |
| Geographical<br>Concentration Risk                             | Majority of manufacturing and sales activities are concentrated in the Rajasthan region, exposing operations to regional economic, political or natural disruptions.  | The company pursues gradual geographical diversification of customers and markets. Business continuity and disaster management plans are in place to mitigate localized risks.  |  |  |
| Industry and Market Risks                                      | Changes in HVAC sector dynamics, economic slowdowns, or reduction in customer outsourcing trends could impact sales volumes and margins.                              | We continuously innovate product offerings and explore new markets to stay competitive. Strategic partnerships and customer engagement initiatives help enhance adaptability to market changes.   |  |  |
| Environmental and<br>Sustainability Risks                      | Increasing regulations on emissions, energy consumption, and hazardous materials handling can raise compliance costs and impact business operations.                  | We are committed to environmental stewardship with compliance to all local and national environmental norms. Investments in energy-efficient technologies, waste reduction measures, and sustainable sourcing underpin our strategic response to climate-related risks.         |  |  |
| Information Security and<br>Fraud Risk                         | Potential fraud, theft or system failures can disrupt operations and damage reputation.   | The company maintains strong internal controls, surveillance, and insurance coverage. Regular audits and governance mechanisms reduce fraud risk and ensure financial integrity.  |  |  |
| Market Risks - Liquidity<br>and Price Volatility               | Post listing, equity share price may experience volatility due to market conditions, investor sentiment, or macroeconomic factors, affecting liquidity and valuation. | We engage with investors and analysts through transparent disclosures and investor relations initiatives. Continuous market monitoring and adherence to regulatory requirements support price stability and investor confidence.  |  |  |
| Changes in Laws and Tax<br>Regime                              | Amendments to tax laws, regulations, or labor codes could increase compliance burden and cost structure.  | The company consults with tax and legal experts regularly to incorporate changes promptly. Forward planning and scenario analysis help mitigate impact of regulatory changes on profitability.  |  |  |

This Risk Management framework reflects our proactive approach to risk assessment and mitigation, helping us to sustain our growth trajectory while safeguarding stakeholder interests. We continuously refine our risk processes to address emerging challenges and ensure operational excellence and regulatory compliance.

### Management Discussion & Analysis

#### INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

KRN has established a robust internal control framework designed to ensure the integrity and reliability of its financial reporting, safeguard its assets, and promote adherence to statutory, regulatory, and internal procedural requirements. These internal controls are rigorously formulated, documented, and implemented in alignment with the size, complexity, and scale of KRN's operations. The framework encompasses clearly defined policies and authorization protocols for all material transactions, aiming to maintain operational effectiveness and mitigate the risk of fraud.

The Board of Directors is ultimately responsible for the design, implementation, and continued adequacy of internal controls relevant to the preparation and fair presentation of both consolidated and standalone financial information, in full compliance with the requirements of the Companies Act, SEBI (ICDR) Regulations, and applicable guidance notes. The Audit Committee, together with the internal audit function, plays a vital oversight role—reviewing the sufficiency and efficacy of internal audit procedures and continuously monitoring compliance across all business functions and locations.

Internal audits, which are conducted at regular intervals by experienced external professionals as well as the internal audit team, provide an independent appraisal of the operational effectiveness and adequacy of internal controls. These audits cover key financial, operational, and compliance domains, with findings and recommendations reviewed in detail by the Audit Committee. Action plans to address any identified gaps are closely monitored for timely remediation.

While KRN is committed to maintaining a strong internal control environment, it is recognized that the effectiveness of these controls may be challenged by dynamic business conditions and evolving risks. The Company remains vigilant and proactive in identifying, rectifying, and mitigating any deficiencies that may arise, thereby supporting the accuracy of financial reporting, effective risk management, and the prevention of fraud. The Board continually assesses and enhances the internal control and risk management systems to support sustainable and compliant business operations.

#### **CORPORATE SOCIAL RESPONSIBILITY**

72

We demonstrate a commitment to corporate citizenship through our established "Corporate Social Responsibility Policy" and a dedicated CSR Committee, in compliance with Section 135 of the Companies Act, 2013. The CSR Committee was reconstituted on March 27, 2024.

In Fiscal Year 2025, the total expenditure required to be spent on CSR was  $\ref{0.80}$  Cr, and the amount spent was  $\ref{0.81}$  Cr. In Fiscal Year 2025, we actively engaged in several CSR initiatives, primarily focusing on providing support to local government schools and hospitals within our operational vicinity.

Our CSR activities in FY2025 highlight a localized and tangible commitment to community welfare, particularly in the critical areas of education and healthcare. These direct, local engagement efforts, rather than broad, thematic programs, indicate our dedication to being a responsible corporate citizen within our immediate operational areas. Such initiatives are instrumental in fostering goodwill, strengthening community relations, and enhancing our social license to operate, which is an increasingly vital aspect of long-term sustainability and reputation management.

#### **HUMAN RESOURCES AND INDUSTRIAL RELATIONS**

As of July 31, 2025, we maintained a substantial workforce of over 768 professionals, including 208 full-time and 560 contractual employees. We place a strong emphasis on continuous learning and professional development, regularly organizing training sessions for both our workers and staff. These training programs often include seminars conducted by respected industry experts, fostering an environment of ongoing skill enhancement and knowledge acquisition. We have also established an internal Brazing school to enhance staff skills.

We have formalized our human resources practices through the establishment of several key policies. These include a "Nomination And Remuneration Policy" and a comprehensive "Policy on Sexual Harassment of Women at Workplace". The latter policy is particularly robust, covering all employees and outlining detailed procedures for the prevention, prohibition, and redressal of sexual harassment, supported by an Internal Complaints Committee. Our broader Code of Ethics reinforces these commitments by emphasizing "Concern for Others" and "Integrity," aiming to cultivate a safe, healthy, and ethical workplace environment for all employees. We prioritize the health and safety of our employees, holding the ISO 45001:2018 Occupational Health and Safety Management Systems certification, conducting annual external safety tests, and providing employee benefits such as Group Personal Accident Cover and Group Health (Floater) Insurance, along with adequate safety equipment.

We maintain a significant workforce and actively invest in employee development through structured training programs. This commitment to skill development enhances operational efficiency and prepares our workforce to adapt to new technologies, particularly relevant given our new product lines. The formal HR policies demonstrate a structured approach to employee welfare, ethical conduct, and legal compliance. This fosters a positive work environment, mitigates human resources-related risks, and contributes to our overall stability and productivity. We have maintained a harmonious labor environment with no major disputes in the past three years.

### Management Discussion & Analysis

#### **KET RATIOS**

| Particulars                    | FY 2025 | FY2024 |
|--------------------------------|---------|--------|

#### **RISK MANAGEMENT**

Risk Management has been integrated with major business processes such as strategic planning, business planning, operational management and investment decisions to ensure consistent consideration of risks in all decision- making. Major risks identified by the businesses and functions are systematically addressed through mitigating actions on a continuing basis.

To minimize the adverse consequence of risks on business objectives the Company has framed this Risk Management Policy. The main objective of this policy is to ensure sustainable business growth with stability and to promote a pro-active approach in reporting, evaluating and resolving risks associated with the business. In order to achieve the key objective, the policy establishes a structured and disciplined approach to Risk Management, in order to guide decisions on risk related issues.

In today's challenging and competitive environment, strategies for mitigating inherent risks in accomplishing the growth plans of the Company are imperative. The common risks inter alia are: Regulations, competition, Business risk, Technology obsolescence, Investments, retention of talent and expansion of facilities.

Business risk, inter-alia includes financial risk, political risk, fidelity risk and legal risk. As a matter of policy, these risks are assessed and steps as appropriate are taken to mitigate the same.

DETAILS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE FINANCIAL STATEMENTS

### **Board's Report**

The Company has documented its internal financial controls considering the essential components of various critical processes, both physical and operational. This includes its design, implementation and maintenance, along with periodic internal review of operational effectiveness and sustenance and whether these are commensurate with the nature of its business and the size and complexity of its operations.

This ensures orderly and efficient conduct of its business, including adherence to the Company's policies, safeguarding of its assets, prevention of errors, accuracy and completeness of the accounting records and the timely preparation of reliable financial information.

Internal financial controls with reference to the financial statements were adequate and operating effectively.

#### ANNUAL EVALUATION BY THE BOARD

The Board, pursuant to the provisions of the Act and Listing Regulations, has carried out an Annual Evaluation of its own performance, performance of the Board Committees and of the individual Directors (including the Independent Directors) on various parameters.

The criteria for the evaluation of the performance of the Board, the Committees of the Board and the individual Directors, including the Chairperson of the Board was approved by the Nomination and Remuneration Committee ("NRC") of the Company. The Board decided to circulate the set of questionnaires for the performance evaluation to the directors and on the basis of those questionnaires, the evaluation of the Board Committees and of the individual Directors (including the Independent Directors) was done for the FY 2024-25.

The performance evaluation of the Non-Independent Directors and Chairman of the Board was carried out by the Independent Directors in a separate meeting.

The Directors expressed their satisfaction with the evaluation process. Further, the evaluation process confirms that the Board and its Committees continue to operate effectively and the performance of the Directors is satisfactory.

# FORM No. MR-3 SECRETARIAL AUDIT REPORT

For The Financial Year Ended March 31, 2025

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
KRN Heat Exchanger and Refrigeration Limited,
(CIN: L29309RJ2017PLC058905)
Plot No. F-46, 47, 48, 49, EPIP,
RIICO Industrial Area,
Neemrana, Rajasthan-301705.

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate governance practice by KRN Heat Exchanger and Refrigeration Limited [Formerly known as KRN Heat Exchanger And Refrigeration Private Limited] (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company, to the extent the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, the explanations and clarifications given to us and the representations made by the Management, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended March 31, 2025, generally complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records made available to us and maintained by the Company for the financial year ended on March 31, 2025, according to the provisions of:

- The Companies Act, 2013 (the Act) and the rules made there under.
- The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- iii. The Depositories Act, 1996 and the Regulations and Byelaws framed there under:
- iv. The Foreign Exchange Management Act, 1999 (FEMA) and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment

and External Commercial Borrowings; (Not applicable to the Company during the audit period)

- v. The following regulations and guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'): #
  - The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers)
     Regulations, 2011:
  - The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
  - The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations,
     2018 and amendments from time to time;
  - d) The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity)
     Regulations, 2021; (Not applicable to the Company during the audit period)
  - e) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities)
     Regulations, 2021; (Not applicable to the Company during the audit period)
  - f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client; (Not applicable to the Company during the audit period)
  - g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021; (Not applicable to the Company during the audit period)
  - The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018; (Not applicable to the Company during the audit period) and
  - The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015; and amendments from time to time:

# Since the securities of the company were listed on stock exchanges on October 3, 2024, all the regulatory compliances of listed entities applicable to the Company from that date.

### **Board's Report**

 vi. Based on the information, explanations, and clarifications given to us, and the representations made by the Management, there were no specific laws and regulations applicable to the Company during the reporting period.

We have also examined compliance with the applicable clauses of the following:

- Secretarial Standards issued by The Institute of Company Secretaries of India with respect to board and general meetings.
- (ii) The Listing Agreements entered into by the Company with National Stock Exchange of India Limited and BSE Limited read with the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the period under review, the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, standards etc. mentioned above, except filing of Form No. MGT-14, dated 27.01.2025 with additional fee and filing of MSME-Form I.

#### We further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. Any changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance (and by complying with prescribed procedure where the meetings are called with less than seven days' notice), and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes.

We further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations, guidelines, etc.

We further report that during the audit period following events occurred which had bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards etc.:

 The Company has issued and allotted 4,77,000 equity shares of face value ₹10/- each at an offer price of ₹200/- per equity share (including a securities premium of ₹190/- per share), aggregating to a total issue size of ₹954.00 lakhs, through Private Placement on August 14, 2024, in accordance with the applicable provisions of the Companies Act, 2013 and relevant rules made thereunder.

- The Company successfully completed its Initial Public Offer (IPO) of 1,55,43,000 equity shares of face value ₹10/- each at an offer price of ₹220/- per equity share, which includes a securities premium of ₹210/- per share, aggregating to a total issue size of ₹34,194.60 lakhs. The allotment of equity shares was completed on September 30, 2024, and the said equity shares were listed on the National Stock Exchange of India Limited (NSE) and BSE Limited (BSE) with effect from October 3, 2024.
- The remuneration of the Managing Director and Whole-Time Director has been increased by the Company with effect from January 1, 2025, pursuant to the approval granted by the Board of Directors at their meeting held on January 27, 2025, in accordance with the applicable provisions of the Companies Act, 2013 and relevant rules made thereunder.
- Mr. Praveen Kumar, the Company Secretary and Compliance Officer (Key Managerial Personnel) of the Company, has resigned with effect from February 17, 2025. In place of him, the Board of Directors has appointed Mr. Jitendra Kumar Sharma as the Company Secretary and Compliance Officer (Key Managerial Personnel) of the Company w.e.f. April 28, 2025.
- The Company has incorporated a wholly owned subsidiary under the name "Thermotech Research Laboratory Private Limited" (CIN: U72100RJ2025PTC100403) on February 26, 2025, pursuant to the provisions of the Companies Act, 2013, in the State of Rajasthan.

### Report on Corporate Governance

Pursuant to the requirements specified in Regulation 34(3) read with Schedule V of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 {the Listing Regulations} the details of Corporate Governance and processes including prescribed compliances by the Company are as follows:

## 1. COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE

For KRN Heat Exchanger and Refrigeration Limited ("the Company"), good corporate governance means adoption of best practices to ensure that the Company operates not only within the regulatory framework but is also guided by broader business ethics. The adoption of such corporate practices based on transparency and proper disclosures, ensures accountability of the persons in charge of the Company and brings benefits to investors, customers, creditors, employees and the society at large. This philosophy with appropriate principles lays a solid foundation to consolidate trust amongst the various stakeholders which helps align the Company's vision with business integrity.

The Company is in compliance with the corporate governance norms and disclosure requirements as specified under SEBI (Listing Obligations and Disclosure Requirements) 2015 ("Listing Regulations") during the year ended on 31st March, 2025.

#### 2. BOARD OF DIRECTORS

The Board of Directors are in charge of the management of the company's business as they make the strategic and operational decisions of the company and are responsible for ensuring that the company meets its statutory obligations. The Board ensures that the Company is managed in a well-balanced manner that fulfil stakeholders' aspirations, attains sustainable growth and adopts best corporate governance practices. The Board is further supported by Board Committee(s) which diligently and effectively discharge duties assigned by the Board and under law. The objective of management team of the Company is to foster a culture that thrives on innovation, excellence and a relentless pursuit of continuous improvement. The Board, which is at the core of the corporate governance system of the Company, has ultimate responsibility for the management, general affairs, direction, performance and long-term success of the business. The Board is committed towards ensuring that sound principles of corporate governance are

followed at all levels within the organization, not just form but in substance. The Board plays a crucial role in overseeing how the management serves the short and long-term interests of the all stakeholders.

#### a) Composition:

The Board of Directors of the Company has an optimum balance of Executive and Non-Executive Directors, representing a blend of professionalism, knowledge and experience. The composition of the Board is in compliance with Regulation 17 of the Listing Regulations.

Mr. Santosh Kumar Yadav is Chairman & Managing
Director of the Company. Since the Chairman is
a Promoter and Managing Director, the Company
needs to appoint at least 50% of the total number of
Directors as Independent Directors. The Board is in
compliance with Regulation 17 of Listing Regulations,
has two Executive Directors, one Non-Executive
Director and four Non-Executive Independent
Directors (including one Woman Independent
Director).

#### b) Board Meetings:

Subject: Compliance Certificate pursuant to the Regulation 17(8) of SEBI (Listing Obligations and Disclosure Requirements)
Regulations, 2015

Dear Sir(s)/Madam,

This is to certify that:

- (a) We have reviewed the financial statements and the cash flow statement (both standalone and consolidated) for the year ended 31st March 2025 and that to the best of our knowledge and belief:
  - (i) these statements do not contain any materially untrue statement or omit any material fact or contain statements that might be misleading;
  - (ii) these statements together present a true and fair view of the Company's affairs and are in compliance with existing accounting standards, applicable laws and regulations;
- (b) There are, to the best of our knowledge and belief, no transactions entered into by the Company during the year which are fraudulent, illegal or violative of the Company's code of conduct.
- (c) We accept responsibility for establishing and maintaining internal controls for financial reporting and we have evaluated the effectiveness of internal control systems of the Company pertaining to financial reporting and we have disclosed to the auditors and the Audit Committee, deficiencies in the design or operation of such internal controls, if any, of which we are aware and the steps we have taken or propose to take to rectify these deficiencies.
- (d) We have indicated to the auditors and the Audit committee:
  - (i) Significant changes in internal control over financial reporting during the year;
  - (ii) Significant changes in accounting policies during the quarter and that the same have been disclosed in the notes to the financial statements; and
  - (iii) instances of significant fraud of which we have become aware and the involvement therein, if any, of the management or an employee having a significant role in the listed entity's internal control system over financial reporting.

### Business Responsibility and Sustainability Report

#### We have embarked on a journey to transform and redefine the future of Thermal Energy Efficiency

At KRN Heat Exchanger and Refrigeration Limited, our story is one of ambition, adaptability, and unwavering commitment to quality. As a leading manufacturer and exporter of aluminium and copper finned heat exchangers, water coils, condensers, and evaporator coils, we serve as a trusted partner to some of the world's most respected OEMs in the HVAC&R sector. Our products power the operations of industry leaders such as Daikin India, Schneider Electric, Voltas, Carrier, Eberspaecher, Kirloskar, Blue Box, and Knorr Bremse, reflecting the confidence placed in our expertise and innovation.

Our journey is defined by a relentless pursuit of expansion—across markets, technologies, and applications—while never compromising on the excellence that has become our hallmark. With a state-of-the-art manufacturing facility equipped with advanced global technologies, we deliver customized solutions tailored to the unique needs of domestic, commercial, and industrial clients. From powering large-scale cooling systems in commercial complexes to providing precision cooling for data centres and mission-critical infrastructure, our innovative coil designs address the evolving challenges of today's dynamic world.

In an age where digital transformation and artificial intelligence are reshaping industries, KRN stands at the forefront, supporting the backbone of the digital economy. Our advanced heat exchangers play a pivotal role in enabling the growth of data canters—ensuring efficient thermal management for uninterrupted, high-density computing. By safeguarding the reliability and longevity of these vital systems, we empower the seamless delivery of Al-driven services and applications worldwide.

Our commitment extends beyond product excellence. We uphold rigorous quality and safety standards, invest in sustainable practices, and focus on delivering cost-effective, high-performance solutions with swift turnaround times. Every achievement is a testament to our dedication to exceeding customer expectations and driving industry standards forward.

As we continue to expand our boundaries, we remain steadfast in our promise to sustain excellence—for our partners, our people, and the communities we serve. At KRN, we believe that true progress lies in pushing limits while preserving the values that define us. Our vision is clear: to shape a future where innovation and reliability go hand in hand, and where our solutions continue to power progress across industries and around the globe.

Business Responsibility and Sustainability Reporting (BRSR) is the practice of companies disclosing information about their environmental, social, and governance (ESG) performance. It goes beyond financial reporting to provide stakeholders with a comprehensive view of a company's non-financial impacts and contributions to sustainable development. BRSR covers topics such as environmental impact, social responsibility, and governance practices, aiming to promote transparency and accountability.

#### 26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

| Sr.<br>No. | Material issue<br>identified  | Indicate<br>whether<br>risk or<br>opportunity<br>(R/O) | Rationale for identifying the risk / opportunity   | In case of risk,<br>approach to adapt or<br>mitigate  | Financial implications of the risk or opportunity (Indicate positive or negative implications) |
|------------|-------------------------------|--|--|---|--|
| 1          | Energy<br>management          | Risk   | Energy management is important for KRN to reduce operational costs, improve efficiency, and lower its environmental footprint. As a heat exchanger manufacturer, energy-intensive processes demand optimisation to stay competitive. Efficient energy use supports compliance with evolving regulations, meets client sustainability expectations, and enhances long-term business resilience while contributing to KRN's overall ESG performance. | The company enhances operational efficiency through regular monitoring and process controls. Additionally, KRN has implemented onsite solar power generation to reduce reliance on fossil fuel-based electricity and lower its overall carbon footprint. Also, other measures include adopting energy-efficient equipment such as IE4 grade motor variable frequency drive (VFD), LED lights, and energy-efficient fans and appliances. | Negative   |
| 2          | Product design                | Opportunity  | Well-designed products reduce resource consumption, enhance customer satisfaction, and meet evolving regulatory and environmental standards. It also supports innovation and competitiveness in global markets where clients prioritize sustainable and high-performance engineering solutions.  |   | Positive   |
| 3          | Product quality<br>and safety | Risk   | Any defects or failures can lead to operational disruptions, client dissatisfaction, reputational damage, and potential legal liabilities. As an OEM supplier, maintaining strict quality control and safety standards is critical to meeting customer expectations and industry regulations.  | KRN ensures product quality and safety by obtaining third-party certifications and adhering to stringent quality standards. The company actively engages with customers to understand and meet their performance and safety expectations, incorporating their feedback into product development. This approach helps maintain reliability, regulatory compliance, and long-term customer satisfaction.                                  | Negative   |

| Sr.<br>No. | Material issue<br>identified     | Indicate<br>whether<br>risk or<br>opportunity<br>(R/O) | Rationale for identifying the risk / opportunity  | In case of risk,<br>approach to adapt or<br>mitigate   | Financial implications of the risk or opportunity (Indicate positive or negative implications) |
|------------|----------------------------------|--|---|--|--|
| 4          | Health, safety<br>and well-being | Risk   | Ensuring a safe and healthy work environment is essential for employee retention, productivity, and regulatory compliance. Any lapse can lead to workplace injuries, legal liabilities, operational downtime, and reputational damage.  | KRN mitigates health and safety risks through regular workplace safety assessments, implementation of strict safety protocols, and continuous employee training and awareness programs. The company ensures all personnel are equipped with appropriate health and safety kits and protective gear. These measures help prevent accidents, promote a safe work culture, and ensure compliance with occupational health and safety regulations.                                 | Negative   |
| 5          | Human rights                     | Risk   | Upholding human rights standards is vital for ensuring stakeholder trust and supporting long-term responsible growth. Noncompliance such as unsafe conditions or discriminatory practices, can result in reputational damage, regulatory penalties, and operational disruption. | KRN addresses human rights risks through clearly defined policies that promote ethical labour practices, non-discrimination, and safe working conditions. The company conducts regular audits and assessments to monitor compliance across its operations and supply chain. Training and awareness programs are implemented for employees and partners to reinforce human rights standards, ensuring accountability and alignment with national and international regulations. | Negative   |

| Sr.<br>No. | Material issue<br>identified         | Indicate<br>whether<br>risk or<br>opportunity<br>(R/O) | Rationale for identifying the risk / opportunity  | In case of risk,<br>approach to adapt or<br>mitigate   | Financial implications of the risk or opportunity (Indicate positive or negative implications) |
|------------|--------------------------------------|--|---|--|--|
| 6          | Responsible<br>supply chain          | Risk   | As an OEM, KRN plays a key role in the broader supply chain, and any lapses in vendor ethics, quality, or reliability can disrupt operations and harm client trust. Growing ESG expectations also demand greater transparency, compliance, and sustainability throughout the supply chain.  | KRN manages supply chain risks by conducting regular supplier assessments, implementing training and awareness programs, and promoting responsible sourcing practices. The company considers key sustainability parameters such as environmental compliance, labor practices, and ethical standards when selecting and engaging with vendors, ensuring alignment with its ESG goals and maintaining a resilient, transparent, and accountable supply chain.                | Negative   |
| 7          | Business<br>Ethics and<br>governance | Risk   | KRN must uphold high ethical standards and regulatory adherence to maintain client confidence and market credibility. Robust governance practices are essential to ensuring accountability, transparency, and sustainable business operations. Any noncompliance with laws or ethical lapses can result in legal action, financial penalties, and damage to reputation. | KRN mitigates business ethics and compliance risks through robust governance frameworks, a formal Code of Conduct, and strict adherence to regulatory standards. Regular employee training promotes ethical awareness and accountability. The company also conducts internal audits, risk assessments, and compliance monitoring to identify and address potential issues, ensuring transparent, responsible, and legally compliant business operations across all levels. | Negative   |

#### **SECTION B: MANAGEMENT AND PROCESS DISCLOSURES**

#### Governance, leadership and oversight

7. Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements

Dear Stakeholders,

KRN is committed to delivering sustainable growth by embedding Environmental, Social, and Governance (ESG) principles into every aspect of our business. We have taken significant strides in environmental stewardship, including the installation of onsite solar power generation and adoption of advanced energy-efficient technologies such as IE4 grade motors and LED lighting. These initiatives have measurably reduced our reliance on fossil fuels and lowered our carbon footprint.

Our social initiatives prioritise the health, safety, and well-being of employees through regular workplace assessments, robust safety protocols, continuous training, and provision of protective equipment. We maintain the highest product quality and safety standards through stringent benchmarks and third-party certifications, while upholding human rights and ethical labour practices across our operations and supply chain.

In governance, our strong Code of Conduct, transparent compliance systems, regular audits, and proactive risk management ensure accountability at all levels. We remain confident in achieving our long-term ESG commitments, strengthening stakeholder trust, and creating enduring value.

8. Details of the highest authority responsible for implementation and oversight of the Business Responsibility policy (ies).

| Particular      | NGRBC Principle | Name of the<br>regulatory/<br>enforcement<br>agencies/ judicial<br>institutions | Brief of  | the Case          | Has an appeal<br>been preferred?<br>(Yes/No) |
| Imprisonment    | NIL             |   | N.A.  |                   |  |
| Punishment      | NIL             |   |   |                   |  |

Not applicable as no fines or penalties have been imposed in the reporting period.

Of the instances disclosed in Question 2 above, details of the Appeal/ Revision preferred in cases where monetary or nonmonetary action has been appealed.

| Case Details | Name of the regulatory/ enforcement agencies/ judicial institutions |
|--------------|---|
|              | N.A.  |

4. Does the entity have anti-corruption or anti-bribery policy? (Yes/ No)

Yes

If Yes, provide details in brief

At KRN, we are committed to conducting our business with the highest standards of integrity, ethics, and transparency. We maintain a zero-tolerance policy towards bribery and corruption in any form. All directors and employees are required to undergo regular training on this subject. Additionally, our Whistle Blower mechanism enables employees, directors, and third parties to report any unethical practices, including bribery and corruption, to the Whistle Blower Committee or the Chairman of the Audit Committee for appropriate action.

If Yes, Provide a web link to the policy, if available -Web link anti corruption or anti bribery policy is place

KRN has an Anti-Corruption and Bribery Policy, which is available on the Group's Intranet

5. Number of Directors/ KMPs/ employees/ workers against whom disciplinary action was taken by any law enforcement agency for the charges of bribery/ corruption:

| Particular | FY 2024-25 | FY 2023-24 |
|------------|------------|------------|
| Directors  | 0          | 0          |
| KMPs       | 0          | 0          |
| Employees  | 0          | 0          |
| Workers    | 0          | 0          |

6. Details of complaints with regard to conflict of interest:

| Case Details   | FY 20  | 24-25  | FY 2023-24 |        |
|--|--------|--------|------------|--------|
|  | Number | Remark | Number     | Remark |
| Number of complaints received in relation to issues of Conflict of Interest of the Directors | 0      | -      | 0          | -      |
| Number of complaints received in relation to issues of Conflict of Interest of the KMPs      | 0      | -      | 0          | -      |

7. Provide details of any corrective action taken or underway on issues related to fines / penalties / action taken by regulators/ law enforcement agencies/ judicial institutions, on cases of corruption and conflicts of interest.

N.A.

8. Number of days of accounts payables in the following format:

| Particular                          | FY 2024-25 | FY 2023-24 |
|-------------------------------------|------------|------------|
| Number of days of accounts payables | 58         | 52         |

#### 9. Open-ness of business

Provide details of concentration of purchases and sales with trading houses, dealers, and related parties along-with loans and advances & investments, with related parties, in the following format:

| Parameter                  | Me | etrics  | FY 2024-25 | FY 2023-24 |
|----------------------------|----|---|------------|------------|
| Concentration of Purchases | a. | Purchases from trading houses as % of total purchases                                 | 5.06%      | 4.55%      |
|                            | b. | Number of trading houses where purchases are made from                                | 109        | 97         |
|                            | c. | Purchases from top 10 trading houses as % of total purchases from trading houses      | 67.15%     | 67.03%     |
| Concentration of Sales     | a. | Sales to dealers / distributors as % of total sales                                   | 3.52%      | 5.30%      |
|                            | b. | Number of dealers / distributors to whom sales are made                               | 15         | 11         |
|                            | c. | Sales to top 10 dealers / distributors as % of total sales to dealers / distributors  | 98.95%     | 99.99%     |
| Share of RPTs in           | a. | Purchases (Purchases with related parties / Total Purchases)                          | 2.30%      | 0.02%      |
|                            | b. | Sales (Sales to related parties / Total Sales)  | 2.97%      | 2.86%      |
|                            | C. | Loans & advances (Loans & advances given to related parties / Total loans & advances) | 100%       | 100%       |
|                            | d. | Investments   | 100%       | 100%       |

#### **Leadership Indicators**

1. Awareness programmes conducted for value chain partners on any of the Principles during the financial year:

| Total number of awareness programmes held | Topics / principles covered under the training | Percentage of value chain partners covered (by value of business done with such partners) under the awareness programmes |  |  |
|---|--|--|--|--|
| 8   | Skill development training                     | 100%   |  |  |
| 5   | <b>Environment Training</b>                    | 100%   |  |  |
| 10  | Product Awareness                              | 100%   |  |  |
| 7   | Material handling and resources utilisation    | 100%   |  |  |

2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No) Yes

#### If Yes, provide details of the same.

The Group has established processes to identify, manage, and avoid conflicts of interest involving the Board of Directors and Senior Management. A comprehensive Code of Conduct and Business Ethics is in place, outlining clear guidelines and disclosure mechanisms for potential conflicts. Additionally, all Board members and Senior Management are required to submit an annual declaration confirming compliance with these standards.

Policy Weblink: https://krnheatexchanger.com/wp-content/uploads/2024/05/Code-of-Conduct-for-Directors-and-Senior-Management-Personnel-Policy.pdf

#### PRINCIPLE 2 Businesses should provide goods and services in a manner that is sustainable and safe.

(This principle highlights the importance of sustainable and safe production practices. Companies should strive to minimize the environmental impact of their activities and ensure that their products and services are safe for consumers and the environment.)

#### **Essential Indicator**

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

| Sr.<br>No. | Particular | FY 2024-25 | FY 2023-24 | Details of improvements in<br>environmental and social<br>impacts |
|------------|------------|------------|------------|---|
| 1          | R&D        | Nil        | Nil        | -   |
| 2          | Capex      | Nil        | Nil        | -   |

- 2 a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)
  - b. If yes, what percentage of inputs were sourced sustainably?

100%

Yes

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for

| (a) | Plastics (including packaging) | KRN is an OEM supplier with no final product to reclaim; site waste is safely disposed of and sent for third-party recycling. |
|-----|--------------------------------|---|
| (b) | E-waste                        | Not applicable  |
| (c) | Hazardous waste                | The company does not generate material hazardous waste  |
| (d) | other waste                    | Not applicable  |

- 4. a Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No)
  - b If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards?

N.A.

c If not, provide steps taken to address the same

KRN is a component manufacturer for OEMs, and any waste generated from the produced parts is managed by the respective OEMs in accordance with their waste management policies.

## PRINCIPLE 3 Businesses should respect and promote the well-being of all employees, including those in their value chains.

(This principle emphasizes the importance of employee well-being. Companies should provide safe and healthy working conditions, fair wages, and opportunities for career development to all employees in their value chains, including suppliers, contractors, and temporary workers.)

#### **Essential Indicators**

#### 1 a. Details of measures for the well-being of employees:

| Category     | % of employees covered by |                     |              |                    |              |                    |              |                       |              |                     |              |
|--------------|---------------------------|---------------------|--------------|--------------------|--------------|--------------------|--------------|-----------------------|--------------|---------------------|--------------|

#### 3. Accessibility of workplaces

Are the premises / offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Yes.

The premises / offices of KRN Group are largely accessible to differently abled employees and contractors, barring some of the locations, where it is practically not possible. However, the Group is attempting to make improvements to the current system.

If not, whether any steps are being taken by the entity in this regard.

N.A.

#### 4. Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016?

If so, provide a web-link to the policy.

Yes.

KRN has an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016, which is available on Company's Intranet and accessible to all employees.

#### 5. Return to work and Retention rates of permanent employees and workers that took parental leave.

| Gender | Permanent I         | Employees      | Permanent Workers*  |                |  |
|--------|---------------------|----------------|---------------------|----------------|--|
|        | Return to work rate | Retention Rate | Return to work rate | Retention Rate |  |
| Male   | NA                  | NA             | NA                  | NA             |  |
| Female | NA                  | NA             | NA                  | NA             |  |
| Total  | -                   | -              | -                   | -              |  |

<sup>\*</sup>We do not have female workers, and none of our other employee or worker have claimed parental leaves during FY2024 & FY2025

6. Is there a mechanism available to receive and redress grievances for the following categories of employees and worker? If yes, give details of the mechanism in brief.

| Category                       | Yes/No | If Yes, then give details of the mechanism in brief   |
|--------------------------------|--------|---|
| Permanent Workers              | Yes    | Yes, KRN is dedicated to offering a secure and encouraging workplace to its employees, wherein it has formulated below mentioned policies that allows the employees to report any type of suspected or actual misconduct within the organization:   |
| Other than Permanent Workers   | Yes    | Whistle Blower Policy/Vigil Mechanism   |
| Permanent Employees            | Yes    | • POSH  |
| Other than Permanent Employees | Yes    | Grievance Redressal Policy  |
|                                |        | Further, there is a dedicated Grievance Redress Committee, which is responsible for addressing the concerns and grievances of both internal (employees) as well as external stakeholders (including contractors). Additionally, employees can also raise their grievances to their respective HODs or Head-Human Resources Officer respectively |

7. Membership of employees and worker in association(s) or Unions recognised by the listed entity:

| Category      |  | FY 2024-25  |         | FY 2023-24  |   |         |  |

#### 10. Health and safety management system

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No) Yes If Yes, the Coverage such systems?

The occupational health and safety system covers all employees, including contractual staff. It encompasses risk assessments, safety training, incident reporting, and provision of personal protective equipment.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Standard Operating Procedures (SOPs) are established for all operations. Before commencing any task, potential workplace hazards are identified, and risk assessments are carried out. Employees undergo appropriate training based on these assessments. The implementation of 5S safety forms an integral part of hazard identification and risk management.

c. Whether you have processes for workers to report the work related hazards and to remove themselves from such risks? (Yes/ No) **Yes.** 

Employees and workers can report safety concerns to their supervisors or the designated safety officer. A WhatsAppbased reporting system is also in place for easy communication. They have the right to remove themselves from hazardous situations when necessary.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No) Yes, the employees/contractors of the Group have access to non-occupational medical and healthcare services.

#### 11. Details of safety related incidents, in the following format:

| Safety Incident/Number                                   | Category* | FY 2024-25 | FY 2023-24 |

| related injury or ill health (excluding fatalities)      | Workers   | 0          | 0          |

<sup>\*</sup>Including in the contract workforce

12. Describe the measures taken by the entity to ensure a safe and healthy work place.

The organization prioritizes workplace safety through comprehensive measures.

#### Key measures include:

- Safety induction and fire-fighting training
- Regular workplace inspections
- Mandatory use of PPE (helmets, gloves, safety shoes)
- Installation of safety signs, emergency stop switches, and sensors
- 5S implementation with routine housekeeping checks

#### 13. Number of Complaints on the following made by employees and workers:

| <b>Particulars</b>    |                          | FY 2024-25                                     |         | FY 2023-24               |  |         |
|-----------------------|--------------------------|--|---------|--------------------------|--|---------|
|                       | Filed during<br>the year | Pending<br>resolution<br>at the end of<br>year | Remarks | Filed during<br>the year | Pending<br>resolution<br>at the end of<br>year | Remarks |
| Working<br>Conditions | 0                        | 0  | -       | 0                        | 0  | -       |
| Health & Safety       | 0                        | 0  | -       | 0                        | 0  | -       |

#### 14. Assessment for the year:

| Particulars                 | % of your plants and offices that were assessed (by entity or statutory authorities or third parties) |
|-----------------------------|---|
| Health and safety practices | 100%  |
| Working Conditions          | 100%  |

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks/ concerns arising from assessments of health & safety practices and working conditions.

Not applicable.

#### Leadership Indicators

- 1. Does the entity extend any life insurance or any compensatory package in the event of death of
- (A) Employees (Y/N) Y
- (B) Workers (Y/N) Y

#### PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders.

(This principle highlights the importance of stakeholder engagement. Companies should consider the interests and perspectives of all stakeholders, including shareholders, employees, customers, suppliers, and the communities in which they operate. They should also be responsive to stakeholder concerns and feedback.)

#### **Essential Indicators**

#### 1. Describe the processes for identifying key stakeholder groups of the entity.

At KRN, key stakeholder groups are identified through a structured assessment of the company's business operations, supply chain, and industry ecosystem. The process involves analysing interactions across various functions such as production, procurement, sales, compliance, and community engagement.

Stakeholders are categorized based on their influence on, and impact by, the organization's activities. This includes internal stakeholders like employees and management, as well as external stakeholders such as customers (OEMs), suppliers, regulatory bodies, export partners/distributors, and the local community.

# 2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

| Stakeholder<br>Group    | Whether<br>identified as<br>Vulnerable &<br>Marginalized<br>Group (Yes/No) | Channels of<br>communication<br>(Email, SMS,<br>Newspaper, Pamphlets,<br>Advertisement,<br>Community Meetings,<br>Notice Board, Website),<br>Other   | Frequency of<br>engagement<br>(Annually/ Half<br>yearly/ Quarterly<br>/ others – please<br>specify)  | Purpose and scope of engagement including key topics and concerns raised during such engagement  |
|-------------------------|--|--|--|--|
| Customers               | No   | <ul> <li>One-to-one interactions</li> <li>Site-visits</li> <li>Customer meetings</li> <li>E-mails</li> <li>Feedback Mechanism-Online Survey</li> <li>Digital Channels</li> <li>Trial and improvement programmes</li> </ul> | <ul><li>Continuous</li><li>Periodic</li><li>Need based</li><li>Annually</li><li>Continuous</li></ul> | Delivering safe, high-quality products with innovation, efficiency, and responsive service, while engaging proactively on feedback, grievances, and demand insights through digital and direct channels to drive continuous improvement. |

| Local<br>community                             | No   | <ul> <li>CSR Initiatives</li> <li>Field visits by project representatives</li> <li>Face to face interactions</li> <li>Collaboration through NGOs</li> <li>Community meetings</li> </ul>   | Engagement as per need  | Driving local development through sustainable livelihoods, impactful community initiatives, transparent reporting, and active collaboration with stakeholders to foster inclusive growth and shared value.   |

FINANCIAL REPORTS

#### PRINCIPLE 5 Businesses should respect and promote human rights.

(This principle focuses on the importance of human rights. Companies should respect and promote human rights, including the rights to freedom of expression, association, and privacy. They should also prevent and address human rights violations in their operations and value chains.)

#### **Essential Indicators**

# 1. Employees and workers who have been provided training on human rights issues and policy(ies) of the entity, in the following format

| Category             |           | FY 2024-25                                     |           |           |  |           |  |
|----------------------|-----------|--|-----------|-----------|--|-----------|--|
|                      | Total (A) | No. of<br>employees/<br>workers<br>covered (B) | % (B / A) | Total (C) | No. of<br>employees/<br>workers<br>covered (D) | % (D / C) |  |
| Employees            |           |  |           |           |  |           |  |
| Permanent            | 120       | 120  | 100%      | 74        | 74   | 100%      |  |
| Other than permanent | 0         | 0  | 100%      | 0         | 0  | 100%      |  |
| Total Employees      | 120       | 120  | 100%      | 74        | 74   | 100%      |  |
| Workers              |           |  |           |           |  |           |  |
| Permanent            | 88        | 88   | 100%      | 120       | 120  | 100%      |  |
| Other than permanent | 560       | 560  | 100%      | 388       | 388  | 100%      |  |
| Total Workers        | 648       | 648  | 100%      | 508       | 508  | 100%      |  |

#### 2. Details of minimum wages paid to employees and workers

| Category   |              | F             | Y 2024-2     | 5              |              | FY 2023-24 |               |              |               |                |

| Employees other than BoD and KMP | 58     | 36,985   | 1      | 2,00,000   |
| Workers                          | 82     | 19,003   | 0      | -  |

<sup>\*</sup>All median figures available on a standalone basis

#### b. Gross wages paid to females as % of total wages paid by the entity, in the following format:

| Particulars                         | FY 2024-25 | FY 2023-24 |
|-------------------------------------|------------|------------|
| Gross wages paid to females as % of | 10%        | 10%        |
| total wages                         |            |            |

## 4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? Yes.

Head of HR is responsible for managing and addressing any human rights impacts or issues arising from or linked to the business operations.

#### 5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

The KRN Group acknowledges the importance of timely and effective grievance resolution as a key element in safeguarding and upholding human rights. To support this, the company has implemented dedicated policies and mechanisms, including:

- Whistle Blower Policy / Vigil Mechanism
- Prevention of Sexual Harassment (POSH) Policy
- · Grievance Redressal Policy

A dedicated Grievance Redressal Committee is in place to address concerns and complaints from both internal and external stakeholders. Additionally, employees are encouraged to approach their respective Heads of Department (HODs) or the Head of HR to report any grievances or issues.

<sup>\*\*</sup>Includes MD and WTD, but these are not factored into the calculation as they are already considered within the median wages of the BoD.

#### 6. Number of Complaints on the following made by employees and workers:

| Particulars                         |                             | FY 2024-25                                     |         | FY 2023-24                  |  |         |

| Other human rights related issues   | 0                           | 0  | -       | 0                           | 0  | -       |

## 7. Complaints filed under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, in the following format:

| Particulars   | FY 2024-25 | FY 2023-24 |
|---|------------|------------|
| Total Complaints reported under Sexual Harassment on of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (POSH) | 0          | 0          |
| Complaints on POSH as a % of female employees / workers   | 0          | 0          |
| Complaints on POSH upheld   | 0          | 0          |

#### 8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

KRN Group ensures that individuals raising genuine concerns about discrimination or harassment are protected from retaliation or any adverse action. Confidentiality of complainants is maintained through specific provisions in the Grievance Redressal Policy, Whistle Blower Policy, and POSH Policy. All related reports and information are treated as confidential and access is restricted as appropriate.

#### 9. Do human rights requirements form part of your business agreements and contracts? (Yes/No/NA) No.

#### 10. Assessments for the year:

| Name of the Assessment      | % of your plants and offices that were assessed (by entity or statutory authorities or third parties)                                   |  |  |
|-----------------------------|---|--|--|
| Child labour                | 100%  |  |  |
| Forced/involuntary labour   |   |  |  |
| Sexual harassment           | Project sites and the Head Office were assessed by the<br>Group internally, or by statutory authorities and third-<br>party evaluators. |  |  |
| Discrimination at workplace |   |  |  |
| Wages                       | party ovaluation.   |  |  |
| Others – please specify     |   |  |  |

## 11. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 10 above.

No significant risk/concerns were identified from the assessment carried out on topics as mentioned above during the year.

#### PRINCIPLE 6: Businesses should respect and make efforts to protect and restore the environment.

KRN's commitment to environmental excellence is outlined in the Company's EHS Policy. The policy articulates a dedication to "prioritizing society and the environment, conserving resources, reducing waste, and preventing pollution". The company holds an ISO 14001:2015 Environmental Management System (EMS) certification, which reaffirms the Company's commitment to institutionalize a process based approach to managing its environmental responsibilities.

#### **Essential Indicators**

Energy management is an important pillar of the Company's ESG strategy from a resource conservation as well as operational efficiency perspective. The key initiatives under energy management include -

- 1. Use of energy efficiency equipment including efficient air compressors, IE4 grade motor variable frequency drive (VFD), installation of LED lights, energy efficient fans and energy star rated air conditioners
- 2. Operational efficiency through regular monitoring and process controls
- 3. Renewable energy Onsite solar power generation to reduce use of conventional fossil fuel-based electricity

These initiatives have contributed to help reduce the energy intensity on per unit revenue basis by 19% over 2023-24.

#### 1. Details of total energy consumption (in Giga Joules) and energy intensity, in the following format:

| Parameter  | FY 2024-25 | FY 2023-24 |
|--|------------|------------|
| From renewable sources   |            |            |
| Total electricity consumption (A)  | 1,530      | 1,451      |
| Total fuel consumption (B)   | 0          | 0          |
| Energy consumption through other sources (C.)  | 0          | 0          |
| Total energy consumed from renewable sources (A+B+C)   | 1,530      | 1,451      |
| From non-renewable sources   |            |            |
| Total electricity consumption (D)***   | 2,779      | 2,463      |
| Total fuel consumption (E)   | 10,314     | 9,009      |
| Energy consumption through other sources (F)   | 0          | 0          |
| Total energy consumed from non-renewable sources (D+E+F)   | 13,093     | 11,472     |
| Total energy consumed (A+B+C+D+E+F)  | 14,623     | 12,923     |
| Energy intensity per rupee of turnover   |            |            |
| (GJ per Lakh INR)  | 0.34       | 0.42       |
| Energy intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (GJ per USD adjusted lakh INR) | 6.96       | 8.57       |
| Energy intensity in terms of physical output** (GJ per production in KL)   | -          | -          |
| Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency?   | No         |            |
| If yes, name of the external agency.   | NA         |            |

#### Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Yes/No)

| If yes, disclose whether targets set under the PAT scheme have been    | No |
|--|----|
| achieved. In case targets have not been achieved, provide the remedial |    |
| action taken, if any.  |    |
| N.A.   |    |

\*The revenue from operations has been adjusted for PPP based on the latest PPP conversion factor published for the year 2024 by the World Bank for India which is 20.45

\*\*Due to the diverse nature of the products of the Company, it is not feasible to determine the physical output for the calculation of Energy Intensity.

<sup>\*\*\*</sup> The electricity is purchased from the India grid, (which is a mix of conventional and renewable energy).

ANNUAL REPORT 2024-25

#### 3. Provide details of the following disclosures related to water, in the following format:

| Parameter Water withdrawal by source (in kilolitres)   | FY 2024-25 | FY 2023-24 |  |
|--|------------|------------|--|
| (i) Surface water  |            |            |  |
| (ii) Groundwater   |            |            |  |
| (iii) Third party water***   | 9,125      | -          |  |
| (iv) Seawater / desalinated water  |            |            |  |
| (v) Others   |            |            |  |
| Total volume of water withdrawal (in kilolitres) (i + ii + iii + iv + v)   | 9,125      | -          |  |
| Total volume of water consumption (in kilolitres)  | 9,125      | -          |  |
| Water intensity per rupee of turnover  |            |            |  |
| ((KL per LAKH INR)   | 0.21       | -          |  |
| Water intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP)*  | 4.34       | -          |  |
| Water intensity in terms of physical output (KL per Production in KL)**  | ,-         | -          |  |
| Note: Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Yes/No) | No         |            |  |
| If yes, name of the external agency.   | NA         |            |  |

<sup>\*</sup>The revenue from operations has been adjusted for PPP based on the latest PPP conversion factor published for the year 2024 by the World Bank for India which is 20.45

#### 4. Provide the following details related to water discharged:

138

| Parameter Water discharge by destination and level of treatment (in kilolitres)                                       | FY 2024-25 | FY 2023-24 |
|---|------------|------------|
| (i) To Surface water  | 0          | 0          |
| No treatment  |            |            |
| With treatment – please specify level of treatment  |            |            |
| (ii) To Groundwater   | 0          | 0          |
| No treatment  |            |            |
| With treatment – please specify level of treatment  |            |            |
| (iii) To Seawater   | 0          | 0          |
| No treatment  |            |            |
| With treatment – please specify level of treatment  |            |            |
| (iv) Sent to third-parties  |            |            |
| No treatment  | 7,300      | -          |
| With treatment – please specify level of treatment  |            |            |
| (v) Others  |            |            |
| No treatment  |            |            |
| With treatment – please specify level of treatment  |            |            |
| Total water discharged (in kilolitres)  | 7,300      | -          |
| Note: Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) | No         |            |
| If yes, name of the external agency.  | NA         |            |

#### 5. Has the entity implemented a mechanism for Zero Liquid Discharge?

The company is working to become zero liquid discharge.

### If yes, provide details of its coverage and implementation.

The company is committed to water conservation focussing on reduction and recycling. Water efficiency measures are being identified to reduce the fresh water consumption, some waste water streams are being used for other purposes within the plant (example - cooling tower blowdown is used for gardening) and rainwater harvesting to recharge ground water. The effluent sewage generated from the manufacturing plants is collected in septic tank and sent to third party for treatment.

#### 6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

| Parameter  | Please specify unit  | FY 2024-25                   | FY 2023-24 |
|--|--|------------------------------|------------|
| NOx  | Tonnes   | 0.065                        | -          |
| SOx  | Not applicable as the<br>Company uses low-sulphur<br>diesel as per BS-VI |                              |            |
| Particulate matter (PM)  | Tonnes   | 0.008                        | -          |
| Persistent organic pollutants (POP)                            | -  | -                            | -          |
| Volatile organic compounds (VOC)                               | -  | -                            | -          |
| Hazardous air pollutants (HAP)                                 | -  | -                            | -          |
| Others – please specify  | -  | -                            | -          |
| Note: Indicate if any independ<br>by an external agency? (Y/N) | dent assessment/ evaluation/as   | surance has been carried out | No         |
| If yes, name of the external agency.                           |  | Not Applicable               |            |

## 7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

| Parameter  | Unit                     | FY 2024-25     | FY 2023-24 |
|--|--------------------------|----------------|------------|
| Total Scope 1 emissions*** (Break-up of the GHG into CO2, CH4, N2O, HFCs, PFCs, SF6, NF3, if available)                | Tonnes of CO2 equivalent | 621            | 545        |
| Total Scope 2 emissions*** (Break-up of the GHG into CO2, CH4, N2O, HFCs, PFCs, SF6, NF3, if available)                | Tonnes of CO2 equivalent | 561            | 497        |
| Biogenic greenhouse gas emissions  |                          | 0              | 0          |
| Total Scope 1 and Scope 2 emissions per LAKH INR of turnover   |                          |                |            |
| (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations)  |                          | 0.027          | 0.034      |
| Total Scope 1 and Scope 2 emission intensity per<br>LAKH INR of turnover adjusted for Purchasing Power<br>Parity (PPP) |                          | 0.56           | 0.69       |
| Total Scope 1 and Scope 2 emission intensity in terms of physical output (per production in KL)                        |                          | -              | -          |
| Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N)   | No                       |                |            |
| If yes, name of the external agency.   |                          | Not applicable |            |

<sup>\*\*</sup>Due to the diverse nature of the products of the Company, it is not feasible to determine the physical output for the calculation of Energy Intensity.

<sup>\*\*\*</sup>The Company is to working to improve the monitoring and measurement systems for water consumption and recycling and is committed to improve the water accounting in subsequent reporting periods.

- \*The revenue from operations has been adjusted for PPP based on the latest PPP conversion factor published for the year 2024 by the World Bank for India which is 20.45
- \*\*Due to the diverse nature of the products of the Company, it is not feasible to determine the physical output for the calculation of GHG Intensity.
- \*\*\* Source of emissions factors used for calculating the greenhouse gas emissions: Scope 1 emissions have been calculated using the emissions factors published by the DEFRA GHG conversion factors 2024. For Scope 2 emissions the emission factor is 0.727 tCO2/MWh, as per the CO2 Baseline Database for the Indian Power Sector, User Guide, Version 20.0, December 2024, published by the Central Electricity Authority of India.

#### 8. Does the entity have any project related to reducing Green House Gas emission? (Yes/ No)

#### Yes

#### If Yes, then provide details.

The Company has implemented operational efficiency measures and renewable energy projects to reduce the greenhouse gas emissions. Some projects include installation of IE4 grade motor variable frequency drives (VFD) on various equipment, switch to efficient air compressors, installation of LED lights, energy efficient fans and energy star rated air conditioners. The Company has also reduced its dependency on fossil-fuel based electricity by installing solar panels, which contributes 36% to the overall electricity use. These initiatives have helped reduce the carbon footprint use per unit revenue by 19% on a year-on-year basis.

#### 9. Provide details related to waste management by the entity, in the following format:

| Parameter   | FY 2024-25 | FY 2023-24 |
|---|------------|------------|
| Total Waste generated (in metric tonnes)  |            |            |
| Plastic waste (A)   | 4.99       | -          |
| E-waste (B)   | -          |            |
| Bio-medical waste (C)   | -          |            |
| Construction and demolition waste (D)   | -          |            |
| Battery waste (E)   | -          |            |
| Radioactive waste (F)   | -          |            |
| Other Hazardous waste. Please specify, if any. (G)  | 1.32       | -          |
| Other Non-hazardous waste generated (H).  |            |            |
| Please specify, if any. (Break-up by composition i.e. by materials relevant to the sector)  | 239.86     | -          |
| Total (A+B + C + D + E + F + G + H)   | 246.17     | -          |
| Waste intensity per rupee of turnover   |            |            |
| (MT per LAKH INR)   | 0.006      | -          |
| Waste intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (MT per USD adjusted LAKH INR)                         | 0.12       | -          |
| Waste intensity in terms of physical output (MT per production in KL)   | -          | -          |
| For each category of waste generated, total waste recovered through recycling, re-using or other recovery operations (in metric tonnes) |            |            |

| Category of waste  | FY 2024-25 | FY 2023-24 |
|--|------------|------------|
| (i) Recycled   | 246.17     | -          |
| (ii) Re-used   | 0          | -          |
| (iii) Other recovery operations  | 0          | -          |
| Total  | 246.17     | -          |
| For each category of waste generated, total waste disposed by nature of disposal method (in metric tonnes) |            |            |

| Category of waste  | FY 2024-25 | FY 2023-24 |
|--|------------|------------|
| (i) Incineration   | -          | -          |
| (ii) Landfilling   | -          | -          |
| (iii) Other disposal operations  | -          | -          |
| Total  | -          | -          |
| Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) | No         |            |
| If yes, name of the external agency.   | NA         |            |

<sup>\*</sup>The revenue from operations has been adjusted for PPP based on the latest PPP conversion factor published for the year 2024 by the World Bank for India which is 20.45

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Waste is considered as a resource and the Company is committed to segregate the various waste categories generated within its operations and diverting them from landfill for recycling. Some important waste reduction initiatives include reuse of packaging material, minimizing use of single use plastics, disposing all wastes through government authorized recyclers.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

| Sr.<br>No. | Location of operations/<br>offices | Type of operations | Whether the conditions<br>of environmental<br>approval/clearance are<br>being complied with?<br>(Y/N) | If no, the reasons thereof and corrective action taken, if any. |
|------------|------------------------------------|--------------------|---|---|
|            |                                    | Not applic         | able  |   |

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

| Name and brief details of project | EIA Notification<br>No. | Date   | Whether<br>conducted by<br>independent<br>external agency<br>(Yes / No) | Results<br>communicated<br>in public domain<br>(Yes / No) | Relevant Web<br>link |
|-----------------------------------|-------------------------|--------|---|---|----------------------|
|                                   |                         | Not ap | plicable  |   |                      |

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N/NA). Y

All our units comply with environmental regulations.

If not, provide details of all such non-compliances, in the following format:

| Specify the law/<br>regulation/ guidelines<br>which was not complied<br>with | Provide details of the non- compliance | Any fines / penalties / action taken by regulatory agencies such as pollution control boards or by courts | Corrective action taken, if any |
|--|--|---|---------------------------------|
|  | Not a                                  | pplicable   |                                 |

<sup>\*\*</sup>Due to the diverse nature of the products of the Company, it is not feasible to determine the physical output for the calculation of waste intensity.

#### **Leadership Indicators**

1. Water withdrawal, consumption and discharge in areas of water stress (in kilolitres)

The company is not currently analysing water withdrawal, consumption and discharges by areas of water stress.

2. Please provide details of total Scope 3 emissions & its intensity

The current focus for carbon management is on Scope 1 and Scope 2 emissions. The company plans to compute Scope 3 emissions going forward.

With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Not applicable

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

| Initiative undertaken           | Details of the initiative<br>(Web-link, if any, may<br>be provided along-with<br>summary)  | Outcome of the initiative                          | Corrective action taken, if any |
|---------------------------------|--|--|---------------------------------|
| Solar power                     | Installation of solar panels for generating renewable electricity  | Led to avoidance of a total of 293 tCO2e per annum | -                               |
| Energy efficient lighting       | Installation of LED lights   | Reduction in energy use                            | -                               |
| Energy efficient equipment      | Switch to energy efficient equipment including IE4 grade motor variable frequency drives (VFD) on various equipment, switch to efficient air compressors, energy efficient fans and energy star rated air conditioners | Reduction in energy use                            | -                               |
| Waste segregation and recycling | Different categories of waste are segregated at source and recycled through appropriate recycling channels   | Diverting waste from landfill                      | -                               |

5. Does the entity have a business continuity and disaster management plan? (Yes/No) Yes

#### Give details in 100 words/ web link.

Disaster Management is essential for ensuring business continuity and minimizing environmental, human, and property losses during accidents or disasters. The Company's Disaster Management Plan is based on regulatory guidelines, industry best practices, and lessons learned from past emergencies. The plan ensures rapid response, effective coordination, and safety during emergencies. Key focus areas include:

- Preparedness: Training, drills, and resource readiness
- Response: Clear roles for personnel, communication systems, control centre and emergency actions

Continuous Improvement: Regular reviews, updates, and evaluations to strengthen the plan

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

The Company's products, heat exchangers, are inherently designed to maximize thermal transfer between fluids, significantly improving energy utilization across industrial processes. By recovering and reusing waste heat, these systems reduce fuel consumption and minimize overall energy demand. KRN's heat exchanger solutions help customers lower their GHG emissions by making processes more efficient, especially in energy-intensive sectors like petrochemicals, power, and manufacturing. These products align to "low-carbon technology" portfolio, supporting the Company's mission to enable clients' transition to net-zero operations. KRN's designs contribute to reducing operational costs while also enhancing environmental performance of systems they're installed in. The Company offers tailored solutions that optimize heat recovery depending on client needs—be it from flue gases, industrial effluents, or steam systems. Newer models emphasize compactness, corrosion resistance, and higher efficiency coefficients to minimize thermal losses.

KRN has taken steps towards managing the sustainable impacts of its value chain by investing in R&D directly aligning with the primary driver of the global heat exchanger market, which is the increasing demand for sustainable, low-energy consumption solutions.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

The company plans to assess its value chain partners for environmental impacts in future.

PRINCIPLE 7 Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent.

(This principle highlights the importance of responsible advocacy. Companies should engage in policy advocacy in a responsible and transparent manner, and avoid engaging in activities that could undermine the public interest or the democratic process.)

#### **Essential Indicators**

- 1. a. Number of affiliations with trade and industry chambers/ associations.
  - b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to.

| Sr.<br>No. | Name of the trade and industry chambers/ associations                         | Reach of trade and industry chambers/ associations (State/National/ International) |
|------------|---|--|
| 1          | The Refrigeration & Air Conditioning Trade Association (RATA)                 | National   |
| 2          | Indian society of heating refrigerating & air conditioning engineers (ISHRAE) | National   |
| 3          | All India Air Conditioning & Refrigeration Association (All India ACRA)       | National   |
| 4          | Neemrana Industrial Association (NIA)   | State  |

2. Provide details of corrective action taken or underway on any issues related to anti- competitive conduct by the entity, based on adverse orders from regulatory authorities.

| Name of authority | Brief of the case | Corrective action taken |
|-------------------|-------------------|-------------------------|
| Not applicable    |                   |                         |

# PRINCIPLE 8 Businesses should promote inclusive growth and equitable development.

(This principle emphasizes the importance of promoting inclusive and equitable economic development. Companies should create economic opportunities for all, including disadvantaged and marginalized groups. They should also contribute to the development of local communities and support social and economic empowerment.)

# KRD

#### **Essential Indicators**

1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.

| Name and brief details of project | SIA Notification<br>No. | Date of<br>notification | Whether<br>conducted by<br>independent<br>external agency<br>(Yes / No) | Results<br>communicated<br>in public domain<br>(Yes / No) | Relevant Web<br>link |
|-----------------------------------|-------------------------|-------------------------|---|---|----------------------|
|                                   |                         |                         | NA  |   |                      |

2. Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:

| Sr. No. | Name of<br>Project for<br>which R&R is<br>ongoing | State | District | No. of Project<br>Affected<br>Families<br>(PAFs) | % of PAFs<br>covered by<br>R&R | Amounts paid to PAFs in the FY (In INR) |
|---------|---|-------|----------|--|--------------------------------|---|
|         |   |       | NA       |  |                                |   |

3. Describe the mechanisms to receive and redress grievances of the community.

Grievances from the community can be submitted via our website or directly to the Grievance Redressal Team. All concerns are logged, reviewed, and resolved promptly, with escalations made to higher management when required.

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

| Particular                                   | FY 2024-25 | FY 2023-24 |
|--|------------|------------|
| Directly sourced from MSMEs/ small producers | 14.70%     | 13.17%     |
| Directly from within India                   | 31.02%     | 20.72%     |

5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost

| Particular   | FY 2024-25 | FY 2023-24 |
|--------------|------------|------------|
| Rural        |            |            |
| Semi-urban   | 100%       | 100%       |
| Urban        |            |            |
| Metropolitan |            |            |

#### PRINCIPLE 9 Businesses should engage with and provide value to their consumers in a responsible manner.

(This principle highlights the importance of responsible consumer engagement. Companies should provide safe, high-quality products and services, and ensure that they are marketed and sold ethically and responsibly. They should also be transparent about their products and services, and provide consumers with the information they need to make informed choices.)

#### **Essential Indicators**

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

A grievance redressal communication matrix is in place to ensure that consumer complaints and feedback are received, tracked, and addressed promptly through a structured escalation process.

2. Turnover of products and/services as a percentage of turnover from all products/service that carry information about

| Particular  | As a percentage to total turnover* |
|---|------------------------------------|
| Environmental and social parameters relevant to the product | 100%                               |
| Safe and responsible usage                                  | 100%                               |
| Recycling and/or safe disposal                              | 100%                               |

3. Number of consumer complaints in respect of the following:

| Particular                     | FY 20                          | 24-25                                      |        | FY 20                          | 23-24                                      |        |
|--------------------------------|--------------------------------|--|--------|--------------------------------|--|--------|
|                                | Received<br>during the<br>year | Pending<br>resolution<br>at end of<br>year | Remark | Received<br>during the<br>year | Pending<br>resolution<br>at end of<br>year | Remark |
| Data privacy                   | 0                              | 0  | -      | 0                              | 0  | -      |
| Advertising                    | 0                              | 0  | -      | 0                              | 0  | -      |
| Cyber-security                 | 0                              | 0  | -      | 0                              | 0  | -      |
| Delivery of essential services | 0                              | 0  | -      | 0                              | 0  | -      |
| Restrictive Trade Practices    | 0                              | 0  | -      | 0                              | 0  | -      |
| Unfair Trade Practices         | 0                              | 0  | -      | 0                              | 0  | -      |
| Other*                         | 27                             | 0  | -      | 19                             | 0  | -      |

<sup>\*</sup>Design and product related

4. Details of instances of product recalls on account of safety issues:

| Particular        | Number | Reason for recall |
|-------------------|--------|-------------------|
| Voluntary recalls | 0      | -                 |
| Forced recalls    | 0      | -                 |

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No)

Voc

If available, provide a web link of the policy

KRN has established a cybersecurity and data privacy risk policy, which is accessible on the group's intranet.

Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.

N.A.

No complaints or regulatory actions were reported during the period related to advertising, delivery of essential services, cybersecurity, data privacy, or product safety, nor were there any product recalls or penalties.

7. Provide the following information relating to data breaches

| a. | Number of instances of data breaches along-with impact                                 | 0 |
|----|--|---|
| b. | Percentage of data breaches involving personally identifiable information of customers | - |
| C. | Impact, if any, of the data breaches   |   |
|    | Not applicable   |   |

# Leadership Indicator

1. Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available).

Information of the products manufacturing by the group can be accessed at company official website https://krnheatexchanger.com/

The Members of

KRN Heat Exchanger and Refrigeration Limited

(Formerly known as KRN Heat Exchanger and Refrigeration Private Limited)

Neemrana, Rajasthan - 301705

Report on the Audit of the Standalone Financial Statements

#### Opinion

We have audited the accompanying standalone financial statements of KRN Heat Exchanger and Refrigeration Limited. (Formerly known as KRN Heat Exchanger and Refrigeration Private Limited) ("the Company"), which comprise the balance sheet as at 31st March, 2025 and the statement of Profit and Loss (including other comprehensive income), and statement of change in equity and statement of cash flows for the year ended 31st March, 2025 and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2025, its Profit or Loss and total comprehensive income (including other comprehensive income), the changes in equity and its cash flows for the year ended on 31st March, 2025.

#### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended 31st March, 2025. These matters were addressed in the context

of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters and there is no Key Audit Matters which need to be reported.

# Information Other than the financial statements and Auditor's report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibility of Management for Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls. that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue

as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

# Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial standalone statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)

   (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our

- opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the year ended 31st March, 2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on other Legal and Regulatory Requirements

- As required by the Companies (Auditor's Report) Order, 2020
   ("the Order"), issued by the Central Government of India in
   terms of sub-section (11) of section 143 of the Companies
   Act, 2013, we give in the 'Annexure A' a statement on the
   matters specified in paragraphs 3 and 4 of the Order, to the
   extent applicable.
- 2. As required by Section 143(3) of the Act, we report that:
- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and statement of changes in equity dealt with by this Report are in agreement with the books of account:
- (d) In our opinion, the aforesaid standalone financial

COMPANY OVERVIEW

- statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rule, 2015 as amended;
- (e) On the basis of the written representations received from the directors as on 31st March, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2025 from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) With respect to the adequacy of the internal financial controls with reference to these standalone financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" to this report;
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements - Refer note 33 to the standalone financial statements;
  - The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;
- (a) The management has represented that, to the best of its knowledge and belief, as disclosed in note 40 to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:
  - directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or
  - Provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
- (b) The management has represented, that, to the best of its knowledge and belief, as disclosed in note 40 to the standalone financial statements, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise,

that the Company shall:

- directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party or
- Provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries.
- (c) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule II(e), as provided under (a) and (b) above, contain any material misstatements.
- iv. There has no dividend declared or paid during the year ended 31st March, 2025 by the Company, since compliance under section 123 of the companies Act, 2013 is not applicable to the company.
- (h) With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:
  - In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.
- (i) Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account for the year ended 31st March, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with in respect of the accounting software.

For Keyur Shah & Co.
Chartered Accountants
FRN.: 141173W

Keyur Shah Proprietor Membership No.: 153774 UDIN : 25153774BMIOKE9962

Date: 12th May, 2025 Place: Ahmedabad "Annexure A" Referred to in paragraph 1 of the Independent Auditors' Report of even date to the members of KRN Heat Exchanger and Refrigeration Limited (Formerly known as KRN Heat Exchanger and Refrigeration Private Limited) on the Standalone Financial Statements for the year ended 31st March, 2025

In terms of the information and explanations sought by us and given by the company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

#### i. Property, Plant, Equipment and intangible Assets:

- a. A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, capital work-in progress and right-of-use assets.
  - B) The Company has maintained proper records showing full particulars of intangible assets.
- b. The Company has a program of verification property, plant and equipment and capital work in progress so to cover all the items over a year of three years which, in our opinion, is reasonable having regard to the size of the company and nature of its assets. Pursuant to the program, certain property, plant, equipment were due for verification during the year and were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- c. The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), as disclosed in note 2 to the standalone financial statements, are held in the name of the Company.
- d. The Company has not revalued its Property, Plant, Equipment (including Right of use assets) and intangible Assets during the year ended 31st March, 2025.
- e. Based on the information and explanations furnished to us, no proceedings have been initiated on or are pending against the Company for holding Benami property under Benami Transactions (Prohibitions) Act, 1988 (as amended in 2016) (formerly the Benami Transaction (Prohibition) Act, 1998(45 of 1988) and Rules made thereunder.

#### ii. Inventory:

- a. The physical verification of inventory including inventory lying with third parties has been conducted at reasonable intervals by the Management during the year and, in our opinion, the coverage and procedures of such verification by Management is appropriate. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory. The Company has borrowings from banks on the basis of security of current assets. The quarterly returns or statements of current assets filed by the Company with banks are in agreement with the unaudited books of accounts and borrowing terms except in case of quarter ended 31st March, 2025 where the Company has filed statement of different date with the bank.
- b. During the year, the Company has been sanctioned working capital limits in excess of Rs. 5 Crores, in aggregate, from banks on the basis of security of current assets. The quarterly returns or statements of current assets filed by the Company with such banks are generally in agreement with the books of account of the Company.

#### iii. Loans/Advances/Investments given by the Company:

According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not provided any security or granted advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnership or any other parties during the year. The Company has made investments, granted loans and provided guarantees to companies and other parties in respect of which the requisite information is provided in clause (a) to (f) as below to the extent applicable. The Company has not made any investments in or provided any guarantee or security to firms or limited liability partnership or any other parties except as mentioned below:

(A ... - ... ! - ! - ! !- - \

a) Based on the audit procedures carried out by us and as per the information and explanations given to us, the Company has provided loans and stood guarantee, as below:

- b) According to the information and explanations given to us and based on the audit procedures carried out by us, in our opinion the investments made and guarantees provided during the year and the terms and conditions of the grant of loans and guarantees provided during the year are prima facie, not prejudicial to the interest of the Company.
- c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in the case of loans given, in our opinion, the repayment of principal and payment of interest has been stipulated and the repayments or receipts have been regular.
- d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no overdue amount for more than ninety days in respect of loans given.
- e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no loan or advance in the nature of loan granted falling due during the year, which has been renewed or extended or fresh loans granted to settle the over dues of existing loans given to same parties.
- f) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment.

#### iv. Loans to directors & Investment by the Company:

In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of the loans and investments made, and guarantees and security provided by it, as applicable.

#### v. Deposits

The Company has not accepted any deposits or amounts which are deemed to be deposits within the meaning of Sections 73 to 76 of the Companies Act, 2013 and the Rules framed there under to the extent notified. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.

#### vi. Cost records:

Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Companies Act, 2013 in respect of its products. We have broadly reviewed the same and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.

# vii. Statutory Dues:

a. According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is generally regular in depositing undisputed statutory dues in respect of provident fund, employees' state insurance, income tax, goods and services tax and labour welfare fund, though there were no delay in depositing undisputed statutory dues, including sales tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, with the appropriate authorities.

b. Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on 31st March, 2025, on account of disputes are given below:

| Nature of Statute        | Nature of Dues     | Amount (Rs. In Lakhs) | Period to which the<br>amount relates | Forum where dispute is pending                            |
|--------------------------|--------------------|-----------------------|---------------------------------------|---|
| Income Tax Act, 1961     | Order u/s 250      | 0.44                  | AY-2021-22                            | Commissioner of<br>Income Tax, (Appeals)<br>in income Tax |
| Goods and Service<br>Tax | GST ITC Mismatched | 367.62                | F. Y2021-22 to F.<br>Y2024-25         | At Deputy<br>Commissioner GST                             |

<sup>\*</sup> Amount mentioning in the above table are reflecting the amount of tax demand excluding any Interest or Penalties. Interest or Penalties may be Varies at the time of Disposal of Demand, which may varies time to time.

#### viii. Unrecorded income

According to the information and explanations given to us and the records of the Company examined by us, there are no transactions in the books of account that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961, that has not been recorded in the books of account.

#### ix. Repayment of Loans:

- a. According to the records of the Company examined by us and the information and explanations given to us, the Company has not defaulted in repayment of loans or other borrowings or in the payment of interest to any lender during the year.
- According to the information and explanations given to us and on the basis of our audit procedures, we report that the Company has not been declared Willful Defaulter by any bank or financial institution or government or any government authority
- c. In our opinion, and according to the information and explanations given to us, term loans which were applied for the purpose for which the loans were obtained.
- d. According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the standalone financial statements of the Company, we report that the Company has not used funds raised on short-term basis for the long-term purposes.
- e. According to the information and explanations given to us and on an overall examination of the standalone financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.
- f. According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.

#### x. Utilization of IPO & FPO and Private Placement and Preferential issues:

- a. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has raised money by way of Initial Public Offer as on 30th September, 2024 amounting to Rs. 34194.60 lakhs by issuing 1,55,43,000 (One crore Fifty-Five Lakhs And Forty Three Thousands) Equity Shares at an issue price of Rs. 220/- per share (including face value of Rs. 10/- per share and Share Premium of Rs. 210/- per share). In our opinion, and according to the information and explanations given to us, the moneys so raised have been applied by the company during the year for the purposes for which they were raised.
- b. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has raised moneys by way of a private placement as on 14th August, 2024 amounting to Rs. 954.00 lakhs by issuing 4,77,000 (Four lakhs Seventy-seven thousands) Equity shares at an Issue price of Rs. 200/- per share (comprising face value of Rs. 10/- and share premium of Rs. 190/- per share) in compliance with the provisions of Sections 42 and 62 of the Act. As per the information and records examined by us, the funds so raised have been applied for the purposes for which they were raised.

#### xi. Reporting of Fraud:

a. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have

COMPANY OVERVIEW

STATUTORY REPORTS

FINANCIAL REPORTS

neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.

- b. To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT- 4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- c. As represented to us by the Management, there were no whistle blower complaints received by the Company during the year and up to the date of this report.

#### xii. NIDHI Company:

As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

#### xiii. Related Party Transaction:

The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in Note 39 to the standalone financial statements as required by applicable Indian accounting standards.

#### xiv. Internal Audit

- a) In our opinion and according to the information and explanation given to us, the Company has an internal audit system commensurate with the size and nature of its business.
- b) The reports of the Internal Auditor for the period under audit have been considered by us.

#### xv. Non-Cash Transaction:

The Company has not entered into any non-cash transactions with its directors or persons connected with him. Accordingly, the reporting on compliance with the provisions of Section 192 of the Act under Clause 3(xv) of the Order is not applicable to the Company

# xvi. Register under RBI Act, 1934:

The company is not carrying any activities which require registration under section 45-IA of the Reserve Bank of India Act, 1934 and hence the provisions para 3(xvi) (a) to (d) of the Order referred to in Companies (Auditor's Report) Order, 2020 issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act does not apply to the company.

#### xvii. Cash Losses

The Company has not incurred any cash losses in the current financial year and in the immediately preceding financial year.

#### xviii. Auditor's resignation

There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.

# xix. Financial Position

According to the information and explanations given to us and on the basis of the financial ratios disclosed in note 42 to the standalone financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

#### xx. Corporate Social Responsibility

The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there is no unspent CSR amount for the year requiring a transfer to a Fund specified in Schedule VII to the Companies Act or special account in compliance with the provision of sub-section (6) of section 135 of the said Act. Accordingly, reporting under clause (xx) of the Order is not applicable for the year.

COMPANY OVERVIEW

STATUTORY REPORTS

FINANCIAL REPORTS

"Annexure B" to the Independent Auditor's Report of even date to the members of KRN Heat Exchanger and Refrigeration Limited (Formerly known as KRN Heat Exchanger and Refrigeration Private Limited) on the Standalone Financial Statements for the year ended 31st March, 2025

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the standalone financial statements of KRN Heat Exchanger and Refrigeration Limited ('the Company') as at and for the year ended 31st March, 2025, we have audited the internal financial controls with reference to standalone financial statements of the Company as at that date.

## Management's Responsibility for Internal Financial Controls

The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

# **Auditor's Responsibility**

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to these standalone financial statements.

# Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

#### 1.1 Company Overview:

KRN Heat Exchanger And Refrigeration Limited ('the Company') is a limited Company (Formerly known as KRN Heat Exchanger And Refrigeration Private Limited) domiciled and incorporated in India. The registered office of the Company is located at Plot No. F-46,47,48,49 EPIP, RIICO Industrial Area Neemrana RJ- 301705, Rajasthan,India.

The company is engaged in the activity of manufacturing and sale of Heating Ventilation & Air conditioning (HVAC) parts & accessories.

# 1.2 General Information & Statement of Compliance with Ind AS:

These financial statements are the separate financial statements of the Company (also called as standalone financial statements) prepared in accordance with Indian Accounting Standard ("Ind AS") notified under the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended.

#### 1.3 Significant Accounting Policies:

#### 1.3.1Basis of Preparation and Presentation

The Financial Statements have been prepared on the historical cost basis except for following assets and liabilities which have been measured at fair value amount:

- (a) Certain Financial Assets and Liabilities (including derivative instruments if any), and
- (b) Defined Benefit Plans Plan Assets
- (c) Certain Property Plant And Equipment which are Revalued (if any).

The financial statements of the Company have been prepared to comply with the Indian Accounting standards ('Ind AS'), including the rules notified under the relevant provisions of the Companies Act, 2013.

The Company's Financial Statements are presented in Indian Rupees, which is also its functional currency

#### 1.3.2 Fair Value Measurement

Some of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. This includes a financial reporting team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values.

The financial reporting team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as pricing services, is used to measure fair values, then the financial reporting team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

#### 1.3.3 Current and Non-Current Classification

The Company presents assets and liabilities in the Balance Sheet based on Current

/Non- Current classification.

An asset is treated as Current when it is -

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

# 1.3.4 Property, Plant and Equipment

# (a) Tangible Assets

Property, Plant and Equipment are stated at cost, net of recoverable taxes, trade discount and rebates less accumulated depreciation and impairment losses, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Property, Plant and Equipment which are significant to the total cost of that item of Property, Plant and Equipment and having different useful life are accounted separately.

Other Indirect Expenses incurred relating to project, net of income earned during the project development stage prior to its intended use, are considered as pre-operative expenses and disclosed under Capital Work-in-Progress.

#### Depreciation

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Based on technical evaluation carried out by management, depreciation on fixed assets has been provided on the Straight line method as per the useful life and residual value prescribed Schedule II to the Companies Act, 2013. Residual value has been assessed at 5% of cost of the assets.

Depreciation and amortization on addition to fixed assets is provided on pro-rata basis from the date the assets are ready for intended use. Depreciation and amortization on sale/ discard from fixed assets is provided for up to the date of sale, deduction or discard of fixed assets as the case may be.

Individual assets costing Rs. 5,000 or below are depreciated/ amortized in full in the year of purchase. Depreciation/ Amortization method and useful lives are reviewed at each reporting date. If the useful life of an asset is estimated to be significantly different from previous estimates, the depreciation/ amortization period is changed accordingly.

| Asset                                     | Usefull Life |
|---|--------------|
| Factory Building                          | 20 years     |
| Plant & machinery (computers)             | 3 years      |
| Plant & machinery (tools & dies)          | 3 years      |
| Plant & machinery (solar plant)           | 15 years     |
| Plant & machinery (electric installation) | 8 years      |
| Plant & machinery (others)                | 10 years     |
| Furniture & fixtures                      | 10 years     |
| Office equipment's                        | 5 years      |
| Vehicles                                  | 8 years      |

#### (b) Capital Work-in-Progress and Capital Advances

Cost of Property, Plant and Equipment not ready for intended use, as on the balance sheet date, is shown as a "Capital Work-in-Progress". The Capital Work-in-Progress is stated at

cost. Any expenditure in relation to survey and investigation of the properties is carried as Capital Work-in-Progress. Such expenditure is either capitalized as cost of the projects on completion of construction project or the same is expensed in the period in which it is decided to abandon such project. Any advance given towards acquisition of Property, Plants and Equipment outstanding at each balance sheet date is disclosed as "Other Current Assets".

#### (c) Intangible Assets

Intangible Assets are stated at cost of acquisition net of recoverable taxes, trade discount and rebates less accumulated amortisation/depletion and impairment losses, if any. Such cost includes purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the Intangible Assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

#### **Amortization**

The amortization expenses on Intangible assets with the finite lives are recognized in the Statement of Profit and Loss. The Company's intangible assets comprises assets with finite useful life which are amortised on a straight-line basis over the period of their expected useful life.

The amortization period and the amortization method for an intangible asset with finite useful life is reviewed at each financial year end and adjusted prospectively, if appropriate.

# 1.3.5 Impairment of Non-Financial Assets - Property, Plant and Equipment and Intangible Assets

The Company assesses at each reporting date as to whether there is any indication that any Property, Plant and Equipment and Intangible Assets or group of Assets, called Cash Generating Units (CGU) may be impaired. If any such indication exists, the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre- tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

There are no losses from impairment of assets to be recognized in the financial statements.

#### 1.3.6 Investment Properties

Investment properties (if any), are measured initially at cost, including transaction costs. Subsequent to initial recognition. Items of investment properties are measured at cost less accumulated depreciation/ amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for its intended use. Investment properties are depreciated on straight line method on pro-rata basis at the rates specified therein. Subsequent expenditure including cost of major overhaul and inspection is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Long-term investments are stated at cost. Provision for diminution in the value of Long-Term investment is being made only if such decline is of other than temporary in nature in the opinion of management. Current investments are stated at lower of cost or fair value.

#### 1.3.7Inventories

Inventory includes raw material, work in progress, finished goods and stock in trade.

- a) Inventories values at lower of cost or net realisable value. Cost includes purchase price, taxes (excluding those subsequently recoverable by the enterprise from the concerned revenue authorities), freight inwards and other expenditure incurred in bringing such inventories to their present location and condition. In determining the cost, weighted average method is used.
- b) Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.
- The comparison of cost or net realisable value is made on item by item basis.
- d) Stock of Finished Goods and Work in Progress are valued at lower of cost or net realizable value and cost is determined by taking material, labour and related overheads
- e) Scrap is valued at net realizable value.

#### 1.3.8 Borrowing Costs

Borrowing costs include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation

All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred.

#### 1.3.9 Employee Benefits

#### (A) Short-Term Employee Benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

#### (B) Post-Employment Benefits

#### (i) Defined Contribution Plans

The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre- payment will lead to a reduction in future payment or a cash refund.

#### (ii) Defined Benefit Plans

(a) Gratuity Scheme: The Company pays gratuity to the employees who have completed five years of service with the Company at the time of resignation/superannuation. The gratuity is paid (a) 15 days basic salary and dearness allowances for every completed year of service as per the Payment of Gratuity Act, 1972. The liability in respect of gratuity and other post- employment benefits is calculated using the Projected Unit Credit Method and spread over the period during which the benefit is expected to be derived from employees' services.

Remeasurement gains and losses arising from adjustments and changes in actuarial assumptions are recognised in the period in which they occur in Other Comprehensive Income.

#### (iii) Other Long - Term Employee Benefits

Entitlement to annual leave is recognized when they accrue to employees.

#### 1.3.10 Revenue Recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services.

The Company has generally typically controls the goods or services before transferring them to the customer.

Generally, control is transferred upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue from rendering of services is recognised on when the services are rendered and related cost are incurred over time by measuring the progress towards complete satisfaction of performance obligations at the reporting period. Revenue is measured at the amount of consideration which the Company expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognised when it becomes unconditional.

#### **Export Incentives**

Export incentive revenues are recognized when the right to re ceive the credit is established and there is no significant uncertainty regarding the ultimate collection.

#### Interest Income

Interest Income from a Financial Assets is recognised using effective interest rate method.

#### **Dividend Income**

Dividend Income is recognised when the Company's right to receive the amount has been established.

# Surplus / (Loss) on disposal of Property, Plants and Equipment / Investments

Surplus or loss on disposal of property, plants and equipment or investment is recorded on transfers of title from the Company, and is determined as the difference between the sales price and carrying value of the property, plants and equipment or investments and other incidental expenses.

#### Rental Income

Rental income arising from operating lease on investments properties is accounted for on a straight - line basis over the lease term except the case where the incremental lease reflects inflationary effect and rental income is accounted in such case by actual rent for the period.

#### Insurance Claim

Claim receivable on account of insurance is accounted for to the extent the Company is reasonably certain of their ultimate collections.

#### Other Income

Revenue from other income is recognized on accrual basis.

#### 1.3.11 Foreign Currency Transactions and Translation

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets which are capitalised as cost of assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are recorded using the exchange rates at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in Other Comprehensive Income or Statement of Profit and Loss are also recognised in Other Comprehensive Income or Statement of Profit and Loss, respectively).

#### 1.3.12 Government Grants and Subsidies

Grants in the nature of subsidies which are non-refundable are recognized as income where there is reasonable assurance that the Company will comply with all the necessary conditions attached to them. Income from grants is recognized on a systematic basis over periods in which the related costs that are intended to be compensated by such grants are recognized.

Refundable government grants are accounted in accordance with the recognition and measurement principle of Ind AS 109, "Financial Instruments". It is recognized as income when there is a reasonable assurance that the Company will comply with all necessary conditions attached to the grants. Income from such benefit is recognized on a systematic basis over the period of the grants during which the Company recognizes interest expense corresponding to such grants.

#### 1.3.13 Financial Instruments - Financial Assets

## (A) Initial Recognition and Measurement

All Financial Assets are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition or issue of Financial Assets, which are not at Fair Value Through Profit or Loss, are adjusted to the fair value on initial recognition.

Purchase and sale of Financial Assets are recognised using trade date accounting.

# (B) Subsequent Measurement

#### a) Financial Assets measured at Amortised Cost (AC)

A Financial Asset is measured at Amortised Cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise to cash flows on specified dates that represent solely payments of principal and interest on the principal amount outstanding.

# b) Financial Assets measured at Fair Value Through Other Comprehensive Income (FVTOCI)

A Financial Asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling Financial Assets and the contractual terms of the Fi-

nancial Asset give rise on specified dates to cash flows that represents solely payments of principal and interest on the principal amount outstanding.

Further, the Company, through an irrevocable election at initial recognition, has measured certain investments in equity instruments at FVTOCI. The Company has made such election on an instrument-by-instrument basis. These equity instruments are neither held for trading nor are contingent consideration recognized under a business combination. Pursuant to such irrevocable election, subsequent changes in the fair value of such equity instruments are recognized in OCI. However, the Company recognizes dividend income from such instruments in the Statement of Profit and Loss.

#### Financial Assets measured at Fair Value Through Profit or Loss (FVTPL)

A Financial Asset which is not classified in any of the above categories is measured at FVTPL. Financial assets are reclassified subsequent to their recognition, if the Company changes its business model for managing those financial assets. Changes in business model are made and applied prospectively from the reclassification date which is the first day of immediately next reporting period following the changes in business model in accordance with principles laid down under Ind AS 109 – Financial Instruments.

#### (C) Investments

Investments are classified in to Current or Non-Current Investments. Investments that are readily realizable and intended to be held for not more than a year from the date of acquisition are classified as Current Investments. All other Investments are classified as Non - Current Investments. However, that part of Non - Current Investments which are expected to be realized within twelve months from the Balance Sheet date is also presented under "Current Investments" under "Current portion of Non-Current Investments" in consonance with Current/Non-Current classification of Schedule - III of the Act.

All the equity investment which covered under the scope of Ind AS 109, "Financial Instruments" is measured at the fair value. Investment in Mutual Fund is measured at fair value through profit and loss (FVTPL). Trading Instruments are measured at fair value through profit and loss (FVTPL).

#### (D) Investment in Subsidiaries, Associates and Joint Ventures

The Company has accounted for its investments in Subsidiaries, associates and joint venture at cost less impairment loss (if any).

#### (E) Impairment of Financial Assets

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of Financial Assets other than those measured at Fair Value Through Profit and Loss (FVTPL).

#### 1.3.14 Financial Instruments - Financial Liabilities

#### (A) Initial Recognition and Measurement

All Financial Liabilities are recognised at fair value and in case of borrowings, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

#### (B) Subsequent Measurement

Financial Liabilities are carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### 1.3.15 Derivative Financial Instruments and Hedge Accounting

The Company enters into derivative contracts in the nature of forward currency contracts with external parties to hedge its foreign currency risks relating to foreign currency denominated financial assets measured at amortised cost.

The Company formally establishes a hedge relationship between such forward currency contracts ('hedging instrument') and recognised financial assets ('hedged item') through a formal documentation at the inception of the hedge relationship in line with the Company's Risk Management objective and strategy.

The hedge relationship so designated is accounted for in accordance with the accounting principles prescribed for a cash flow hedge under Ind AS 109, 'Financial Instruments'.

Recognition and measurement of cash flow hedge:

The Company strictly uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. As per Ind AS 109 - Financial Instruments, foreign currency forward contracts are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised in hedge reserve (under reserves and surplus) through other comprehensive income and the ineffective portion is recognised immediately in the statement of profit and loss.

The accumulated gains / losses on the derivatives accounted in hedge reserve are transferred to the statement of profit and loss in the same period in which gains / losses on the underlying item hedged are recognised in the statement of profit and loss.

## Derecognition:

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. When hedge accounting is discontinued for a cash flow hedge, the net gain or loss will remain in hedge reserve and be reclassified to the statement of profit and loss in the same period or periods during which the formerly hedged transaction is reported in the statement of profit and loss. If a hedged transaction is no longer expected to occur, the net cumulative gains / losses recognised in hedge reserve is transferred to the statement of profit and loss.

#### Fair Value Hedge:

The Company designates derivative contracts or non-derivative Financial Assets/Liabilities as hedging instruments to mitigate the risk of change in fair value of hedged item due to movement in interest rates, foreign exchange rates and commodity prices.

Changes in the fair value of hedging instruments and hedged items that are designated and qualify as fair value hedges are recorded in the Statement of Profit and Loss. If the hedging relationship no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortised to Statement of Profit and Loss over the period of maturity.

#### 1.3.16 Derecognition of Financial Instruments

The Company derecognises a Financial Asset when the contractual rights to the cash flows from the Financial Asset expire or it transfers the Financial Asset and the transfer qualifies for derecognition under Ind AS 109. A Financial liability (or a part of a financial liability) is derecognised from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

#### 1.3.17 Financial Instruments - Offsetting

Financial Assets and Financial Liabilities are offset and the net amount is presented in the balance sheet when, and only when, the Company has a legally enforceable right to set off the amount and it intends, either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

#### 1.3.18 Taxes on Income

The tax expenses for the period comprises of current tax and deferred income tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the Other Comprehensive Income. In which case, the tax is also recognised in Other Comprehensive Income.

# (a) Current Tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the Income Tax authorities, based on tax rates and laws that are enacted at the Balance sheet date.

#### (b) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax assets are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax losses can be utilised. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the re-

porting period. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period.

#### Presentatio

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

#### 1.3.19 Segment Reporting

Segments are identified having regard to the dominant source and nature of risks and returns and the internal organization and management structure. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Chairman and Managing Director (CMD) of the Company have been identified as the Chief Operating Decision Maker (CODM).

#### 1.3.20 Research and Development

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss as and when incurred.

Development costs are capitalised as an intangible asset if it can be demonstrated that the project is expected to generate future economic benefits, it is probable that those future economic benefits will flow to the entity and the costs of the asset can be measured reliably, else it is charged to the Statement of Profit and Loss.

## 1.3.21 Earnings per Share

Basic earnings per share is calculated by dividing the net profit after tax by the weighted average number of equity shares outstanding during the year adjusted for bonus element in equity share. Diluted earnings per share adjusts the figures used in determination of basic earnings per share to take into account the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as at the beginning of the period unless issued at a later date.

## 1.3.22 Provisions, Contingent Liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability.

Disclosure of contingent liability is made when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-oc-

currence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources embodying economic benefits will be required to settle or a reliable estimate of amount cannot be made.

#### 1.3.23 Events after Reporting Date

Where events occurring after the Balance Sheet date provide evidence of condition that existed at the end of reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance 1.4.1 Income Tax Sheet date of material size or nature are only disclosed.

#### 1.3.24 Non - Current Assets Held For Sales

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and sale is considered highly probable.

A sale is considered as highly probable when decision has been made to sell, assets are available for immediate sale in its present condition, assets are being actively marketed and sale has been agreed or is expected to be concluded within 12 months of the date of classification.

Non-current assets held for sale are neither depreciated nor amortised.

Assets and liabilities classified as held for sale are measured at the lower of their carrying amount and fair value less cost of sale and are presented separately in the Balance Sheet.

#### 1.3.25 Cash Flows Statement

Cash Flows Statements are reported using the method set out in the Ind AS - 7, "Cash Flow Statements", whereby the Net Profit / (Loss) before tax is adjusted for the effects of the transactions of a Non-Cash nature, any deferrals or accrual of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

#### 1.3.26 Cash and Cash Equivalents

Cash and cash equivalents comprise of cash on hand, cash at banks, short-term deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### 1.3.27 Recent Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. MCA has notified Ind AS-117 - Insurance Contracts and amendments to Ind AS-116 - Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. April 1, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

## 1.4 Critical Accounting Judgments and Key Sources of Estimation Uncertainty:

The preparation of the Company's Financial Statements requires management to make judgment, estimates and assumptions that affect the reported amount of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in next financial years.

The Company's tax jurisdiction is in India. Significant judgments are involved in estimating budgeted profits for the purpose of paying advance tax, determining the income tax provisions, including the amount expected to be paid / recovered for uncertain.

#### 1.4.2 Property Plant and Equipment/ Intangible Assets

Estimates are involved in determining the cost attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the management. Property, Plant and Equipment/Intangible Assets are depreciated/amortised over their estimated useful life, after taking into account estimated residual value. Management reviews the estimated useful life and residual values of the assets annually in order to determine the amount of depreciation/ amortisation to be recorded during any reporting period. The useful life and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation/amortisation for future periods is revised if there are significant changes from previous esti-

#### 1.4.3 Defined Benefits Obligations

The costs of providing Gratuity and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS - 19, "Employee Benefits" over the period during which benefit is derived from the employees' services. It is determined by using the Actuarial Valuation and assessed on the basis of assumptions selected by the management. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates. Due to complexities involved in the valuation and its long term in nature, a defined benefit obligation is highly sensitive to change in these assumptions. All assumptions are reviewed at each balance sheet date.

#### 1.4.4 Fair value measurements of Financial Instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgments and assumptions.

#### 1.4.5 Recoverability of Trade Receivables

Judgments are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

#### 1.4.6 Provisions

The timing of recognition and quantification of the liability (including litigations) requires the application of judgment to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

#### 1.4.7 Impairment of Financial and Non - Financial Assets

The impairment provisions for Financial Assets are based on assumptions about risk of default and expected cash loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market

conditions as well as forward-looking estimates at the end of each reporting period.

In case of non-financial assets company estimates asset's recoverable amount, which is higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

#### 1.4.8 Recognition of Deferred Tax Assets and Liabilities

Deferred tax assets and liabilities are recognised for deductible temporary differences and unused tax losses for which there is probability of utilisation against the future taxable profit. The Company uses judgment to determine the amount of deferred tax that can be recognised, based upon the likely timing and the level of future taxable profits and business developments.

#### Note-32- Details of Employee Benefits:

The Company has the following post-employment benefit plans:

#### A. Defined Contribution Plan

Contribution to defined contribution plan recognised as expense for the period is as under:

The Company offers its employees benefits under defined contribution plans in the form of provident fund. Provident fund cover substantially all regular employees which are on payroll of the company. Both the employees and the Company pay predetermined contributions into the provident fund and approved superannuation fund. The contributions are normally based on a certain proportion of the employee's salary and are recognised in the Statement of Profit and Loss as incurred.

(₹ in Lakhs)

| Particulars                                   | Year ended<br>31st March, 2025 | Year ended<br>31st March, 2024 |
|---|--------------------------------|--------------------------------|
| Contribution to provident fund and other Fund | 45.81                          | 42.63                          |

#### B. Defined Benefit Plan - Gratuity:

- (i) The Company administers its employees' gratuity scheme funded liability. The present value of the liability for the defined benefit plan of gratuity obligation is determined based on actuarial valuation by an independent actuary at the period end, which is calculated using the projected unit credit method, which recognises each year of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.
- (ii) Gratuity benefits in India are governed by the Payment of Gratuity Act, 1972. The key features are as under

| Retirement Age      | 58 Years  |
|---------------------|---|
| Benefit Eligibility | Upon Death or resignation or withdrawalor retirement                        |
| Vesting Conditions  | 5 Years of Continuous Service (Not Applicable In Case of Death/ Disability) |
| Benefit Ceiling     | Benefit Ceiling of Rs 20 Lakhs  |
| Salary Definition   | Last Drawn Basic Salary including Dearness Allowance (if any)               |
| Benefits Offered    | 15/26* salary* Duration of service  |

#### (iii) Characteristics of defined benefit plans and risks associated with them:

Valuation of defined benefit plan are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary over time. Thus, the Company is exposed to various risks in providing the above benefit plans which are as follows:

#### A. Actuarial Risk:

It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Adverse Salary Growth Experience:

Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.

Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

#### B. Investment Risk:

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter- valuation period.

#### C. Liquidity Risk:

Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cashflows.

#### D. Market Risk:

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

#### E. Legislative Risk:

Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/ regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

#### C. Defined Benefit Plan - Leave Benefit Note:

(i) The objective of the valuation is to ascertain the liability on utilization of accumulated leave. The accumulated leave may also diminsh on account of utilization if permissible in the course of of employement. The effect of utilization will be reflected in year to year balance and the liability will be adjusted accordingly at every annual acturial valuation. There is no separate accounting standard which lays down the actuarial valuation . There is no separate accounting standard which lays down the actuarial method to be adopted for valuation of liability be adopted for valuation for liability in respect of balance of accumulated leave. However general principles to defined benefit retirement benefit have been applied.

#### (ii) The benefits are governed by the Entity's Leave Policy. The key features are as under

| Employee's Contribution            | 0%   |
|------------------------------------|--|
| Employer's Contribution            | 100%   |
| Salary Definition for Encashment   | Last drawan As per the company rules               |
| Salary Definition for Availment    | Last drawn CTC Salary                              |
| Vesting Condition                  | Not Applicable                                     |
| Leave Credited Annually            | 15 days  |
| Leave Denominator                  | 30 days  |
| Maximum Accumulation               | 60 days  |
| Encashment during the Service      | Allowed  |
| Benefit On Retirement              | Leave Days x Encashment Salary / Leave Denominator |
| Benefit on Resignation/Withdrawals | Same as Retirement Benefit                         |
| Benefit on death                   | Same as Retirement Benefit                         |
| Benefit on Availment               | Leave Days x Availment Salary / Leave Denominator  |
| Retirement Age                     | 58 Years   |

## (iii) Characteristics of defined benefit plans and risks associated with them:

Valuation of defined benefit plan are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary over time. Thus, the Company is exposed to various risks in providing the above benefit plans which are as follows:

ANNUAL REPORT 2024-25 COMPANY OVERVIEW STATUTORY REPORTS FINANCIAL REPORTS

#### A. Actuarial Risk:

It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons: Adverse Salary Growth Experience:

Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.

Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

#### B. Investment Risk:

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter- valuation period.

#### C. Liquidity Risk:

Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cashflows.

#### D. Market Risk:

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

#### E. Legislative Risk:

188

Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/ regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

# Note - 34 - Financial Instruments

# Financial Risk Management - Objectives and Policies

The Company's financial liabilities mainly comprise the loans and borrowings in domestic currency, money related to capital expenditures, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's financial assets comprise mainly of investments, security deposits, cash and cash equivalents, other balances with banks, trade and other receivables that derive directly from its business operations.

The Company is exposed to the Market Risk, Credit Risk and Liquidity Risk from its financial instruments.

The Management of the Company has implemented a risk management system which is monitored by the Board of Directors of the Company. The general conditions for compliance with the requirements for proper and future-oriented risk management within the Company are set out in the risk management principles. These principles aim at encouraging all members of staff to responsibly deal with risks as well as supporting a sustained process to improve risk awareness. The guidelines on risk management specify risk management processes, compulsory limitations, and the application of financial instruments. The risk management system aims to identify, assess, mitigate the risks in order to minimize the potential adverse effect on the Company's financial performance.

The following disclosures summarize the Company's exposure to the financial risks and the information regarding use of derivatives employed to manage the exposures to such risks. Quantitative Sensitivity Analysis has been provided to reflect the impact of reasonably possible changes in market rate on financial results, cash flows and financial positions of the Company.

(\*) Investment in subsidiaries are measured at cost as per Ind AS 27, "Separate financial statements", and hence not presented here.

(\*\*) Fair value of financial assets and liabilities measured at amortized cost approximates their respective carrying values as the management has assessed that there is no significant movement in factor such as discount rates, interest rates, credit risk from the date of the transition. The fair values are assessed by the management using Level 3 inputs.

(\*\*\*) The financial instruments measured at FVTPL represents current investments and derivative assets having been valued using level 2 valuation hierarchy.

# Fair value hierarchy

The fair value of financial instruments as referred to in note below has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities [Level 1 measurements] and lowest priority to unobservable inputs [Level 3 measurements].

The categories used are as follows:

Level 1: Quoted prices for identical instruments in an active market

190 KRN HEAT EXCHANGER AND REFRIGERATION LIMITED 191

Level 2: Directly (i.e. as prices) or indirectly (i.e. derived from prices) observable market inputs, other than Level 1 inputs; and

Level 3: Inputs which are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a net asset value or valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

## B. Market Risk

Market Risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market Risk comprises three types of Risk: "Interest Rate Risk, Currency Risk and Other Price Risk". Financial instrument affected by the Market Risk includes loans and borrowings in foreign as well as domestic currency, retention money related to capital expenditures, trade and other payables.

#### (a) Interest Rate Risk

Interest Rate Risk is the risk that fair value or future cash outflows of a financial instrument will fluctuate because of changes in market interest rates. An upward movement in the interest rate would adversely affect the borrowing cost of the Company. The Company is exposed to long term and short - term borrowings. The Company manages interest rate risk by monitoring its mix of fixed and floating rate instruments and taking actions as necessary to maintain an appropriate balance. The Company has not used any interest rate derivatives.

#### **Exposure to Interest Rate Risk**

(₹ in Lakhs)

## (b) Foreign Currency Risk

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar. Foreign exchange risk arises from recognized assets and liabilities denominated in a currency that is not the functional currency of the Company. Considering the volume of foreign currency transactions, the Company has taken certain forward contracts to manage its exposure.

#### **Exposure to Foreign Currency Risk**

The Carrying amount of Company's unhedged Foreign Currency denominated monetary items are as follows:

(₹ in Lakhs)

#### C. Credit Risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Company. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and other Financial assets measured at amortized cost. The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

The Company assesses and manages credit risk based on internal credit rating system. Internal credit rating is performed for each class of financial instruments with different characteristics. The Company assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets. (i) Low credit risk, (ii) Moderate credit risk, (iii) High credit risk.

Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

#### Financial assets (other than trade receivables) that expose the entity to credit risk are managed and categorized as follows:

| Basis of categorisation | Asset class exposed to credit  | Provision for expected credit loss   |
|-------------------------|--|--|
| Low credit risk         | Cash and Cash Equivalents, Other Bank<br>Balances, Loans and Other Financial<br>Assets | 12 month expected credit loss.   |
| Moderate credit risk    | Other Financial Assets   | 12 month expected credit loss, unless credit risk has increased significantly since initial recognition, in which case allowance is measured at life time expected credit loss |
| High credit risk        | Other Financial Assets   | Life time expected credit loss (when there is significant deterioration) or specific provision whichever is higher   |

#### Financial assets (other than trade receivables) that expose the entity to credit risk (Gross exposure): -

| Moderate/ High Credit Risk     | -                              | -                              |
| Total                          | 11,286.17                      | 5,381.56                       |

#### (i) Cash and cash equivalent and bank balance:

Credit risk related to cash and cash equivalents and bank balance is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks.

#### (ii) Loans and Other financial assets measured at amortized cost:

Other financial assets measured at amortized cost includes Security Deposit to various authorities, Loans to staff and other receivables. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

#### (iii) Trade receivables:

Life time expected credit loss is provided for trade receivables. Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions. Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognized in statement of profit and loss.

#### (A) Expected credit losses:

# Expected credit loss for trade receivables under simplified approach:

The Company recognizes lifetime expected credit losses on trade receivables & other financial assets using a simplified approach, wherein Company has defined percentage of provision by analyzing historical trend of default based on the criteria defined below and such provision percentage determined have been considered to recognize life time expected credit losses on trade receivables (other than those where default criteria are met in which case the full expected loss against the amount recoverable is provided for). Further, the Company has evaluated recovery of receivables on a case to case basis. No provision on account of expected credit loss model has been considered for related party balances. The Company computes credit loss allowance based on provision matrix. The provision matrix is prepared on historically observed default rate over the expected life of trade receivable and is adjusted for forward - looking estimate. The provision matrix at the end of reporting period is as follows:

| Particulars        | Expected Loss Rate |
|--------------------|--------------------|
| Not Due            | 0.00%              |
| Less than 6 Months | 0.50%              |
| 6 Months to 1 Year | 1.00%              |
| 1 Year to 2 Year   | 10.00%             |
| 2 Year to 3 Year   | 25.00%             |
| 3 Year >           | 50.00%             |

(₹ in Lakhs)

| Particulars   | Year ended<br>31st March, 2025 | Year ended<br>31st March, 2024 |
|---|--------------------------------|--------------------------------|
| Movement in Expected Credit Loss Allowance on Trade Receivables |                                |                                |
| Balance at the beginning of the reporting period                | 38.86                          | 22.18                          |
| Loss Allowance measured at lifetime expected credit losses      | 17.48                          | 16.68                          |
| Balance at the end of reporting period                          | 56.35                          | 38.86                          |

#### D. Liquidity Risk

Liquidity Risk is the risk that the Company will encounter difficulty in raising the funds to meet the commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value. Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates.

#### Financing arrangements:

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

(₹ in Lakhs)

| Particulars              | Year ended<br>31st March, 2025 | Year ended<br>31st March, 2024 |
|--------------------------|--------------------------------|--------------------------------|
| Expiring within One Year |                                |                                |
| - CC/EPC Facility        | 4,419.39                       | 3,157.28                       |
| Expiring beyond One Year |                                |                                |
| - CC/EPC Facility        | -                              |                                |

The cash credit and other facilities may be drawn at any time and may be terminated by the bank without notice.

#### Maturities of Financial Liabilities:

The tables below analyze the Company's financial liabilities into relevant maturity based on their contractual maturities for all non-derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant. AS per Annexure "A"

#### E. Capital Management

The Company's capital management objectives are to ensure the company's ability to continue as a going concern, to provide an adequate return to share holders

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet. Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Company's various classes of debt. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

The Company manages its capital on the basis of Net Debt to Equity Ratio which is Net Debt (Total Borrowings net of Cash and Cash Equivalents) divided by total equity.

(₹ in Lakhs)

| Particulars                     | Year ended<br>31st March, 2025 | Year ended<br>31st March, 2024 |

Report on the Audit of the Consolidated Financial Statements

#### Opinion

We have audited the accompanying Consolidated Financial Statements of KRN Heat Exchanger and Refrigeration Limited (Formerly known as KRN Heat Exchanger and Refrigeration Private Limited) (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprises of the consolidated balance sheet as at 31st March, 2025, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and consolidated statement of cash flows for the year ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our knowledge and according to the explanations given to us, the aforesaid Consolidated Financial Statements gives the information required by the Companies Act, 2013, in the manner so required, and gives true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March, 2025 and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended 31st March, 2025.

#### Basis for Opinion

We have conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India, the relevant provisions of the Companies Act, 2013, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statement.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended 31st March, 2025. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon and we do not provide a separate opinion on these matters. There are no key audit matters which need to be reported.

# Information other than the financial statements and Auditor's report thereon

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the Consolidated Financial Statements, Standalone Financial Statements and our Auditor's Report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries is traced from their financial statements audited by the other auditors.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in terms of the requirements of the Companies Act, 2013 that give a true and fair view of the Consolidated financial position and Consolidated financial performance including other comprehensive income, consolidated cash flows and changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. The respective Board of Directors of the Company included in the Group are responsible for

maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statement, that gives a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Management and Board of Directors of the Companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objective is to obtain reasonable assurance about whether the consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement
of the consolidated Financial Statements, whether due
to fraud or error, design and perform audit procedures
responsive to those risks, and obtain audit evidence that
is sufficient and appropriate to provide a basis for our
opinion. The risk of not detecting a material misstatement
resulting from fraud is higher than for one resulting from
error, as fraud may involve collusion, forgery, intentional

omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content
  of the Consolidated Financial Statements, including the
  disclosures, and whether the Consolidated Financial
  Statements represent the underlying transactions and
  events in a manner that achieves fair presentation.
- Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements.
   We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated Financial Statements of which we are Independent Auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also

206

provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended 31st March, 2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matters**

We did not audit the financial statements / financial information of two (2) subsidiaries, whose financial statements / financial information reflect total assets of Rs. 33,462.98 Lakhs as at 31st March, 2025, revenue from operations of Rs. 1,551.05 Lakhs, and net cash inflow of Rs. 933.04 Lakhs for the year ended 31st March, 2025 as considered in the consolidated financial statements. These annual financial statements of the subsidiary have been audited by its respective independent auditor. The independent auditor's report on the financial statements of the aforesaid subsidiary have been furnished to us by the Management and our opinion on the consolidated financial statements in so far as it relates to the amounts and disclosures included in respect of aforesaid subsidiary, and our report in terms of section 143(3) of the Act, in so far as it relates to the aforesaid subsidiary, is based solely on the report of such auditor.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information certified by the Management.

# Report on other Legal and Regulatory Requirements

- As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraph 3(xxi) of the Order.
- 2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statement have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, The Consolidated Statement of Profit and Loss (including other comprehensive income), the consolidated Statement of Changes in Equity, and Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of the consolidated financial statement.
- (d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Accounting Standards specified under Section 133 of the Act read with Companies (Indian Accounting Standards) Rule, 2015 as amended.
- (e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2025 taken on record by the Board of Directors of the Holding Company and subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on 31st March, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to these consolidated financial statements of the holding company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries, as noted in the 'Other matter' paragraph:
  - The consolidated financial statements
     disclose the impact of pending litigations
     on its consolidated financial position of the
     Group, in its consolidated financial statements
     - Refer note 35 to the consolidated financial
     statements;

- The Group did not have any material foreseeable losses on long-term contracts including derivative contracts.
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, and its Subsidiary companies incorporated in India.
- iv. a) The respective management of the holding company and its subsidiary company which in incorporated in India whose financial statements have been audited under the Act have represented to us that, to the best of its knowledge and belief, as disclosed in Note 44 to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or such subsidiary company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:
  - directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the respective Holding Company or such subsidiary company ("Ultimate Beneficiaries") or
  - Provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
  - b) The respective management of the holding company and its subsidiary company which in incorporated in India whose financial statements have been audited under the Act have represented to us that, to the best of its knowledge and belief, as disclosed in Note 44 to the consolidated financial statements, no funds have been received by the Holding Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company shall:
    - directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party or

- Provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries.
- c) Based on such audit procedures as
   considered reasonable and appropriate in
   the circumstances, nothing has come to
   our notice that has caused us to believe
   that the representations under sub-clause
   (i) and (ii) of Rule 11(e), as provided under
   a) and (b) above, contain any material
   misstatements.
- v. No dividend has been declared or paid during the year ended 31st March, 2025 by the Holding Company and its subsidiaries, as the provisions of Section 123 of the Companies Act, 2013 are not applicable to the Holding Company.
- (h) With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:
  - In our opinion and according to the information and explanations given to us, the remuneration paid by the Holding Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.
- (i) Based on our examination which included test checks, the Holding Company and its subsidiary company which are companies incorporated in India has used accounting software for maintaining its books of account for the year ended 31st March, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with in respect of the accounting software.

KRN HEAT EXCHANGER AND REFRIGERATION LIMITED

COMPANY OVERVIEW

With reference to the "Annexure A" referred to in the Independent Auditors' Report to the members of the Holding Company, Subsidiary companies incorporated in india on Consolidated Financial Statements for the year ended 31st March 2025, We report the Following:

According to the information and explanations given to us, companies incorporated in India and included in the Consolidated Financial Statements, there have been no remarks included in their reports under Companies (Auditor's Report) Order, 2020 ("CARO"), which have been reproduced as per the requirements of the Guidance Note on CARO 2020, issued by Institute of Chartered Accountants of India.

"Annexure B" to the Independent Auditor's Report of even date to the members of KRN Heat Exchanger And Refrigeration Limited (Formerly Known as KRN Heat Exchanger And Refrigeration Private Limited) on the Consolidated Financial Statements for the year ended 31st March, 2025.

Report on the Internal Financial Controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Financial Statements of KRN Heat Exchanger And Refrigeration Limited as of and for the year ended 31st March, 2025, we have audited the internal financial controls over financial reporting of KRN Heat Exchanger And Refrigeration Limited (Formerly known as KRN Heat Exchanger And Refrigeration Private Limited) (hereinafter referred to as the "Holding Company") and its subsidiary, which are companies incorporated in India, as of that date.

# Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiaries, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company, its subsidiaries, which are companies incorporated in India, internal financial controls over financial reporting with reference to these Consolidated Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, both, issued by ICAI, and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these Consolidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to these Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to these Consolidated Financial Statements.

# Meaning of Internal Financial Controls with Reference to these Consolidated Financial Statements

A Company's internal financial control over financial reporting with reference to these Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting with reference to these Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the

assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

# Inherent Limitations of Internal Financial Controls with Reference to these Consolidated Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Consolidated Financial Statements to future year are subject to the risk that the internal financial control over financial reporting with reference to these Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors, as referred to in Other Matters paragraph below, the Holding Company, its subsidiary, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls over financial reporting with reference to these Consolidated Financial Statements and such internal financial controls over financial reporting with reference to these Consolidated Financial Statements were operating effectively as at 31st March, 2025, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Sonu Gupta Chief Financial Officer

# RRD

## Notes to the Consolidated Financial Statements

for the year ended on 31st March, 2025 Contd...

#### NOTE - 1

## 1.1 Group Overview:

KRN Heat Exchanger And Refrigeration Limited ('the holding Group'/'Group') is a limited Group (Formerly known as KRN Heat Exchanger And Refrigeration Private Limited) domiciled and incorporated in India. The registered office of the Group is located at Plot No. F- 46,47,48,49 EPIP, RIICO Industrial Area Neemrana RJ-301705, Rajasthan, India.

The Group is engaged in the activity of manufacturing and sale of Heating Ventilation & Air conditioning (HVAC) parts & accessories

Following are the details of the subsidiaries consolidated in these financial statements:

| Name of the entity                             | Country of<br>Incorporation | % Equity interest<br>31st March, 2025 | % Equity interest<br>31st March, 2024 |
|--|-----------------------------|---------------------------------------|---------------------------------------|
| KRN HVAC PRODUCTS                              |                             |                                       |                                       |
| PRIVATE LIMITED                                | India                       | 100.00%                               | 99.99%                                |

#### Principal of Consolidation :-

The Consolidated financials statements related to KRN Heat Exchanger and Refrigeration Limited ("the holding company") and its WOS (wholly owned subsidiary) subsidiary entity viz KRN HVAC Products Private Limited and Thermotech Research Laboratory Pvt Ltd (Together would be called as "Group"). The Consolidated Financial Statements have been prepared on the following basis:

- The financial statements of the holding company and its subsidiary entity, used in the consolidation are drawn up to the same date as that of the group i.e. 31st March, 2025.
- ii. The financial statements of the holding company and its subsidiary entity have been combined on line-byline basis by adding together like items of assets, liabilities, income and expenses, after eliminating intra-group balances, intra-group transactions and resulting unrealized profit or losses, unless cost cannot be recovered.
- iii. The excess of cost to the company of its investment in the subsidiary entity over its share of equity of the subsidiary entity, at the date on which the investment in the subsidiary entity were made, is recognized as 'Goodwill' being an asset in the consolidated financial statement and is tested for impairment on annual basis.
- Goodwill arising on consolidation is not amortized but tested for impairment.
- v. The consolidated financial statement have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the company's separate financial statements.

# 1.2 General Information & Statement of Compliance with Ind AS:

These financial statements are the separate financial statements of the Group (also called as consolidated financial statements) prepared in accordance with Indian Accounting Standard ("Ind AS") notified under the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended.

## 1.3 Significant Accounting Policies:

## 1.3.1Basis of Preparation and Presentation

The Consolidated Financial Statements have been prepared on the historical cost basis except for following assets and liabilities which have been measured at fair value amount:

- (a) Certain Financial Assets and Liabilities (including derivative instruments if any), and
- (b) Defined Benefit Plans Plan Assets
- (c) Certain Property Plant And Equipment Which are Revalued (if any).

The financial statements of the Group have been prepared to comply with the Indian Accounting standards ('Ind AS'), including the rules notified under the relevant provisions of the Companies Act, 2013.

The Group's Consolidated Financial Statements are presented in Indian Rupees, which is also its functional currency.

## 1.3.2 Basis of consolidation

The consolidated financial statements have comprised financial statements of the Holding Group and its subsidiaries. Subsidiaries are all entities (including

structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. The Group can have power over the investee even if it owns less than majority voting rights i.e. rights arising from other contractual arrangements. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases. Statement of profit and loss (including other comprehensive income ('OCI')) of subsidiaries acquired or disposed of during the period are recognized from the effective date of acquisition, or up to the effective date of disposal, as applicable. The Group combines the financial statements of the Holding Group and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intergroup transactions, balances and unrealized gains on transactions between group companies are eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The consolidated financial statements incorporate the financial statements of the Group and entities controlled by the Group i.e. its subsidiaries. It also includes the Group's share of profits, net assets and retained post-acquisition reserves of subsidiaries that are consolidated using the equity or proportionate method of consolidation, as applicable.

Control is achieved when the Group is exposed to, or has rights to the variable returns of the entity and the ability to affect those returns through its power to direct the relevant activities of the entity.

Wherever necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with those used by other members of the Group.

Intra-group transactions, balances, income and expenses are eliminated on consolidation.

Non-Controlling interest in net profits or losses of consolidated subsidiaries for the Period is identified and adjusted against the income or loss in order to arrive at the net income or loss attributable to the shareholders of the Company. Non-Controlling interest in the net assets of the consolidated financial statements consists of the amount of equity attributable to the Non-Controlling shareholders at the dates on which investments are made by the Company in the subsidiary companies and further movements in their share in the equity, subsequent to the dates of initial investments as stated above.

The difference between the cost to the group of investment in subsidiaries and the proportionate share in the equity of the investee Company as at the date of acquisition of stake is recognized in the consolidated financial statements as goodwill or capital reserve, as the case may be. Goodwill arising on consolidation is tested for impairment annually. The proportionate share in equity has been calculated by time proportioning the adjusted profits/losses of the subsidiary Company.

#### 1.3.3 Fair Value Measurement

Some of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. This includes a financial reporting team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values.

The financial reporting team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as pricing services, is used to measure fair values, then the financial reporting team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

ANNUAL REPORT 2024-25

#### 1.3.4 Current and Non-Current Classification

The Group presents assets and liabilities in the Balance Sheet based on Current /Non- Current classification.

An asset is treated as Current when it is -

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

## 1.3.5 Property, Plant and Equipment

## (a) Tangible Assets

Property, Plant and Equipment are stated at cost, net of recoverable taxes, trade discount and rebates less accumulated depreciation and impairment losses, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Property, Plant and Equipment which are significant to the total cost of that item of Property, Plant and Equipment and having different useful life are accounted separately.

Other Indirect Expenses incurred relating to project, net of income earned during the project development stage prior to its intended use, are considered as pre-operative expenses and disclosed under Capital Work-in-Progress.

#### Depreciation

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Based on technical evaluation carried out by management, depreciation on fixed assets has been provided on the Straight line method as per the useful life and residual value prescribed Schedule II to the Companies Act, 2013. Residual value has been assessed at 5% of cost of the assets.

Depreciation and amortization on addition to fixed assets is provided on pro-rata basis from the date the assets are ready for intended use. Depreciation and amortization on sale/ discard from fixed assets is provided for up to the date of sale, deduction or discard of fixed assets as the case may be.

Individual assets costing Rs. 5,000 or below are depreciated/ amortized in full in the year of purchase. Depreciation/ Amortization method and useful lives are reviewed at each reporting date. If the useful life of an asset is estimated to be significantly different from previous estimates, the depreciation/ amortization period is changed accordingly.

| Asset                                     | Useful Life |
|---|-------------|
| Factory Building                          | 20 years    |
| Plant & machinery (computers)             | 3 years     |
| Plant & machinery (tools & dies)          | 3 years     |
| Plant & machinery (solar plant)           | 15 years    |
| Plant & machinery (electric installation) | 8 years     |
| Plant & machinery (others)                | 10 years    |
| Furniture & fixtures                      | 10 years    |
| Office equipment's                        | 5 years     |
| Vehicles                                  | 8 years     |

#### (b) Capital Work-in-Progress and Capital Advances

Cost of Property, Plant and Equipment not ready for intended use, as on the balance sheet date, is shown as a "Capital Work-in-Progress". The Capital Work-in-Progress is stated at cost. Any expenditure in relation to survey and investigation of the properties is carried as Capital Work-in-Progress. Such expenditure is either capitalized as cost of the projects on completion of construction project or the

same is expensed in the period in which it is decided to abandon such project. Any advance given towards acquisition of Property, Plants and Equipment outstanding at each balance sheet date is disclosed as "Other Current Assets".

## (c) Intangible Assets

Intangible Assets are stated at cost of acquisition net of recoverable taxes, trade discount and rebates less accumulated amortization /depletion and impairment losses, if any. Such cost includes purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the Intangible Assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

#### Amortization

The amortization expenses on Intangible assets with the finite lives are recognized in the Statement of Profit and Loss. The Group's intangible assets comprises assets with finite useful life which are amortized on a straight-line basis over the period of their expected useful life.

The amortization period and the amortization method for an intangible asset with finite useful life is reviewed at each financial year end and adjusted prospectively, if appropriate.

# 1.3.6 Impairment of Non-Financial Assets – Property, Plant and Equipment and Intangible Assets

The Group assesses at each reporting date as to whether there is any indication that any Property, Plant and Equipment and Intangible Assets or group of Assets, called Cash Generating Units (CGU) may be impaired. If any such indication exists, the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated

future cash flows, discounted to their present value using pre- tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

There are no losses from impairment of assets to be recognized in the consolidated financial statements.

#### 1.3.7Investment Properties

Investment properties (if any), are measured initially at cost, including transaction costs. Subsequent to initial recognition. Items of investment properties are measured at cost less accumulated depreciation/ amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for its intended use. Investment properties are depreciated on straight line method on pro-rata basis at the rates specified therein. Subsequent expenditure including cost of major overhaul and inspection is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Long-term investments are stated at cost. Provision for diminution in the value of Long-Term investment is being made only if such decline is of other than temporary in nature in the opinion of management. Current investments are stated at lower of cost or fair value.

## 1.3.8 Inventories

Inventory includes raw material, work in progress, finished goods and stock in trade.

- a) Inventories values at lower of cost or net realisable value. Cost includes purchase price, taxes (excluding those subsequently recoverable by the enterprise from the concerned revenue authorities), freight inwards and other expenditure incurred in bringing such inventories to their present location and condition. In determining the cost, weighted average method is used.
- Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.
- c) The comparison of cost or net realisable value is made on item by item basis.

- d) Stock of Finished Goods and Work in Progress are valued at lower of cost or net realizable value and cost is determined by taking material, labour and related overheads
- e) Scrap is valued at net realizable value.

## 1.3.9 Borrowing Costs

Borrowing costs include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred.

#### 1.3.10 Employee Benefits

## (A) Short-Term Employee Benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

## (B) Post-Employment Benefits

(i) Defined Contribution Plans

The Group recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre- payment will lead to a reduction in future payment or a cash refund.

#### (ii) Defined Benefit Plans

(a) Gratuity Scheme: The Group pays gratuity to the employees who have completed five years of service with the Group at the time of resignation/superannuation. The gratuity is paid ⓐ 15 days basic salary and dearness allowances for every completed year of service as per the Payment of Gratuity Act, 1972. The liability in respect of gratuity and other post-employment benefits is calculated using the Projected Unit Credit Method and spread over the period during which the benefit is expected to be derived from employees' services.

Remeasurement gains and losses arising from adjustments and changes in actuarial assumptions are recognised in the period in which they occur in Other Comprehensive Income.

(iii) Other Long - Term Employee Benefits Entitlement to annual leave is recognized when they accrue to employees.

#### 1.3.11 Revenue Recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services.

The Group has generally typically controls the goods or services before transferring them to the customer.

Generally, control is transferred upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Group has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue from rendering of services is recognised on when the services are rendered and related cost are incurred over time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.

Revenue is measured at the amount of consideration which the Group expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognised when it becomes unconditional.

#### **Export Incentives**

Export incentive revenues are recognized when the right to receive the credit is established and there is no significant uncertainty regarding the ultimate collection.

#### Interest Income

Interest Income from a Financial Assets is recognised using effective interest rate method.

#### Dividend Income

Dividend Income is recognised when the Group's right to receive the amount has been established.

# Surplus / (Loss) on disposal of Property, Plants and Equipment / Investments

Surplus or loss on disposal of property, plants and equipment or investment is recorded on transfers of title from the Group, and is determined as the difference between the sales price and carrying value of the property, plants and equipment or investments and other incidental expenses.

#### Rental Income

Rental income arising from operating lease on investments properties is accounted for on a straight - line basis over the lease term except the case where the incremental lease reflects inflationary effect and rental income is accounted in such case by actual rent for the period.

## Insurance Claim

Claim receivable on account of insurance is accounted for to the extent the Group is reasonably certain of their ultimate collections.

## Other Income

Revenue from other income is recognized on accrual basis.

## 1.3.12 Foreign Currency Transactions and Translation

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets which are capitalized as cost of assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are recorded using the exchange rates at the date of the transaction.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss

arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in Other Comprehensive Income or Statement of Profit and Loss are also recognised in Other Comprehensive Income or Statement of Profit and Loss, respectively).

#### 1.3.13 Government Grants and Subsidies

Grants in the nature of subsidies which are nonrefundable are recognized as income where there is reasonable assurance that the Group will comply with all the necessary conditions attached to them. Income from grants is recognized on a systematic basis over periods in which the related costs that are intended to be compensated by such grants are recognized.

Refundable government grants are accounted in accordance with the recognition and measurement principle of Ind AS 109, "Financial Instruments". It is recognized as income when there is a reasonable assurance that the Group will comply with all necessary conditions attached to the grants. Income from such benefit is recognized on a systematic basis over the period of the grants during which the Group recognizes interest expense corresponding to such grants.

## 1.3.14 Financial Instruments - Financial Assets

#### (A) Initial Recognition and Measurement

All Financial Assets are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition or issue of Financial Assets, which are not at Fair Value Through Profit or Loss, are adjusted to the fair value on initial recognition. Purchase and sale of Financial Assets are recognised using trade date accounting.

## (B) Subsequent Measurement

- a) Financial Assets measured at Amortized Cost (AC)
- A Financial Asset is measured at Amortized Cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise to cash flows on specified dates that represent solely payments of principal and interest on the principal amount outstanding.
- Financial Assets measured at Fair Value Through
   Other Comprehensive Income (FVTOCI)

A Financial Asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual

cash flows and selling Financial Assets and the contractual terms of the Financial Asset give rise on specified dates to cash flows that represents solely payments of principal and interest on the principal amount outstanding.

Further, the Group, through an irrevocable election at initial recognition, has measured certain investments in equity instruments at FVTOCI. The Group has made such election on an instrument-by-instrument basis. These equity instruments are neither held for trading nor are contingent consideration recognized under a business combination. Pursuant to such irrevocable election, subsequent changes in the fair value of such equity instruments are recognized in OCI. However, the Group recognizes dividend income from such instruments in the Statement of Profit and Loss.

## Financial Assets measured at Fair Value Through Profit or Loss (FVTPL)

A Financial Asset which is not classified in any of the above categories is measured at FVTPL. Financial assets are reclassified subsequent to their recognition, if the Group changes its business model for managing those financial assets. Changes in business model are made and applied prospectively from the reclassification date which is the first day of immediately next reporting period following the changes in business model in accordance with principles laid down under Ind AS 109 – Financial Instruments.

#### (C) Investments

Investments are classified in to Current or Non-Current Investments. Investments that are readily realizable and intended to be held for not more than a year from the date of acquisition are classified as Current Investments. All other Investments are classified as Non - Current Investments. However, that part of Non - Current Investments which are expected to be realized within twelve months from the Balance Sheet date is also presented under "Current Investments" under "Current portion of Non-Current Investments" in consonance with Current/Non-Current classification of Schedule - III of the Act.

All the equity investment which covered under the scope of Ind AS 109, "Financial Instruments" is measured at the fair value. Investment in Mutual Fund is measured at fair value through profit and loss (FVTPL). Trading Instruments are measured at fair value through profit and loss (FVTPL).

## (D) Investment in Subsidiaries, Associates and Joint Ventures

The Group has accounted for its investments in Subsidiaries, associates and joint venture at cost less impairment loss (if any).

## (E) Impairment of Financial Assets

In accordance with Ind AS 109, the Group uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of Financial Assets other than those measured at Fair Value Through Profit and Loss (FVTPL).

## 1.3.15 Financial Instruments - Financial Liabilities

#### (A) Initial Recognition and Measurement

All Financial Liabilities are recognised at fair value and in case of borrowings, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

#### (B) Subsequent Measurement

Financial Liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

## 1.3.16 Derivative Financial Instruments and Hedge Accounting

The Group enters into derivative contracts in the nature of forward currency contracts with external parties to hedge its foreign currency risks relating to foreign currency denominated financial assets measured at amortized cost.

The Group formally establishes a hedge relationship between such forward currency contracts ('hedging instrument') and recognised financial assets ('hedged item') through a formal documentation at the inception of the hedge relationship in line with the Group's Risk Management objective and strategy.

The hedge relationship so designated is accounted for in accordance with the accounting principles prescribed for a cash flow hedge under Ind AS 109, 'Financial Instruments'.

## Recognition and measurement of cash flow hedge:

The Group strictly uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. As per Ind AS 109 - Financial Instruments, foreign currency forward contracts are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that

are designated and effective as hedges of future cash flows are recognised in hedge reserve (under reserves and surplus) through other comprehensive income and the ineffective portion is recognised immediately in the statement of profit and loss.

The accumulated gains / losses on the derivatives accounted in hedge reserve are transferred to the statement of profit and loss in the same period in which gains / losses on the underlying item hedged are recognised in the statement of profit and loss.

#### Derecognition:

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. When hedge accounting is discontinued for a cash flow hedge, the net gain or loss will remain in hedge reserve and be reclassified to the statement of profit and loss in the same period or periods during which the formerly hedged transaction is reported in the statement of profit and loss. If a hedged transaction is no longer expected to occur, the net cumulative gains / losses recognised in hedge reserve is transferred to the statement of profit and loss.

#### Fair Value Hedge:

The Group designates derivative contracts or nonderivative Financial Assets/Liabilities as hedging instruments to mitigate the risk of change in fair value of hedged item due to movement in interest rates, foreign exchange rates and commodity prices.

Changes in the fair value of hedging instruments and hedged items that are designated and qualify as fair value hedges are recorded in the Statement of Profit and Loss. If the hedging relationship no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortized to Statement of Profit and Loss over the period of maturity.

## 1.3.17 Derecognition of Financial Instruments

The Group derecognizes a Financial Asset when the contractual rights to the cash flows from the Financial Asset expire or it transfers the Financial Asset and the transfer qualifies for derecognition under Ind AS 109. A Financial liability (or a part of a financial liability) is derecognized from the Group's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

## 1.3.18 Financial Instruments - Offsetting

Financial Assets and Financial Liabilities are offset and the net amount is presented in the balance sheet when, and only when, the Group has a legally enforceable right to set off the amount and it intends, either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

#### 1.3.19 Taxes on Income

The tax expenses for the period comprises of current tax and deferred income tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the Other Comprehensive Income. In which case, the tax is also recognised in Other Comprehensive Income.

#### (a) Current Tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the Income Tax authorities, based on tax rates and laws that are enacted at the Balance sheet date.

#### (b) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax assets are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax losses can be utilized. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period.

#### Presentation

The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Group has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Group.

## 1.3.20 Segment Reporting

Segments are identified having regard to the dominant source and nature of risks and returns and the internal organization and management structure. Operating

224

segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Chairman and Managing Director (CMD) of the Company have been identified as the Chief Operating Decision Maker (CODM).

#### 1.3.21 Research and Development

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss as and when incurred.

Development costs are capitalized as an intangible asset if it can be demonstrated that the project is expected to generate future economic benefits, it is probable that those future economic benefits will flow to the entity and the costs of the asset can be measured reliably, else it is charged to the Statement of Profit and Loss.

### 1.3.22 Earnings per Share

Basic earnings per share is calculated by dividing the net profit after tax by the weighted average number of equity shares outstanding during the year adjusted for bonus element in equity share. Diluted earnings per share adjusts the figures used in determination of basic earnings per share to take into account the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as at the beginning of the period unless issued at a later date.

## 1.3.23 Provisions, Contingent Liabilities

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability.

Disclosure of contingent liability is made when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources embodying economic benefits will be required to settle or a reliable estimate of amount cannot be made.

## 1.3.24 Events after Reporting Date

Where events occurring after the Balance Sheet date provide evidence of condition that existed at the end of reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

#### 1.3.25 Non - Current Assets Held For Sales

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and sale is considered highly probable.

A sale is considered as highly probable when decision has been made to sell, assets are available for immediate sale in its present condition, assets are being actively marketed and sale has been agreed or is expected to be concluded within 12 months of the date of classification.

Non-current assets held for sale are neither depreciated nor amortised.

Assets and liabilities classified as held for sale are measured at the lower of their carrying amount and fair value less cost of sale and are presented separately in the Balance Sheet.

## 1.3.26 Cash Flows Statement

Cash Flows Statements are reported using the method set out in the Ind AS – 7, "Cash Flow Statements", whereby the Net Profit / (Loss) before tax is adjusted for the effects of the transactions of a Non-Cash nature, any deferrals or accrual of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated.

#### 1.3.27 Cash and Cash Equivalents

Cash and cash equivalents comprise of cash on hand, cash at banks, short-term deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### 1.3.28 Recent Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. MCA has notified Ind AS-117 – Insurance Contracts and amendments to Ind AS-116 – Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. April 1, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not

have any significant impact in its financial statements.

## 1.4 Critical Accounting Judgments and Key Sources of Estimation Uncertainty:

The preparation of the Group's Financial Statements requires management to make judgment, estimates and assumptions that affect the reported amount of revenue,

expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in next financial years.

#### 1.4.1 Income Tax

The Group's tax jurisdiction is in India. Significant judgments are involved in estimating budgeted profits for the purpose of paying advance tax, determining the income tax provisions, including the amount expected to be paid / recovered for uncertain.

#### 1.4.2 Property Plant and Equipment/ Intangible Assets

Estimates are involved in determining the cost attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the management. Property, Plant and Equipment/Intangible Assets are depreciated/amortised over their estimated useful life, after taking into account estimated residual value.

Management reviews the estimated useful life and residual values of the assets annually in order to determine the amount of depreciation/ amortisation to be recorded during any reporting period. The useful life and residual values are based on the Group's historical experience with similar assets and take into account anticipated technological changes. The depreciation/ amortisation for future periods is revised if there are significant changes from previous estimates.

#### 1.4.3 Defined Benefits Obligations

The costs of providing Gratuity and other postemployment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS – 19, "Employee Benefits" over the period during which benefit is derived from the employees' services. It is determined by using the Actuarial Valuation and assessed on the basis of assumptions selected by the management. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates. Due to complexities involved in the valuation and its long term in nature, a defined benefit obligation is highly sensitive to change in these assumptions. All assumptions are reviewed at each balance sheet date.

### 1.4.4 Fair value measurements of Financial Instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be

measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgments and assumptions.

## 1.4.5 Recoverability of Trade Receivables

Judgments are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

#### 1.4.6 Provisions

The timing of recognition and quantification of the liability (including litigations) requires the application of judgment to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

#### 1.4.7Impairment of Financial and Non - Financial Assets

The impairment provisions for Financial Assets are based on assumptions about risk of default and expected cash loss rates. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward-looking estimates at the end of each reporting period.

In case of non-financial assets Group estimates asset's recoverable amount, which is higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

## 1.4.8 Recognition of Deferred Tax Assets and Liabilities

Deferred tax assets and liabilities are recognised for deductible temporary differences and unused tax losses for which there is probability of utilisation against the future taxable profit. The Group uses judgment to determine the amount of deferred tax that can be recognised, based upon the likely timing and the level of future taxable profits and business developments.

## Note-34 - Details of Employee Benefits:

The Company has the following post-employment benefit plans:

## A. Defined Contribution Plan

Contribution to defined contribution plan recognised as expense for the period is as under:

The Company offers its employees benefits under defined contribution plans in the form of provident fund. Provident fund covers substantially all regular employees which are on payroll of the company. Both the employees and the Company pay predetermined contributions into the provident fund and approved superannuation fund. The contributions are normally based on a certain proportion of the employee's salary and are recognised in the Statement of Profit and Loss as incurred.

(₹ in Lakhs)

| Particulars                                   | For the year ended<br>31st March, 2025 | For the year ended<br>31st March, 2024 |
|---|--|--|
| Contribution to provident fund and other Fund | 61.95                                  | 43.94                                  |

## B. Defined Benefit Plan - Gratuity:

(i) The Company administers its employees' gratuity scheme funded liability. The present value of the liability for the defined benefit plan of gratuity obligation is determined based on actuarial valuation by an independent actuary at the period end, which is calculated using the projected unit credit method, which recognises each year of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

## (ii) Gratuity benefits in India are governed by the Payment of Gratuity Act, 1972. The key features are as under

| Reti | rement Age       | 58 Years  |
|------|------------------|---|
| Ben  | efit Eligibility | Upon Death or resignation or withdrawal or retirement                       |
| Vest | ting Conditions  | 5 Years of Continuous Service (Not Applicable In Case of Death/ Disability) |
| Ben  | efit Ceiling     | Benefit Ceiling of ₹ 20 Lakhs   |
| Sala | ary Definition   | Last Drawn Basic Salary including Dearness Allowance (if any)               |
| Ben  | efits Offered    | 15/26* salary* Duration of service  |

#### (iii) Characteristics of defined benefit plans and risks associated with them:

Valuation of defined benefit plan are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary over time. Thus, the Company is exposed to various risks in providing the above benefit plans which are as follows:

#### A. Actuarial Risk:

It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.

Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

#### B. Investment Risk:

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter- valuation period."

#### C. Liquidity Risk:

Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cashflows."

#### D. Market Risk:

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

#### E. Legislative Risk:

Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective."

## B. Changes in the Present value of Obligation

(₹ in Lakhs)

| Particulars   | For the year ended<br>31st March, 2025 | For the year ended<br>31st March, 2024 |

#### **Actuarial Assumptions**

(₹ in Lakhs)

| Particulars                      | For the year ended 31st March, 2025 31st March, 2024  |
|----------------------------------|---|
| Discount Rate                    | 6.80% 7.25%   |
| Expected rate of salary increase | 8.00% 8.00%   |
| Expected Return on Plan Assets   | N/A N/A   |
| Mortality Rates                  | Indian Assured Lives Mortality (2012-14) Ult. Indian Assured Lives Mortality (2012-14) Ult. |
| Retirement Age                   | 58 58   |

#### C. Defined Benefit Plan - Leave Benefit Note:

- (i) The objective of the valuation is to ascertain the liability on utilization of accumulated leave. The accumulated leave may also diminish on account of utilization if permissible in the course of employement. The effect of utilization will be reflected in year to year balance and the liability will be adjusted accordingly at every annual actuarial valuation. There is no separate accounting standard which lays down the actuarial valuation of liability be adopted for valuation for liability in respect of balance of accumulated leave. However general principles to defined benefit retirement benefit have been applied.
- (ii) The benefits are governed by the Entity's Leave Policy. The key features are as under

| Employee's Contribution            | 0%   |
|------------------------------------|--|
| Employer's Contribution            | 100%   |
| Salary Definition for Encashment   | Last drawn As per the company rules                |
| Salary Definition for Availment    | Last drawn CTC Salary                              |
| Vesting Condition                  | Not Applicable                                     |
| Leave Credited Annually            | 15 days  |
| Leave Denominator                  | 30 days  |
| Maximum Accumulation               | 60 days  |
| Encashment during the Service      | Allowed  |
| Benefit On Retirement              | Leave Days x Encashment Salary / Leave Denominator |
| Benefit on Resignation/Withdrawals | Same as Retirement Benefit                         |
| Benefit on death                   | Same as Retirement Benefit                         |
| Benefit on Availment               | Leave Days x Availment Salary / Leave Denominator  |
| Retirement Age                     | 58 Years   |

#### (iii) Characteristics of defined benefit plans and risks associated with them:

Valuation of defined benefit plan are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary over time. Thus, the Company is exposed to various risks in providing the above benefit plans which are as follows:

## A. Actuarial Risk:

It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.

Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

#### B. Investment Risk:

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter- valuation period.

## C. Liquidity Risk:

Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cashflows.

#### D. Market Risk:

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

#### E. Legislative Risk:

Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

### D. Changes in the Present value of Obligation

## Note -36 - Leases (Right to Use of Assets)

The Company's significant leasing arrangements are in respect of Land premises taken on lease.

The Company has recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the ROU asset at its carrying amount. The weighted average incremental borrowing rate applied to lease liabilities is 8.50 %.

The break-up of current and non-current lease liabilities is as follows:

#### Note - 37 - Financial Instruments

#### Financial Risk Management - Objectives and Policies

The Company's financial liabilities mainly comprise the loans and borrowings in domestic currency, money related to capital expenditures, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's financial assets comprise mainly of investments, security deposits, cash and cash equivalents, other balances with banks, trade and other receivables that derive directly from its business operations.

The Company is exposed to the Market Risk, Credit Risk and Liquidity Risk from its financial instruments.

The Management of the Company has implemented a risk management system which is monitored by the Board of Directors of the Company. The general conditions for compliance with the requirements for proper and future-oriented risk management within the Company are set out in the risk management principles. These principles aim at encouraging all members of staff to responsibly deal with risks as well as supporting a sustained process to improve risk awareness. The guidelines on risk management specify risk management processes, compulsory limitations, and the application of financial instruments. The risk management system aims to identify, assess, mitigate the risks in order to minimize the potential adverse effect on the Company's financial performance.

The following disclosures summarize the Company's exposure to the financial risks and the information regarding use of derivatives employed to manage the exposures to such risks. Quantitative Sensitivity Analysis has been provided to reflect the impact of reasonably possible changes in market rate on financial results, cash flows and financial positions of the Company.

## A. Financial Assets and Liabilities

(\*) Fair value of financial assets and liabilities measured at amortized cost approximates their respective carrying values as the management has assessed that there is no significant movement in factor such as discount rates, interest rates, credit risk from the date of the transition. The fair values are assessed by the management using Level 3 inputs.

(\*\*) The financial instruments measured at FVTPL represents current investments and derivative assets having been valued using level 2 valuation hierarchy.

## Fair value hierarchy

The fair value of financial instruments as referred to in note below has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities [Level 1 measurements] and lowest priority to unobservable inputs [Level 3 measurements].

The categories used are as follows:

Level 1: Quoted prices for identical instruments in an active market

Level 2: Directly (i.e. as prices) or indirectly (i.e. derived from prices) observable market inputs, other than Level 1 inputs; and

Level 3: Inputs which are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a net asset value or valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

#### B. Market Risk

Market Risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market Risk comprises three types of Risk: "Interest Rate Risk, Currency Risk and Other Price Risk". Financial instrument affected by the Market Risk includes loans and borrowings in foreign as well as domestic currency, retention money related to capital expenditures, trade and other payables.

## (a) Interest Rate Risk

Interest Rate Risk is the risk that fair value or future cash outflows of a financial instrument will fluctuate because of changes in market interest rates. An upward movement in the interest rate would adversely affect the borrowing cost of the Company. The Company is exposed to long term and short - term borrowings. The Company manages interest rate risk by monitoring its mix of fixed and floating rate instruments and taking actions as necessary to maintain an appropriate balance. The Company has not used any interest rate derivatives.

#### **Exposure to Interest Rate Risk**

(₹ in Lakhs)

| Particulars                                 | For the year ended<br>31st March, 2025 | For the year ended<br>31st March, 2024 |
|---|--|--|
| Borrowing bearing fixed rate of interest    | -                                      | 0.25                                   |
| Borrowing bearing variable rate of interest | 3,348.89                               | 5,972.13                               |

## Sensitivity Analysis

Profit / (Loss) estimates to higher / lower interest rate expense from borrowings bearing variable rate of interest as a result of changes in interest rate.

| Particulars                                 | For the year ended<br>31st March, 2025 | For the year ended<br>31st March, 2024 |
|---|--|--|
| Interest Rate - Increase by 50 Basis Points | (16.74)                                | (29.86)                                |
| Interest Rate - Decrease by 50 Basis Points | 16.74                                  | 29.86                                  |

<sup>(\*)</sup> holding all other variable constant. Tax impact not considered.

#### (b) Foreign Currency Risk

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar. Foreign exchange risk arises from recognized assets and liabilities denominated in a currency that is not the functional currency of the Company. Considering the volume of foreign currency transactions, the Company has taken certain forward contracts to manage its exposure.

## **Exposure to Foreign Currency Risk**

The Carrying amount of Company's unhedged Foreign Currency denominated monetary items are as follows:

#### C. Credit Risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Company. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and other Financial assets measured at amortized cost. The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

The Company assesses and manages credit risk based on internal credit rating system. Internal credit rating is performed for each class of financial instruments with different characteristics. The Company assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets. (i) Low credit risk, (ii) Moderate credit risk, (iii) High credit risk.

Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Financial assets (other than trade receivables) that expose the entity to credit risk are managed and categorized as follows:

| Basis of categorisation | Asset class exposed to credit   | Provision for expected credit loss   |
|-------------------------|---|--|
| Low credit risk         | Cash and Cash Equivalents, Other Bank<br>Balances, Loans and Other Financial Assets | 12 month expected credit loss.   |
| Moderate credit risk    | Other Financial Assets  | 12 month expected credit loss, unless credit risk has increased significantly since initial recognition, in which case allowance is measured at life time expected credit loss |
| High credit risk        | Other Financial Assets  | Life time expected credit loss (when there is significant deterioration) or specific provision whichever is higher   |

Financial assets (other than trade receivables) that expose the entity to credit risk (Gross exposure): -

(₹ in Lakhs)

| Particulars  | Year ended<br>31st March, 2025 | Year ended<br>31st March, 2024 |
|--|--------------------------------|--------------------------------|
| Low Credit Risk                                    |                                |                                |
| Cash and cash equivalents                          | 1026.34                        | 1030.81                        |
| Bank Balances other than cash and cash equivalents | 14089.95                       | 568.69                         |
| Loans  | 7.57                           | 53.47                          |
| Other Financial Assets                             | 354.74                         | 163.05                         |
| Moderate/ High Credit Risk                         | -                              | -                              |
| Total  | 15478.60                       | 1816.02                        |

#### (i) Cash and cash equivalent and bank balance:

Credit risk related to cash and cash equivalents and bank balance is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks.

#### (ii) Loans and Other financial assets measured at amortized cost:

Other financial assets measured at amortized cost includes Security Deposit to various authorities, Loans to staff and other receivables. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

#### (iii) Trade receivables:

Life time expected credit loss is provided for trade receivables. Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions. Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognized in statement of profit and loss.

### (A) Expected credit losses:

### Expected credit loss for trade receivables under simplified approach:

The Company recognizes lifetime expected credit losses on trade receivables & other financial assets using a simplified approach, wherein Company has defined percentage of provision by analyzing historical trend of default based on the criteria defined below and such provision percentage determined have been considered to recognize life time expected credit losses on trade receivables (other than those where default criteria are met in which case the full expected loss against the amount recoverable is provided for). Further, the Company has evaluated recovery of receivables on a case to case basis. No provision on account of expected credit loss model has been considered for related party balances. The Company computes credit loss allowance based on provision matrix. The provision matrix is prepared on historically observed default rate over the expected life of trade receivable and is adjusted for forward - looking estimate. The provision matrix at the end of reporting period is as follows:

| Particulars      | Expected Loss Rate |
|------------------|--------------------|
| ⟨ 90 Days -      | 0.00%              |
| 120 to 180 days  | 0.50%              |
| 180 to 365 days  | 1.00%              |
| 1 Year to 2 Year | 10.00%             |
| 2 Year to 3 Year | 25.00%             |
| 3 Year >         | 50.00%             |

## D. Liquidity Risk

Liquidity Risk is the risk that the Company will encounter difficulty in raising the funds to meet the commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value. Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates.

#### Financing arrangements:

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

(₹ in Lakhs)

| Particulars              | Year ended<br>31st March, 2025 | Year ended<br>31st March, 2024 |
|--------------------------|--------------------------------|--------------------------------|
| Expiring within One Year |                                |                                |
| - CC/EPC Facility        | 4,419.39                       | 3,157.28                       |
| Expiring beyond One Year |                                |                                |
| - CC/EPC Facility        |                                |                                |

The cash credit and other facilities may be drawn at any time and may be terminated by the bank without notice.

#### Maturities of Financial Liabilities:

The tables below analyze the Company's financial liabilities into relevant maturity based on their contractual maturities for all non-derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant. As per Annexure "A"

## E. Capital Management

The Company's capital management objectives are to ensure the company's ability to continue as a going concern, to provide an adequate return to shareholders.

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet. Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Company's various classes of debt. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

The Company manages its capital on the basis of Net Debt to Equity Ratio which is Net Debt (Total Borrowings net of Cash and Cash Equivalents) divided by total equity.

(₹ in Lakhs)

| Particulars                     | For the year ended<br>31st March, 2025 | For the year ended<br>31st March, 2024 |

The Company has complied with the covenants as per the terms and conditions of the major borrowing facilities throughout the Reporting Period.

## Note - 38 - Balance confirmation of Receivables

Confirmation letters have not been obtained from all the parties in respect of Trade Receivable, Other Non- Current Assets and Other Current Assets. Accordingly, the balances of the accounts are subject to confirmation, reconciliation and consequent adjustments, if any.

#### Note - 39 - Balance Confirmation of Payables

Confirmation letters have not been obtained from all the parties in respect of Trade Payable and other current liabilities. Accordingly, the balances of the accounts are subject to confirmation, reconciliation and consequent adjustments, if any.

## Note - 40 - Events occurring after the Balance sheet Date

The Group evaluates events and transactions that occur subsequent to the balance sheet date but prior to approval of the financial statements to determine the necessity for recognition and/or reporting of any of these events and transactions in the financial statements. There are no subsequent events to be recognized or reported that are not already disclosed.

## Note - 43 - PRINCIPLES OF CONSOLIDATION

The Consolidated audited financial statements related to KRN Heat Exchanger and Refrigeration Limited (""the company"") and its WOS subsidiary entity viz KRN HVAC Producs Private Limited and Thermotech Research Laboratory Pvt. Ltd. (Together would be called as ""Group""). The Consolidated Financial Statements have been prepared on the following basis:

- i. The financial statements of the company and its subsidiary entity, used in the consolidation are drawn up to the same date as that of the company i.e 31st March 2025.
- ii. The Consolidated audited financial statements of the Company and its subsidiary entity have been combined on line-by-line basis by adding together like items of assets, liabilities, income and expenses, after eliminating intra-group balances, intragroup transactions and resulting unrealized profit or losses, unless cost cannot be recovered.
- iii. The excess of cost to the company of its investment in the subsidiary entity over its share of equity of the subsidiary entity, at the date on which the investment in the subsidiary entity were made, is recognized as 'Goodwill' being an asset in the consolidated financial statement and is tested for impairment on annual basis.
- iv. Goodwill arising on consolidation is not amortized but tested for impairment.
- v. The Restated consolidated financial statement have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the company's separate financial statements.
- vi. Following subsidiary company/entity, associate and jointly controlled entities have been considered in the preparation of the Restated consolidated financial statement:"

(₹ in Lakhs)

| Name of the Company                       | Relationship               | Country of incorporation | % of Holding and voting power either directly or indirectly through subsidiary (As at 31st March, 2025) |

|   | Invested funds  | 14,714.95      | 1,571.69       |          |
|   | Return on investment                                  | 4.84%          | 3.91%          | 23.87%   |

Note 1:- The above Income from Investment is Interest earned on Fixed Deposits(FD). The said FDs are held as pledged against credit facility. Hence is not held for investment purpose.

## Reason for variance More than 25 %

#### A Current ratio (In times)

Company's current assets has increased and current liabilities has decreased. Thus, current ratio improved from 1.66 % to 4.52 % as the company has more short-term assets to cover its short-term obligations.

## B Debt-Equity Ratio (in times)

During the year, debt equity ratio reduced from 0.46 to 0.07 due to decrease in total debts from  $\stackrel{?}{\sim}$  5,969.19 Lakhs to  $\stackrel{?}{\sim}$  3,346.76 Lakhs and a significant increase in equity as compared to previous year.

## D Return on Equity Ratio (in %)

Return on Equity Ratio decreased from 41.87% to 16.81% due to lower proportional increase in the net profit after tax relative to the increase in average shareholder's equity.

## H Net capital turnover ratio (In times)

The Net Capital Turnover Ratio declined from 4.55 times to 1.30 times, primarily because revenue from operations did not grow in proportion to the significant increase in net working capital.

## J Return on Capital employed (in %)

Return on Capital employed decreased from 31.54% to 14.61% due to capital employed increasing in greater proportion compared to earnings before interest and tax.
